• EDITO •

It is about trends. It is about new products, new concepts, new players. It is also about old friends. It is about paddlesports in all its forms.

What we are talking about is the paddlesport gear addict's favorite annual publication: the PADDLEexpo All Paddlesports Buyers Guide. It's 200+ pages filled with classics, new products, markets trends, innovations, creativity and inspiration—inspiration to try something new, do something different, and to get outside and into or onto the water.

But we are also talking about something larger.

As we move further into the digital era we risk disappearing behind screens, relying on technology rather than face-to-face communication. It is vital to have somewhere to meet, assemble, communicate, touch base, share ideas and re-form as a community.

It is the same with this Buyers Guide. Information on all these products can be found on the Internet. But there is only one place you can find them all: the PADDLEexpo Buyers Guide! In one go, in one look, you can compare and get all the details that will help you make the best choice for your next adventures on the water...

Innovation doesn't happen independently. What happens in one portion of our industry impacts and filters in to the rest. At PADDLEexpo, brands and manufacturers came together to network, share ideas, see what is new, to celebrate the paddlesports industry, and work together for its future.

As we sit here completing this guide, the holiday season approaches. You may be flipping through the pages in search of the perfect something for someone special, or merely a treat and new toy for yourself. Or, maybe you picked it up simply to read our magazine section, to discover for yourself new trends and initiatives running like currents through our industry—from the resurgence of canoeing and the growing global popularity of surfskis to the increasing importance of design and pressures of innovation on the inflatable world.

From anywhere, at anytime, if you need any information on a boat's specs, the width of a board, the weight of a paddle, you can use your smartphone, computer or tablet to access the latest and most comprehensive products listings in the world, and even know more about them in one click by visiting the manufacturers' website.

We hope you enjoy it, and find what you are looking for; be it within this print edition designed to give you all the requisite information to find the craft or piece of equipment best suited for your needs, or online, where our Digital Edition of the Annual Buyers Guide awaits, free for you.

This year, we challenge you to look beyond the pages that pertain only to your current passions. The discovery of something new stimulates us, motivates us to explore our environment, and to seek rewards. It challenges our belief in what we are capable of, inspires creativity in our lives, allows us to relate more to those around us. This is what PADDLEexpo is about—sharing our passions so that we may all be inspired to try or do something new and continue to grow. In doing so, we may realize how much we have to offer each other; because whether it's fishing, SUP, whitewater, or touring, we are more similar than we may think.

The 2018 Buyers Guide is a special issue of Kayak Session magazine (0720k83428 - ISSN 1638-0177) edited by Kayak Session Publishing. **Publisher & Editor-in-Chief:** Philippe Doux - **Buyers Guide Editor:** Anna Bruno. **Assistant to the editor:** Nick Amouck - **Art Director:** Charlie Toussaint. **Copy editor:** Whitney Lonsdale - **Advertising & Editorial office:** Kayak Session, 1 rue des Rivières 69009 Lyon France +33-(0)472-198-797 tel, info@kayaksession.com. (Free Supplement to Kayak Session #64 - cannot be sold separately).

Warning: The activities shown in Kayak Session carry a risk of personal injury or death. Whitewater kayaking, and others outdoor activities are inherently dangerous. The owners, management, and staff of Kayak Session recommend you do not participate in these activities without first seeking qualified instruction and/or guidance, understanding the risks involved, and personally assuming all responsibility for those risks. Disclaimer: Opinions expressed in this magazine are not necessarily those of the Editor or Publishers. References to waters do not necessarily imply that access or passage is legally permitted or that they are safe in all conditions. The editor and/or publishers cannot be held responsible for any omissions of references to hazards from notes on these waters. They do not necessarily support advertising claims nor do they hold themselves responsible for inadequacies in items of equipment reviewed here.

PADDLEEXPO AWARDS

Every year at PADDLEexpo, brands and distributors can submit their products for consideration in the PADDLEexpo Coolest Gear of the Show Awards. One product per category is chosen—the winners are products or gear our panel of judges consider innovative, game-changing, or just plain cool. Winners are announced at the Industry Dinner during the show. And the winners are....

SPECIAL JURY PRIZE - STARBOARD | ALL STAR AIRLINE

Exceptionally fast and well-mannered, this paddleboard is amongst the most rigid iSUPs ever made. Starboard's innovative Airline Technology utilizes a pre-set free-floating aramid cable that is slightly shorter than the board, so when inflated, the cable comes under tension stiffening the board significantly for a stable, trustworthy hull.

WHITEWATER - JACKSON | NIRVANA

Speed, confidence, control. The rocker profile and lifted bow of the new Nirvana keep you on top of holes and waves while responsive edges mean that you stay nimble and on your line. From podium-topping performances to river running and creeking, the Nirvana is your boat!

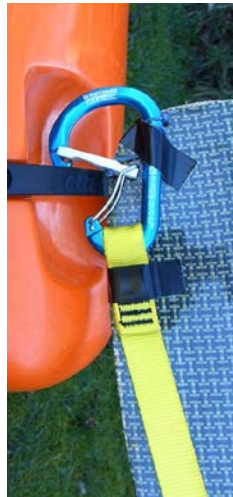

STAND UP PADDLING - AQUA DESIGN | BI-DROP

Safety and performance combine to open new SUP horizons. Designed as a 12'6 racer with a streamlined and dynamic shape, the BiDrop offers security for SUP on the high seas while maximizing gliding performance. Two separate, inflatable compartments provide better safety and stability, optimize the inertia of the board, and reduce its weight.

ACCESSORIES - WHETMAN EQUIPMENT | KRAB STICK

A small device that can make a big difference. This simple, yet effective rescue tool converts karabiners to hooks to assist in difficult access situations. By enabling extended reach contact with pinned boats, casualties, anchors, wall bolts, lines, etc., the Krab Stick saves time and reduces risk, especially when the alternative may involve deploying a person in the water.

APPAREL - LEVEL SIX | TORNGAT & ELLESMERE SPLASH TOP

Made of a new ultra-light material that is 40% lighter than regular 2.5 ply fabric but retains the tear and shear strength, the Torngat and Ellesmere paddling jackets are ready for anything and also super stylish. The double-cuff integration system keeps the wrists watertight and comfortable without compromising the look and style of the jacket on the street or out at sea.

PADDLEEXPO AWARDS

KAYAK FISHING - NATIVE WATERCRAFT | TITAN PROPEL 13.5

The Titan is the "First with Reverse" Propel Pedal-driven bass fishing kayak. Large and in charge, the Titan offers stability, ample room and flexibility to move around. Features like removable, elevated seating allows for comfortable transitions between standing and sitting, and easy-to-reach horizontal rod storage with rod-tip protection mean you are always ready to catch the big one. An interior foam layer adds flotation and safety and increases stiffness and performance.

RECREATIONAL - MELKER | RÖDLÖGA

An easily maneuvered and playful sea kayak, designed with rougher waters, currents, tides and surf waves in mind, yet stable, secure and agile in calmer waters. The look-and-feel of Melker Rödlöga is surfish-bamboolicious-awesomeness. FSC Bamboo Composite characteristics in combination with a honeycomb structure make the kayak lighter, stiffer, more durable, and less harmful to the environment.

PADDLES - FREEFALL PADDLES | "RE-PADDLE"

The Freefall plan is to give wood new life, with custom, handmade, recycled wood paddles. All paddles are manufactured from a mixture of managed forest materials and recycled woods such as fallen branches and wood salvaged from wardrobes, desks, chairs, etc. The results are stunning pieces of art. Unique every time, so there are no two identical paddles.

INFLATABLE - SIPA BOARDS | SELF INFLATING SYSTEM

Fully self-inflating Stand UP Paddleboards! These self-inflating standup paddleboards are designed to get you on the water more quickly and more often, pumping up your board in just a matter of minutes so that you can focus on more important things.

INTERVIEW

(LEVEL 6 FOUNDER)

STIG LARSSON

When Stig Larsson started Level Six, a white-water kayaking and apparel company based in eastern Canada, little did he know that it would become one of the main players, not only within the whitewater scene but also within the industries of touring, SUP, and river lifestyle apparel. Now celebrating 20 years in business, the former Canadian National team member still has more tricks up his sleeve. Instead of simply savoring his success, Larsson is already focusing on the next step, developing a distribution network in Canada. In the days following Level Six's win for Coolest Gear of the Show in the Apparel Category, we met up with Stig to hear more.

Buyers Guide Mag: *How long have you been running Level Six for? How did you start?*

SL: Level Six was started in 1997, so over 20 years ago now, which is crazy to think. Time has flown by! Level Six was started after a (slalom) training camp in Costa Rica. For that trip, I bought a 1972 VW camper in Ottawa and drove to Vancouver, and then spent eight months driving the length of the Pacific Coast from Canada to Costa Rica stopping to surf at every major break I could find. Once I arrived in Costa Rica, a few of the other Canadian Team members flew down and met me to train there for the winter. When we came back to Canada it was obvious that kayaking needed its own young and hip brand of apparel and gear, and that was the birth of Level Six.

BGM: *Congratulations! 20 years in business is a great achievement. How has the company evolved and changed over the last two decades? Are you happy with direction it has taken?*

SL: Thanks! It has been a crazy 20 years and I wouldn't change how I have spent my time. Level Six has evolved from making board shorts and basic paddling tops that were sold out of the back of a van to having extensive product lines sold in over 400 stores around the world. With this kind of growth, we really had to mature and figure out how to manage our large product line and be able to deliver it on time to the right places. In the beginning when you really don't have employees you have to be jack of all trades/master of none, so we just tried to figure it out as we went. Now, we need to make sure we are on top of everything because we have a lot of people counting on us. We had to grow up and start taking ourselves "a little" more seriously. I'm certainly happy with the direction it has taken, I would much rather work hard but wake up every day with passion and excitement for what I am doing.

BGM: *How would you best describe what Level Six is and what Level Six products are meant to be? Does the company have a specific philosophy?*

SL: Level Six was started as a movement for paddlers to have their own identity. We have always remained true to that and really aim to emphasize the words below our logo on all our media, "Everything Paddling since 1997." When we design a piece of clothing or gear or try to improve upon a past design we always ask ourselves, "Is this item relevant to a paddler?" If it is, then we move forward, if not, it gets shelved. We strive to make the best and most innovative gear on the market at a price that doesn't segregate the community.

BGM: *Some argue that whitewater is at the heart of our industry and that the majority of major players come from it. Do you agree? What is the critical piece, do you think?*

SL: I would say that whitewater is certainly one of the most difficult disciplines within our sport to design and manufacture for, which is why if you can succeed there, you will likely have good understanding of what it takes to design in other disciplines. For example, look at a drysuit, which has become an essential piece of gear for whitewater. There is so much thought and technology that goes into one item. It must be affordable but made to withstand the abuse that comes from not only from being in whitewater but also from the type of paddler that tends to be in that environment.

BGM: *Some of your initial inspiration came from a surf trip, and you still take surfing vacations with your family. How has your own love of surfing inspired Level Six designs? How do you see the paddlesports industry influenced by the more mainstream extreme sports market?*

SL: I think since both industries revolve around being outside and in the water, there has always been some influence taken from the surf market. As there is an extensive cross over of materials used in manufacturing garments, I do feel that a lot of gear manufacturers are influenced by the innovation that the surf brands can afford to invest in due to their sheer size alone. On a personal level, I have always loved being in the water, I find peace there and my mind can wander. When my mind wanders, I tend to come up with my best ideas. So getting away with my family to go surfing inspires me and keeps me grounded.

"...business is a lot like running a river: no amount of planning and visualizing your line can overcome the forces of nature if they don't want you to go where you want to."

BGM: Level Six has transitioned from a whitewater-specific, technical gear company to also being a lifestyle brand. While you have many pieces that are fashionable and functional, are there any risks in doing both?

Stig Larsson: I think we have always been thought of as a complete brand that did both lifestyle and technical gear. Actually, a Trend Magazine article years ago said that we were the "Patagonia of paddlesports with the style and following of Volcom." I think this really summarized what we were aiming for; we wanted to create the best gear and apparel on the market but we also wanted it to always be fashion forward. I think it is always risky to create a new market. At the time, there wasn't a brand that played in both the lifestyle and technical side of paddle sports. But we took our time and did it properly, which is why I think we have done well and why people expect us to continue.

BGM: Your product lines now also include SUP boards and paddles. What inspired that decision? Were there any challenges?

SL: When Level Six started designing and making SUP boards and paddles it was really an extension of the SUP-specific technical gear and apparel we were making already. So when we launched the hard goods, it felt natural. Most of our retailers already looked to Level Six as "a water brand" not just a "paddling gear brand." The decision came back to combining my love of surfing with my love of paddling. When SUP first came onto the scene at the industry trade shows, I remember saying to myself, "Finally!" because SUP allows for crossover between surf culture and the paddling culture. As far as challenges getting into SUP hard goods, I think the hardest was making sure everything was done properly. From slalom racing and surfing I knew about hull shapes and composites, but producing them on a large scale was very different. Once we had our designs and production streamlined, the rest was a matter of logistics and managing the distribution. I feel that the influence of SUP is great for paddlesports and sports in general. The more people that can find inspiration to get outside, enjoy the water and stay healthy, the better. More people involved in SUP will also help retailers and manufacturers grow.

BGM: You and Level Six co-founder, Tyler Lawlord, both raced for Canada at multiple slalom World Cups and World Championships. What has the experience of being a top-level athlete given you with regard to running a business?

SL: I think being competitive at a high level in any sport really teaches you discipline and perseverance. Starting a company is extremely difficult and most companies fail within the first few years. I think that the same discipline it takes to get up every morning at 7 am to train, even when it is -20° Celsius outside, is not unlike the discipline required to keep pushing ahead with an idea or a plan to keep a business moving forward.

BGM: Level Six has seen impressive growth over the past few years. Was this planned? What do you attribute this to?

SL: I feel we were always headed for that tipping point, it was just a matter of getting the rest of the world to see how we were innovating and changing the way things are done. I would like to think it was planned, but business is a lot like running a river: no amount of planning and visualizing of your line can overcome the forces of nature if they don't want you to go where you want to. I am not sure I could come up with one single recipe for success. I know that I am not Level Six, I know that Level Six is the sum of so many people who are passionate about what they do every day and I try to channel all that energy towards a common goal. I surround myself with amazing staff. I trust them, and I let them grow within Level Six. So maybe the recipe is understanding that you are never the smartest person in the room, and that while you must lead by example, let your employees passion and vision grow so your vision will grow with it.

BGM: You have been an innovator with regard to sales models. You sell direct, you sell via big chains, and you also have specialty shop distribution. Why is selling direct an essential tool? Does it jeopardize the "normal" retail distribution model at all?

SL: When Level Six started we really didn't have a lot of dealer reach in the USA and Europe but we were very strong in Canada, which was to be expected. So when we launched our first e-commerce site, which really was one of the first in our industry, where inventory was live and you could actually make a purchase, we finally opened the brand up to areas of the world that didn't have a dealer but believed in the brand. I think selling online really levels the playing field in the world of commerce. Your product doesn't have to wait to be "discovered" by a retail buyer in order for the local paddling community to access it. I think selling direct only jeopardizes the normal retail distribution model if you discount current year products and don't allow your dealers to maintain margins. We 100% need our dealers to be happy and we go out of our way to ensure they are promoted through our media and get additional incentives during large e-commerce sales. One of the things that I personally like about selling direct is that it allows us to innovate with gear that would never be viable in the traditional retail market. So many times we have designed a piece of gear that goes way over the heads of traditional retail buyers' localized markets, but all our athletes absolutely love it. So by selling direct we are able to market that product to the world and satisfy a small but very important segment of the paddling community.

BGM: You are now starting a distribution channel in Canada. Can you tell us more about what it is exactly and how it will work? What motivated this decision?

SL: It certainly wasn't because I had a lot of time on my hands! But seriously speaking, I started it after many years of listening to friends in the industry who owned companies outside of Canada trying to figure out how to market themselves in this large and geogra-

phically sparse country. Over the past 20 years we have really figured out how to manage the dealer base and service them through our warehouses and sales team. So when Tom from Shred Ready Helmets, who I have known since we attended a slalom training camp together when I was 16 years old, approached me, I knew that now was the time. Terra Outdoor Gear is a natural extension of what we are already doing as a team here at Level Six. Over the years we have put the pieces of the puzzle together and we have developed relationships with retailers in Canada and brands outside of Canada, we just needed to connect the two. I think it was definitely the right move based on the response we have had so far. In fact, we already had to turn some brands down until we can confidently manage them.

BGM: When you received the Coolest Product of the Show Award for your Tornqat and Ellesmere Paddling Tops at PADDLEexpo, you sent out a love message to the industry. What was that about?

SL: I sent out that love message because I truly do love this industry. I am a product of this industry- I started paddling when I was eight years old, started racing when I was 12, made the junior Canadian national team and then went on to make the senior team and the World Cup team. I paddled in gear from Peak UK, Palm, NRS, Kokatat... all those brands and the gear they made shaped the decision to start Level Six. Not that they weren't high quality, but because I felt they were missing the mark with regard to what I saw as the paddling community. So, for me to be honored with an innovation among all those brands that helped shape me was special. I am as proud of the industry as I am of what Level Six has become. Hopefully this cycle of innovation continues, and in the future another company starts, wins an award and sends out a similar message to those of us that helped shape them.

BGM: How do you see shows like PADDLEexpo as valuable for retailers? What motivated you to come take part?

SL: Trade shows like PADDLEexpo are key for retailers to see what is trending from manufacturers. I also think it is a great way to connect the people behind the brands with the retailers. There is always something special when you can actually meet and talk to someone in person rather through email and phone calls. Level Six has been coming to PADDLEexpo for many years, though this was the first year that we moved away from our previous distributor model in Europe and started working with our retailers directly because I felt that was the only way that our retailers in Europe could have the same consistent brand message and interaction that our North American dealers get.

BGM: You have said Europe is next for Level Six. Is this true?

SL: Yes, I feel that Europe is somewhere that Level Six needs to focus on because of the amount of interest that we get from end users. The comments are always the same. They love the brand and what we represent but the local shop doesn't carry Level Six, so they are unable to buy it. In the perfect world we would have developed in Europe the way we developed within the United States, beginning by selling to customers directly and then as awareness for the brand grew, the dealer network would also grow. However, shipping individual orders from Canada to Europe isn't cost effective within the time frame that people expect for online orders, nor is there the same consolidated buying structure in Europe as there is in Canada and the United States, so we will have to adjust.

BGM: How do you feel about the future of the paddlesports industry?

SL: I am excited to see what is happening in paddle sports right now. I know there are always comments about the shrinking of the industry, but I feel that in the past 18 months there has been a concerted effort by the industry leaders to take control of our future. An example is the new Paddlesports Trade Coalition that was formed in order to provide a singular voice in North America for manufacturers. Being able to be part of this movement and working with industry peers in a positive and sometimes candid way has been a great experience. Even though outsiders from other industries may look and wonder why competitors are sharing mailing lists, strategies, initiatives etc., I believe that we have grown beyond that and we as a coalition of voices can come together for the betterment of all. This alone makes me realize I have found the right industry to spend the rest of my life in.

CROWD FUNDING THE FUTURE

TRAK KAYAKS AND THE FUTURE OF PRODUCT DEVELOPMENT?

The process of designing, creating, and manufacturing a new product is costly and time consuming. Finding investors who believe in you or fundraising the costs can be a challenge, no matter the product you are creating or how well established your company may be.

This could be about to change. Thanks to the advent of the Internet, online pay-systems, and crowd-funding sites like Kickstarter or IndieGoGo, new opportunities are available to companies to share their vision and find individuals who believe in their products.

Nowhere is this more evident than in the success story of Trak Kayaks, a company from northern Canada. Trak has been manufacturing portable performance kayaks since 2006. Their goal: "Build awesome kayaks that transform paddling adventures." With the building and development of their Trak 2.0 Ultimate Touring Kayak, Trak may be transforming more than paddling adventures. They are changing the ways companies interact with the market.

To develop their Trak 2.0 Touring Kayak the company went directly to the consumer. First, they asked the paddling community what they think would make the ultimate touring kayak. The answers? Durability, versatility, quality materials, and light enough to carry on planes, trains and automobiles.

"We received responses from more than 1,600 paddlers to our extensive questions relating to sea kayaking, paddling and other outdoor activities and how these fit into their lives. The amount of data we received was stunning. We learned what paddlers are looking for in a kayak and what they are hesitant to accept; they are hungry for something portable but skeptical of something fragile; they want something that is beautiful and of high quality but also seaworthy and robust and; as importantly, they are not just paddlers – they are campers, hikers, tourers and adventurers," says Nicholas Jonas, Trak's Marketing support.

Trak then took the feedback into a period of serious R&D, spending more than two years developing and testing new designs. "We received in-depth feedback from TRAK paddlers and owners, then reached out further. We created TRAK's 20/20 Team to critique our product designs, contribute to outreach within the paddling community, and provide TRAK with unique and creative contributions from their unique skillsets." (Trak).

As they updated each phase of the design, Trak launched seven different test expeditions in Canada, USA, Spain, France, Israel, UK, Korea, and the Philippines. Tests and feedback resulted in re-designed carbon fiber ribs, bow and stern frames, hydraulic jacks, the seat, back band, gear/floatation bags, the deck lashing systems, and even the skin design and storage and travel bag system. After a couple iterations of the carbon fiber frames, Trak realized that they were going to have to invent a new process that would allow them to make all of the changes necessary to create the "ultimate" kayak in a way that wasn't going to absolutely destroy their budget.

Hence, the idea of crowd-funding. In early 2017, TRAK consulted with their media and marketing teams, and were told that a crowd-funding campaign wasn't a good idea. "Everyone we talked to in the industry smiled at us, wished us luck, and privately shook their heads and whispered that we were absolutely crazy," laughs owner Noelin Veillard. "But we're used to being different, and doing things that no one else thinks will work." Trak went ahead with their crowd-funding plan, launching the campaign on Kickstarter on May 23rd, 2017.

The results were astounding. Trak pre-sold almost \$500,000 USD of kayaks in 30 days, and have currently sold out the first run of production, raising over \$900,000. Over 300 kayaks have been pre-sold for delivery in 2018. The company has started selling into the second production run – before the first run has even started coming out of the factory.

"We set out with the belief that the success of this project would hinge on TRAK drawing from the collective experience and insight of real, avid paddlers," says Trak. Clearly, they were right.

The question remains, is this a viable option for all companies? Clearly, while the customer has always driven the market, now they have far more influence, and the ability to vocalize their desires than ever before. By allowing consumers to directly impact the market and production, who knows what the future will look like. One thing is certain. Through opening the door to crowd-funding, Trak has left it wide open for more innovations than ever before.

WHY WOODEN PADDLES ARE NEVER OUT OF STYLE.

As paddlesports enthusiasts gain skill and experience, many choose to upgrade to higher performance equipment; the paddle is no exception. The paddle is arguably the most critical piece of gear you can buy to help improve your skills and paddling stroke technique.

Traditionally, all paddles were made of wood. Yet, with the advent of new materials and technology, the market has become saturated with paddles at every performance level, from entry-level to high end providing a wide range of choice for all sports. Despite modern innovations and newer materials available at ever-lower prices, many paddlers are choosing to stick with or return to wood. At PADDLEexpo, wooden paddles were on display in every price range for almost any paddling discipline, from Freefall's custom-made Re-Paddles to Palm's Delta, a molded, laminated ponderosa pine-walnut-ash blade.

What is it about a wooden paddle that has stood the test of time? Some argue that the biggest advantage of wood lies in its visual appeal; others tout the feel of a wooden paddle, the options different woods afford, or the commitment to quality.

While the biggest advantage of composite construction is likely utility—the combination of high strength and low weight—where they are lacking, some argue, is in the beauty, warmth, and "soul" that wood can provide. Obviously, composites sell, and sell well. Those who buy them clearly find the trade-offs worth it. Yet for those who want something more, "an all-wood paddle is attractive, responsive and warm to the touch. It remains by far the most popular material for canoe paddles," says Bending Branches.

"Most paddlers who want wooden paddles are looking for that special organic connection to the river that they will never get from plastics or composites," explains Freefall Paddles owner and founder Peet Reid. While Reid's company also makes a carbon composite blade, they specialize in handmade wooden canoe paddles. Their Re-Paddle uses re-purposed wood, adding the benefit of being eco-friendly. "We have turned desks and doors into paddles, and shipped them all over the world, where they are appreciated not only as paddles, but as works of art," states Reid.

Design is equally as important as function. Freefall crafts paddles uniquely suited to different regions. "Most of our blades sold to North America are long blades, while those sold to Europe are short, due mostly to the shallow waters we paddle in Europe. But," continues Reid, "all paddlers want the same new innovative styles and designs. For us, design and materials are critical. We hand make all of our wood paddles, as usually we are making for a paddler who wants a unique and distinctive paddle made just for them." The art of the hand-made or custom-made paddle remains a sort of status symbol, or a way of showing appreciation for craftsmanship and the history of paddle sports.

Most Greenland-style paddles, a sea kayak blade with a long narrow shape, are traditionally manufactured in wood. East Pole paddles offers consumers the choice of western red cedar or black alder, red cedar being lighter weight, black alder more durable. Other common wood choices are Sitka spruce, Douglas fir, or varieties of ash or cherry.

"Wood is nature's own composite," writes Grey Owl Paddles on their website. "As a naturally forming polymer, wood is comprised of long-chain, cross-linking cellulose molecules, bound together with lignin. This miraculous combination gives wood its unique properties of strength, stiffness, resilience, buoyancy, and durability."

The advantages are clear. Wood is touted for its flexibility, as paddles with a flexible shaft are better for your shoulders and other joints, therefore extending the amount of time you can spend on the water. There is no beating wood's natural buoyancy- a wood paddle will always surface if dropped, helpful if waves toss you around. Wood paddles are typically robust and long-lasting. If damaged, they can be easily re-finished to look as good as new, and they offer the near-limitless capacity for customization. Those who choose a wooden paddle have made an investment into their paddling career, and found a paddling companion that will likely last a lifetime.

"What makes a great paddle is a combination of many things," says Grey Owl. "A grip that fills the palm just so; a shaft that is smooth, oval, and doesn't twist in the hand; a blade that knifes into the water without a 'plop'; a lively action that pulls without a flutter or vibration..." It is what we are all looking for, a way to connect to the water.

THE DROPSTITCH REVOLUTION

2.0

Dropstitch continues to evolve and change the future of the inflatable market as companies like Gumotex innovate to make the technology their own.

At the 2016 PADDLEexpo, the Dropstitch revolution was evident, as inflatables from SUPs to iKayaks utilized this game-changing technology. "Inflatable are on the rise," we asserted in the Buyers Guide Magazine, attributing the increase in inflatable performance to Dropstitch's superior rigidity.

Dropstitch, which involves using vertical fibers of uniform length to connect an upper and lower face of waterproof, airtight material, allows for inflatables to achieve pressures of up to 15 psi, creating rigid and stable inflatables. Stiffer hulls and firmer boards equal higher performance, while increased durability means greater potential for exploration. "Dropstitch hulls capable of inflating to higher PSI also help reduce friction and drag as crafts move through the water, minimizing wake and the energy required while enhancing tracking and glidability," explained inflatable company Woosung.

"Dropstitch—a high tech material that lets us build new, innovative inflatables that are stretching boating world boundaries," clarifies NRS on their website.

This year we are seeing the Dropstitch revolution continue as more companies continue to incorporate it into their products and start to think even further into the future and make the technology their own.

Woosung and NRS are among companies who produce their own material in an attempt to make a fabric that is more rigid, more stable, more airtight, and more affordable. Gumotex, a well-established Czech company on the inflatable market, is another who has embraced the Dropstitch revolution head on. Currently the majority of Dropstitch products on the market are manufactured using some form of PVC plastic as the outer layers. This year, Gumotex has taken it one step further.

By pairing Dropstitch fibers with the rubber used in Gumotex inflatables, they have created an entirely new material, a Dropstitch 2.0, if you will, that they think will be even more

revolutionary. "GUMOTEX Dropstitch is based on a totally different material composition than competitors' products, consisting of several different layers," asserts Lucie Kadlecová. "This ensures better protection of the airtight layer, lower weight, easier packability, and higher resistance against damage. Products made of GUMOTEX Dropstitch could have lower weight – 1 m² could have 1/3 less weight than comparable material with PVC coating."

At PaddleExpo 2017, GUMOTEX presented a prototype of their SOLAR, an inflatable two-person kayak with the bottom and seats made of this new Dropstitch material. The boat looks promising – firmer, and possibly faster and more stable, with increased handling in more difficult water. They also assert that Dropstitch made with rubber, rather than PVC, will be more flexible, and hence, more resistant to impact and damage.

They would know. Gumotex has been in the rubber and textile production business since the 1950s, their company name derived from the manufacture of their rubber products. Interestingly, inflatable boats are a relatively small part of their diverse company production. It is no wonder then, that Gumotex is already looking beyond the inflatable boat market for uses for their new material.

"Besides boats there is big potential for use in water sports, but there is even wider potential for this technology innovation," states Kadlecová. She sees Dropstitch 2.0 potentially used for rescue systems—from flood control barriers to rescue footbridges, stretchers, or as part of inflatable tents, etc. It is not an unreasonable assumption. Dropstitch is already used in floating docks, high-pressure rescue lifting bags and airplane wings.

It is clear that the Dropstitch revolution has only just begun. It is evident that new technologies are still being developed that will have major changes and impacts on the inflatable market and beyond. After all, product development is innovation, and it only takes one company to take a risk for the entire market to follow suit and change...

INFLATABLE INNOVATION

As inflatables flood the market, designers are forced to come up with new innovations to truly set their boards and designs apart.

With the increase in performance and quality of inflatable materials, the influx of new inflatable designs is evident. In the 2017 PaddleSports Buyers Guide, we had to create an entire new SUP category to accommodate iSUPs. While there are inflatable boards for everything, almost every company is making what we call the "Inflatable Cruiser," an inflatable all-around board designed for a little bit of everything. Typically, the Inflatable Cruiser is between 10'6"-11' long, 6" thick, and 28"-30" wide. They have subtly rounded noses, and offer great access to the outdoors, even for the recreational user. Many are aimed at a lower-end user who is looking for a product within a certain price point. With such similar specs and performance goals, how can companies distinguish themselves from the pack?

When facing the low-cost wave, brands have two options: follow the low-cost (and often, lower-quality) trend, or fight back with added value products and strong R&D.

"While inflatable boards can look similar," says Peter Hall, owner and founder of Hala Gear SUP, "the manufacturer's obvious and hidden choices are what make or break the board." While some of the lower-end boards feature flashy graphics and can be fun, "these temptingly-cheap boards often are made with lower-quality textiles, low-quality glue, lower-density Dropstitch and base cloth, and they lack the higher-performance components, shapes, rockers, and industry-leading tech that make the difference between a glorified pool toy and piece of equipment that will leave you questioning if you will ever buy a hard board again," argues Hall.

Hall's company Hala Gear SUP specializes in whitewater inflatables, though their range includes all disciplines. Their Stomp Box retractable fin system is a prime example of R&D and innovation that adds value and distinction to their brand. Designed for the variable river bottom and the inevitable rock, the Stomp Box is a spring-loaded fin that retreats into the board on impact. The Stomp box comes with many of Hala's whitewater boards, and is offered as an upgrade on others.

It can be difficult to know if what companies tout as their distinguishing features are indicative of true innovation and quality, or are mere gimmicks. "The amount of air pressure is not a good shortcut to understand the construction quality," clarifies Hall. He recommends looking at warranties, use-specific rocker, unique board shapes, advanced fin options, gear rigging options, and true stiffening technology as indicators of board quality.

On the whole, the pressure of a competitive market is paying off. Companies are finding ways to advance board stiffness and performance, furthering the divide between entry level and higher performance boards. The incorporation of other technologies into the inflatable market is one clear indication of advancement. Red SUP's Rocker Stiffening System utilizes flat carbon rods that slide into the rails, while Hala's Carbon Nass-T, an inflatable raceboard is re-inforced with carbon construction, making it "three times as stiff."

The BiDrop SUP from the French-based Aquadesign features two inflatable chambers for additional rigidity and lower stance position. By offering a lower stance position, the Bi-Drop allows for a higher level of stability without compromising performance and adds increased safety for offshore paddling.

Starboard SUP has sought to distinguish their SUPs in both appearance and performance. Their Tikhine Sun features fun, bright, ocean-inspired graphics by artist Sonni Honscheid. Their latest innovation involves the use of a free-flowing aramid cable in their All Star Airline SUPs as a sort of stringer technology. The cable, which is slightly shorter than the board, locks in place when the board is inflated; enhancing rigidity to create the sensation of a solid, trustworthy hull.

However, having a plethora of options and a wide range of entry-level boards can benefit the industry. "Lower-priced boards do serve a purpose, and are vital for the growth of paddle boarding," argues Svein Rasmussen, owner of Starboard SUP. The truth is, many individuals simply want a board that is affordable, practical, looks good, and gets them on the water. To accommodate this, many companies, like Indiana SUP, offer packages where the purchase of a board comes with a paddle, pump, bag, fins and leash.

The truth is, it shouldn't be about the price, or the specific features. "It is all about creating value, trust and a desirable experience," explains Rasmussen. "This trust and innovative quality will in turn result in higher second hand pricing, better performance and proper after sales service."

THERE IS SOMETHING ABOUT **SURFSKIS**

Surfskis have an extensive history in Australia, New Zealand and South Africa—warmer countries with long, exposed coastlines. Currently the industry is experiencing a boom, with major growth in participation and racing in these areas, as well as in areas with colder climates, such as the mainland USA and Europe.

The sport of surfski is growing quickly as more and more people are discovering how easy and accessible the sport can be. "Boats are lighter and faster than most sea kayaks and people can cover a greater distance more easily," says Micky McDonald of Think Kayaks on the appeal of a surfski. "A relative beginner can start picking up waves and having a blast. All you need is a paddle, leash and a PFD and off you go!"

For the beginner, a major advantage to the surfski over a traditional sea kayak is that if conditions tip the paddler out, they can simply climb back aboard. For Nelo Kayaks CEO and Surfski legend Oscar Chalupsky, the "surfski is the most versatile kayak in the world as it can go on any waters and is very safe. If you fall off, you just jump back on and keep going." It is worth noting that most connect themselves to their boat via leashes, so as to not become separated from their craft.

As you progress, Chalupsky asserts that a surfski becomes a very effective craft for paddling in big surf, as the narrowness and length help it to cut or punch through large or breaking waves. To counteract the initial challenges of paddling and balancing surfskis, many companies are now making wider, more stable boats that accelerate the learning curve. "We have eight different boats in the Think range to suit different abilities, physique and budgets: shorter, wider boats are good to get people hooked and then they can progress up to the longer, faster, lighter boats," explains Micky.

Once the initial familiarization with the craft and sport occurs, a large appeal of the Surfski lies in the speeds you can reach. "You can paddle in any conditions with a top speed of 56 km/h on an ocean wave," says Chalupsky. It is a speed unmatched by most man-powered watersports crafts, and is what gets many paddlers hooked.

From a fitness perspective, surfskis are an ideal craft. They build core strength, upper body strength, and get the heart rate going in a fun, dynamic environment. "People can have a great workout in an hour without the need to carry lots of equipment," says Micky. For the inclined, the racing scene features tactical opportunities from distances of 10 kilometers

to multi-day races. Famous races include the four-day, 240km race from Port Elizabeth to East London in South Africa, and the infamous Molokai Race in Hawaii. More recently, the racing scene is gaining momentum in North America and Europe. Greg Leshner's interactive Surfski America Race Database showcases 185 North American races, providing a calendar, an interactive map, racecourses and results.

At the third Colwyn Bay Blast in North Wales, only the second surfski race to be held in the region, competitors from first-time racers to former UK and World Champions came to take part, tripling the number of entrants from the race's first year. "It's plainly obvious to anyone observing this sport that surf skiing is gaining popularity in the colder parts of the world, attracting sponsors and attention from popular brands of boats and surf ski apparel," writes GB Ocean Ski in their recap of the 2016 event. The GB Ocean Ski website also provides a list of races in Great Britain and Europe, informing aspiring racers of participation opportunities.

Though Australia, New Zealand and South Africa still dominate the international racing scene, the global growth of surfski culture is beginning to show. At the 2015 Ocean Canoe World Championships held in Tahiti, Frenchman Yannick Laousse broke into the men's top ten, while the top women's positions were shared between paddlers from New Zealand and the US.

The Ocean is not the only venue seeing a rise in surfski racing. The 2017 Gorge Downwind Champs on the North American Columbia River saw over 190 entrants in the Long-Distance Ski Category. The 2018

event, which will take place from July 16-21st proclaims that only 20 spots remain as of early November 2017. The event anticipates over 600 total participants for the coming year.

Surfski is a versatile and accessible sport only just beginning to gain speed on the global paddlesports scene.

LOOK GOOD, FEEL GOOD, PADDLE GOOD

THE IMPORTANCE OF DESIGN

Every year design becomes more important as companies strive to produce products that perform flawlessly while remaining aesthetically pleasing.

In paddlesports design has become equally as important as function and performance—from kayaks to paddles, to the gear we wear. Design not only allows paddlers to customize their gear and look to suit their individual preferences, but it also allows companies to create their own unique look and style that is instantly recognizable.

Bic Sport was perhaps the first company to approach the launch of a sit-on-top kayak line where design was given as much consideration as performance. Coming from sailing and windsurfing, Bic brought new colors and new shapes to make their SOT kayaks as attractive as possible. With the launch of the Bilbao in 2002, which very quickly received a design star award, Bic changed our expectations for how products should look.

The Bilbao was created using a team of designers to make it float but also be distinctive and look enticing to paddle. The result still influences the market today: "Design was a very important element in defining and launching BIC Kayak in the early 2000s," says Benoit Treguilly, the Marketing Director for Bic Sport. "It allowed us to differentiate from our main competitors and show that our kayaks were innovative, efficient and aesthetically pleasing."

Pleasing to the eye is becoming an increasingly important component to success, recognizes American gear mogul NRS. "Design becomes a more important part of the NRS R&D process with every passing year," says Marketing Director Mark Demming. "Back in the day, our customers simply wanted gear that was durable, functional and reliable. But today's enthusiasts demand equipment and apparel that performs flawlessly and enhances their experiences on the water." NRS' goal is to create products that deliver both the technical sophistication and visual appeal, and achieving that "starts with design."

An increase of women in paddlesports could potentially be part of the current focus on design. "It's been great to see the emergence of a strong women's culture in paddlesports, and to see the industry respond with more women's-specific gear," says Demming. "Incorporating women's perspectives in design has helped drive a movement toward products that are not only tough and functional, but that look and feel good too."

Palm Equipment, begun by Andy Knight in Somerset England, utilizes bright colors for both their men's and women's kit. Palm specializes in making women-specific designs for almost every model of technical apparel they make. Their women's specific items are often offered in, but not limited to, girlier shades of pink and purple and feature fits that flatter while remaining functional.

Swedish company Melker Sea Kayaks has taken the Bic model to heart, working to create sleek and stylish kayaks in a sustainable way. "Design is in everything we make," says founder Pelle Stafshede, "but it's also between those things. It's a mix of craftsmanship, science, innovation, sustainability, storytelling, and philosophy." Melker's boats, some of which are made from partly from bamboo, try to emphasize their materials through styling and design. Their boats, which have been nominated for multiple design awards, feature playful colors and distinctive bamboo panels.

Indiana SUP now complements their distinctive monochromatic board designs with special limited versions that are colorful and cheeky, aimed at "paddlers who have missed color" in their other models.

Werner and Aquabound are among paddle companies that have begun offering a wide range of graphics on their blades, with fun, brightly-colored designs inspired by original artwork. Aquabound's website promotes "eye-popping colors" that "will complement virtually any board." Each of Werner's fiberglass whitewater blade designs comes in a specific color, making them easy to identify. While their blade shapes may not change dramatically, most years Werner offers new or special colors to keep things current and interesting.

However, it is important to remember that design cannot replace function and performance. The hard truth is that even if a product looks good, if it doesn't feel good or perform well, it is unlikely to achieve success. It is clear that people want to look good in order to enjoy paddling, and companies must plan to accommodate for it.

WHAT'S NEW IN CANOE?

Canoes are often depicted with the open canoe, the calm, tranquil water surrounding reflecting the beauty of the surrounding wilderness. Yet canoes may just be the most versatile craft in paddlesports.

"Canoes, especially for touring and family recreation, have always been perfect tools to fulfill the search for freedom, tranquility and action," states Olaf Gatz, the founder of Gatz Canoes. Gatz is not alone in this belief. This year at the 2017 Paddle Expo, it was evident that canoes are experiencing a resurgence in popularity, from the recreational family user to the more extreme. But why? Or has canoeing quietly been here all along?

Perhaps one reason for canoeing's revived popularity is the sheer versatility the sport offers. While the sport has long been recognized for its ability to enable families and kids of any age to enjoy nature in a way that can be easy, educational, enjoyable and not dangerous, today, canoeing has even more to offer. "Open canoeing, C1, and whitewater OC1 have been growing since the 1990's," says Peet Reid. Reid's company, Freerfall Paddles, manufactures custom wooden canoe paddles for all styles of canoeing.

Canoeing is no longer just about long, large boats around 17 feet long. "On the market there are new, short, whitewater boats opening up a whole new revolution in paddlesport," claims Peet. And indeed, companies are starting to produce new, versatile designs capable of going beyond lakes, to running grade I to grade V whitewater.

Steve Childs owns and runs Silverbirch Canoes, who design and manufacture in the United Kingdom. For the 2018 season, Silverbirch have expanded their range of specialist whitewater canoes with four new models. They also have several more models in the development pipeline.

Childs, a longtime kayaker, was as surprised as anyone to fall in love with a sport that uses "half a paddle." When asked what led to his inspiration and commitment to developing "commercially questionable specialist canoes," Childs replied: "It's fun, and enjoyment is a pretty big part of paddling for us!" Childs and his business partner James faced the dilemma many former die-hard paddlers do. "Because we are no longer paddling 5-6 times a week, the skill and fitness levels are not what they once were.... This led to a situation where almost all river trips were either frustrating or terrifying, rather than enjoyable," explained Child.

It took a while, but Childs realized that the fun of whitewater came from doing new things, be it a new skill, a new move, a new river, a new rapid, a new line, or a new toy. "Canoeing has given us this newness again, and best of all in places we know and love inside out," says Childs. "We found ourselves paddling little local weirs, easy grade 2-3 rivers, even training on the flats. With canoes, we were paddling places we'd stopped paddling years ago due to snobbery, and doing it with that same vacant grin we'd lost."

"As enthusiastic paddlers, we know canoeing and kayaking are not just great sports, but the most versatile sports," says Graham McKereth, Pyranha, Venture and P&H owner. "Skills are transferrable, and no matter where you want to paddle or explore there is a great canoe or kayak that will fit your purpose."

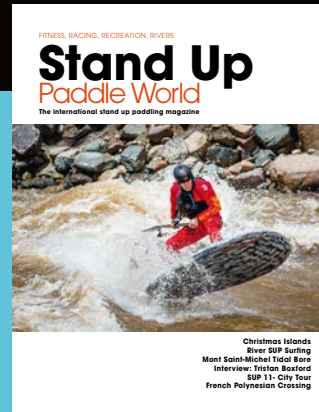

The most versatile of all is the open canoe, which, is "going through a resurgence in popularity," believes McKereth. McKereth is certain that this rise in popularity has brought a whole new generation of paddlers to the paddlesports world, allowing for new designs and growth in canoeing. While many newcomers originate in the vastly different world of the double-bladed paddle, others are completely new to paddlesports. "Both are unencumbered by any pre-conceptions of what canoeing should be," says McKereth. "This is incredibly exciting for us as designers, as their fresh attitude brings new inspiration, and new concepts to explore, that we can blend with our knowledge of beautiful canoes that goes back to the 1880s." Venture Canoes brand is responding to the rise in popularity with more lightweight options and designs to ensure users have the very best time on the water.

Through canoeing, "people (re)discover that being on the water has many positive effects on them," claims Olaf Gatz. "The GATZ-KANUS philosophy always was and will be to provide a perfect, long lasting, high quality, reliable and perfect performance canoe to enable people to discover places you can only reach by canoe."

However you choose to enjoy the outdoors there is a canoe for you, and no shortage of places to go or people to paddle with.

• OVER **350,000** READERS PER YEAR •

KAYAK SESSION MAGAZINE

The International Whitewater Magazine

"If a photo speaks a thousand words, then Kayak Session is an encyclopedia..."

Released quarterly for the past nine years, Kayak Session has established itself as the prime resource for information on whitewater kayaking worldwide.

PADDLE WORLD MAGAZINE

The International Paddle Culture Magazine

Based on the same concept as Kayak Session, Paddle World is an annual issue magazine released every spring covering literally all paddlesports—sea kayaking, stand up paddling, canoeing, recreational boating, kayak fishing, and more.

STAND UP PADDLE WORLD MAGAZINE

An annual special issue dedicated to Stand Up paddling

This is the newest water sport that has taken the world by storm. SUP World Mag is an annual special issue started in the spring of 2010 that covers nearly everything SUP has to offer: leisure, fitness, racing, family fun, touring, distance paddling, and a bit of surfing.

CANOE KAYAK MAGAZINE

The French-speaking Paddlesports Magazine.

Since 1970, Canoe Kayak Mag (CKM) has been covering the world of paddlesports with passion. It is the premier source of information in France, Canada, Switzerland, Belgium, and all French-speaking territories.

Sea Kayak

Sea kayaking or touring is the sport of paddling on the open water of lakes, bays, and oceans. Touring can involve journeys ranging from a few hours to many weeks, along protected coastlines and inland lakes or out in the open sea. Sea kayaks are seaworthy small boats with a covered deck and the ability to incorporate a spraydeck to keep water from entering the boat. They are much longer than whitewater kayaks, offering cargo capacity, ease of straight-line paddling, and comfort for long journeys. Sea kayaks generally accommodate one or two paddlers together with room for camping gear, food, water and other supplies. Sea kayaks usually range in length from 11-18 ft/3.3m–5.5m for solo craft, and up to 25 ft/7.6m for tandem craft. Increasing the length of a kayak generally adds speed, which is useful for covering long distances. Longer kayaks are also less maneuverable, as turning quickly is not as important in open water. Sea kayaks provide an excellent way to get out on the water – for a day or a week, on familiar terrain or unknown territory, alone or with family and friends.

TAHE MARINE REVAL MIDI PERFORMANCE - TAHE OUTDOORS

The Reval Midi Performance is a tough kayak ideal for all adrenaline seekers. The Midi is designed with rocker and upswept bow and stern to handle challenging conditions on the sea. The kayak deck comes equipped with two oval hatches, a mini-box in front and a day-hatch for easier entry into compartments. The Reval Midi is a medium volume kayak that is also well-suited for weekend-trips and shorter expeditions.

LENGTH: 520 CM/17'1" | WIDTH: 54 CM/21 1/4" | WEIGHT: OUTDOOR: 21-23 KG/46-51 LBS, OUTDOOR-ELITE: 21-23 KG/46-51 KG | MAX. CAP.: 178 KG/393 LBS | LEVEL: PERFORMANCE

NEW
2018

SKAGERRAK - LETTMANN

The Skagerrak is our new seakayak, designed either for tall and/or heavy kayakers, or for super long trips with tons of luggage. Although the "Skagerrak" is a kayak with lots of volume, it still sportive, with high directional stability but easy to carve and surf thanks to the innovative skeg rudder system invented by Lettmann. It combines the classical skeg's function with a rudder's advantages in a unique way. It provides the perfect way to get used to working with a skeg - but if you leave your personal comfort zone, you can easily use it as a wholesome rudder that makes it easier to navigate the kayak in rough conditions for beginners and experienced kayakers alike.

LENGTH: 555 CM/WIDTH: 58 CM | VOLUME: 375 L | WEIGHT: 26 KG DCS, 21 KG LCS | PADDLER WEIGHT RANGE: 110-165 KG | LEVEL: HIGH END

2018

ZEGUL BARA - TAHE OUTDOORS

The Zegul Bara is a brand new mid-sized sea kayak that has been missing in the Arrow range. This sea kayak can handle rough water and longer distances. It has good carrying capacity, is easily maneuverable and has a more solid platform. This model fits exactly in between of Nuka GT and Empower. It is designed with a roomy cockpit in mind. The kayak suits a wide range of paddlers who need a high performance touring and expedition kayak. Several storage compartments allow you to load up all your gear and the day hatch keeps your essentials close while on the water.

LENGTH: 525.6 CM/17'2" | WIDTH: 55.6 CM/22" | WEIGHT: A-CORE: 25-27 KG/55-60 LBS, 3D C-CORE: 20-22 KG/44-49 LBS, ROCK SOLID: 25-27 KG/55-60 LBS, FULL CARBON: 18-20 KG/39-44 LBS | MAX. CAP.: 156 KG/344 LBS | LEVEL: HIGH END

NAJA - REBEL

The Naja is a greenlandic-inspired composite kayak, with close lineage to the Ilaga, but with an audacious spirit all its own. One of the essential design elements was "a kayak that many women will find themselves in and say, 'this fits me!?!'?" It is designed for people weighing 65 kilos and under, not over! This is perfect young and growing kayakers looking to experience a kayak that will challenge them to grow their skills!

LENGTH: 508 CM | WIDTH: 47 CM | WEIGHT: 14-15 KG | MAX. CAP.: 65 KG | LEVEL: HIGH END

INTREPID LV - STELLAR KAYAKS & SURF SKIS

The new Stellar Intrepid SI18LV is a British-style sea kayak with a hint of Greenland. The fully outfitted expedition kayak has three hatches, a retractable Kajak Sport skeg, deck lines, bungee and sealed bulkheads. Sized for the smaller to mid-sized paddler, the cockpit, seat and thigh braces are optimized to increase comfort and performance. The hull, with hard chines and some rocker, allows for play in surf, races, and rock gardens while the denied keel combined with modified water lines has increased the efficiency of the hull making a smooth paddling kayak that edges nicely. There is plenty of storage for multi-day trips and an integrated rudder tube for those that prefer using a rudder.

LENGTH: 514 CM | WIDTH: 53.2 CM | VOLUME: LOW VOLUME | WEIGHT: 18.3 KG | LEVEL: HIGH END | PADDLER WEIGHT RANGE: 60-90 KG | SIZES: LV - HV

RÖDLÖGA HV - MELKER KAYAKS

Proudly introducing our latest innovation: The Melker Rödlöga - an easily maneuvered and playful sea kayak. Designed by award-winning engineer Magnus de Brito, together with Melker Kayaks' design-team, to meet our highest possible standards of sustainability, design and innovation, function and safety, and value-for-money. The kayak was built with rougher waters, currents and surf waves in mind - yet is stable and easily maneuvered in calmer waters - the perfect kayak to evolve with. FSC Bamboo Composite characteristics in combination with honeycomb structure make the kayak lighter, stiffer, more durable and less harmful to the environment. Melker Rödlöga is designed for skeg to aid tracking capabilities in cross winds. Enhance control even further with a responsive and retractable rudder (optional).

LENGTH: 500 CM | WIDTH: 54 CM | WEIGHT: 22.5 KGS | PADDLER WEIGHT RANGE: 70-105 KG | LEVEL: HIGH END | STORAGE: 20 L + 65 L + 105 L | COCKPIT SIZE: 88 CM X 48 CM

[HTTP://WWW.MELKERKAYAKS.SE](http://www.melkerkayaks.se)

BISKAYA SKEG PLUS - LETTMANN

The Biskaya is a solid sea going vessel. It will look after you in turbulent times, give dry rides over moderate waves and respond and turn on command. The curved profile of the middle hull section creates a fast and stable hull, while a good width gives the paddler confidence. The Biskaya is very light but built for open water and is therefore built to a high standard with full safety features throughout. To ensure your comfort internal adjustments include a moveable seat, back rest, adjustable thigh braces. Depending on your size, the Biskaya can be your multiday expedition boat, single day tourer or dynamic rockhopper/surfer. You can choose skeg or the innovative skeg rudder.

LENGTH: 535 CM, 537 CM, 540 CM | WIDTH: 53.5 CM, 54 CM, 56 CM | VOLUME: 295 L, 330 L, 360 L | WEIGHT: 19 KG, 20 KG, 20.5 KG | LEVEL: HIGH END | SIZES: 535 CM, 537 CM, 540 CM

ZEGUL VELOCITY - TAHE OUTDOORS

The Zegul Velocity is designed to be sporty and fast with slightly increased stability. It has good sea manners, a generous carrying capacity and the ability to go fast. With sleek and efficient shape, the Velocity is designed for paddlers that want to cover miles in rough water with the option to carry gear for a long haul or just workout with the empty boat and still maneuver effectively.

LENGTH: 508 CM | WIDTH: 47 CM | WEIGHT: 14-15 KG | MAX. CAP.: 65 KG | LEVEL: HIGH END

[HTTP://WWW.TAHEOUTDOORS.COM](http://www.taheoutdoors.com)

TAHE MARINE REVAL HV - TAHE OUTDOORS

The Reval HV is a high volume British style sea kayak designed for bigger paddlers. The Reval HV has a superb navigability and an extra degree of stability even in breaking waves and strong winds. The hull is designed with rocker and an upswept bow and stern to handle any challenging conditions at sea. The Reval HV is suitable for longer trips and expeditions where safety, comfort, carrying capacity and quality construction are essential!

LENGTH: 535 CM/17'7" | WIDTH: 60 CM/23½" | WEIGHT: OUTDOOR: 23.5-25.5 KG/52-56 LBS, OUTDOOR-ELITE: 23.5-25.5 KG/52-56 KG | MAX. CAP.: 155 KG/341 LBS | LEVEL: PERFORMANCE

[HTTP://WWW.TAHEOUTDOORS.COM](http://www.taheoutdoors.com)

TAHE MARINE WIND SOLO - TAHE OUTDOORS

The Wind Solo is one of the bestselling and popular models in Tahe Marine range. It is a fast and efficient kayak that is a joy to paddle. The Wind Solo features a shallow V-shaped hull which ensures fast acceleration, speed, and a nice balance between maneuverability and tracking. It suits for a wide range of kayakers with different skill levels. The Wind Solo is an excellent choice for exercise and longer expeditions.

LENGTH: 505 CM/16'7" | WIDTH: 54 CM/21¼" | WEIGHT: OUTDOOR: 22-24 KG/49-53 LBS, OUTDOOR-ELITE: 22-24 KG/49-53 KG | MAX. CAP.: 130 KG/287 LBS | LEVEL: HIGH END

[HTTP://WWW.TAHEOUTDOORS.COM](http://www.taheoutdoors.com)

ZEGUL GREENLAND T - TAHE OUTDOORS

The Zegul Greenland T is a classic Greenland style kayak with a slightly roomier design suitable for longer day trips, without sacrificing the true characteristics of the famous Greenland kayaks. The Greenland T is specially developed for paddlers wanting a classic Greenland style kayak, but with more storage room and a slightly roomier cockpit for longer outings. The Greenland T is a low volume kayak that is exceptionally responsive. The kayak has a hard chine all the way along the V-bottomed hull and a high rocker to ease maneuvers. A rather low volume front deck helps you with forward rolls and the low back deck helps with easy laid-back rolls.

LENGTH: 540 CM/17'7" | WIDTH: 54 CM/21¼" | WEIGHT: A-CORE: 22-24 KG/49-53 LBS, 3D C-CORE: 18-20 KG/40-44 LBS, ROCK SOLID: 22-24 KG/49-53 LBS, FULL CARBON: 16-18 KG/35-40 LBS | MAX. CAP.: 135 KG/298 LBS | LEVEL: HIGH END

[HTTP://WWW.TAHEOUTDOORS.COM](http://www.taheoutdoors.com)

ZEGUL ARROW PLAY MV - TAHE OUTDOORS

The Arrow Play MV is a performance sea kayak, developed specially for maneuvering and playing in the sea. It is also an excellent kayak for day trips and extended overnight getaways. The hull has significant rocker and volume in the bow to avoid diving when riding down the waves. The mid-section has a slightly rounded profile making it very smooth form edge to edge. This, combined with the hard chines, make the Play a joy to paddle whether you enjoy the rough stuff or just want a sea kayak that responds instantly to your moves.

LENGTH: 517 CM/17'0" | WIDTH: 53.5 CM/21" | WEIGHT: A-CORE: 23-25 KG/51-55 LBS, 3D C-CORE: 19-21 KG/42-46 LBS, ROCK SOLID: 23-25 KG/51-55 LBS, FULL CARBON: 16-18 KG/35-40 LBS | MAX. CAP.: 150 KG/331 LBS | LEVEL: PERFORMANCE

[HTTP://WWW.TAHEOUTDOORS.COM](http://www.taheoutdoors.com)

ZEGUL ARROW EMPOWER - TAHE OUTDOORS

The Empower is a full-bodied sea kayak made for long trips and expeditions. The Empower is surprisingly agile and, despite its length, has a very nice glide. Empower acts almost like a play boat when put on edge. The Empower kayak has soft chines and a long water line. The hull's profile is rounded and the rocker is moderate to handle big seas. The four hatches are all beautifully recessed into the deck and pack with ease for extended trips or just for a weekend getaway.

LENGTH: 566 CM/18'3" | WIDTH: 53 CM/21" | WEIGHT: A-CORE: 26-28 KG/57-62 LBS, 3D C-CORE: 20-22 KG/44-49 LBS, ROCK SOLID: 26-28 KG/57-62 LBS, FULL CARBON: 18-20 KG/39-44 LBS | MAX. CAP.: 178 KG/393 LBS | LEVEL: HIGH END

[HTTP://WWW.TAHEOUTDOORS.COM](http://www.taheoutdoors.com)

NORSE DUVA - NORSE KAYAKS

The Norse Duva is a vacuum molded composite kayak with a rudder and two bulkheads. The kayak is a steady and safe sea kayak very suited for beginners as well as more experienced paddlers. With its adjustable backrest and ideal comfortable seat, the kayak gives great stability. The Duva has excellent tracking and is easy to handle.

LENGTH: 498 CM | WIDTH: 58 CM | VOLUME: 285 L | WEIGHT: 23 KGS | WEIGHT RANGE: 60-90 KG | MAX. CAP.: 120 KG | LEVEL: HIGH END

[HTTP://WWW.NORSEKAYAKS.COM](http://www.norsekayaks.com)

SKINNER - LETTMANN

Greenland meets Moers. The entirely new hull-design makes our Skinner the innovation in the construction of Greenland kayaks. The fun begins with getting in the spacious cockpit area! No more struggles getting into the kayak! With its flat silhouette and long stems, the fun only ends - probably too soon - getting out of the boat after the perfect day of paddling. The slender bow cuts elegantly through the water, the rounded U-frame in the waist guarantees high stability. For light paddlers the Skinner is suitable even for long trips with lots of luggage. Heavy paddlers love the Skinner for daytrips or the daily training run on nearby waters. Comes with the option to install our one-of-a-kind rudder-skeg in the Expedition model: (also installed in our Biskaya and Skagerrak).

LENGTH: 560 CM | WIDTH: 54 CM | VOLUME: 287 L | WEIGHT: 25 KG DCS, 20 KG LCS
| PADDLER WEIGHT RANGE: 90-125 KG | LEVEL: HIGH END

[HTTP://WWW.LETTMANN.DE](http://www.lettmann.de)

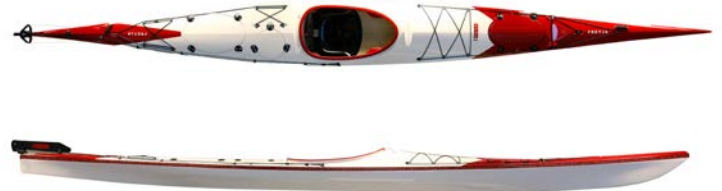

NORSE FREYJA - NORSE KAYAKS

Designed for the smaller paddler, the Freyja features a 550 cm length and a width of 55 cm. It has a V-shaped hull that contributes to Freyja's fast speed and excellent tracking. The accessible day hatch behind the cockpit gives access to one of the Freyja's three bulkheads. All hatches are watertight and easy to open in all conditions. The comfortable seat with adjustable backrest makes staying out on the waters for hours a real pleasure.

LENGTH: 550 CM | WIDTH: 55 CM | VOLUME: 253 L | WEIGHT: 23 KGS | WEIGHT RANGE: 50-75 KG | MAX. CAP.: 95 KG | LEVEL: HIGH END

VÄDERÖ BAMBOO COMPOSITE MV/HV - MELKER KAYAKS

Melker Väderö is already a proven success in its home market, Sweden! Tested by Outside Magazine to rave reviews: "...Innovation, value for money and design in a perfect combination - a potential bestseller..." the Melker Väderö is a secure and stable allrounder for novice and intermediate paddlers - a kayak to enjoy and evolve with for a very long time. The Väderö has a timeless design and benefits from the FSC Bamboo Composite characteristics in combination with a honeycomb structure. This makes the kayak lighter, stiffer, and more durable. The foredeck on High Volume version (HV) is ~2 cm higher and the fitted cockpit is slightly larger, offering convenience during entry and exit for larger paddlers.

LENGTH: 520 CM | WIDTH: 58 CM | WEIGHT: 24 KGS | PADDLER WEIGHT RANGE: 50-85 KG (MV) 75-110 KG (HV) | SIZES: MV, HV | LEVEL: HIGH END | STORAGE: 75L +115 L

[HTTP://WWW.MELKERKAYAKS.SE](http://www.melkerkayaks.se)

ULVÖN LV - MELKER KAYAKS

Melker Ulvön takes the concept of sustainability, design and innovation, function and safety, and value-for-money even further and introduces a serious expedition kayak with a playful character. Highly inspired by surfski and surfboard design, with the large volume in the bow, the kayak offers an exceptional performance catching bigger waves and swells. The kayak's playfulness shows itself in the strongly turned freeboards and refined curves, which gives the kayak a great end stability and maneuverability, offering responsive and comfortable carving turns. The extended waterline gives excellent glide and high speed with very little effort. The FSC Bamboo Composite characteristics make the Ulvön lighter, stiffer, more durable, and less harmful to the environment. Comes with dual color deck, skeg (optional rudder), day-hatch with cup, backrest, glassed in pedals, soft seat and padded thigh braces.

LENGTH: 500 CM | WIDTH: 51.5 CM | WEIGHT: 22.5 KGS | PADDLER WEIGHT RANGE: 50-85 KG | LEVEL: HIGH END | STORAGE: 18 L + 65 L + 115 L | COCKPIT SIZE: 88 CM X 48 CM

[HTTP://WWW.MELKERKAYAKS.SE](http://www.melkerkayaks.se)

TROSSÖ : BAMBOO COMPOSITE - MELKER KAYAKS

The Melker Trossö is a playful and responsive allrounder even for novice paddlers; a kayak that evolves with your skills. The FSC Bamboo Composite characteristics make the kayak lighter, stiffer, and more durable. The flat V-shaped bottom offers great stability and creates an amazingly smooth, fast and fun kayak for everyone. Well-balanced rocker offers great control and maneuverability even in tougher conditions. Easily accessed dayhatch placed on the foredeck and two big hatches placed in the bow and aft offer great space for overnight adventures. The spacious cockpit is arranged for excellent comfort and convenience during entry and exit, even for larger paddlers. Bamboo Composite configuration comes with: Bamboo composite layup with honeycomb in the hull, dual color deck, skeg (optional rudder), dayhatch with cup, backrest, glassed in pedals, soft seat and padded thigh braces.

LENGTH: 503 CM | WIDTH: 58 CM | WEIGHT: 23 KGS | PADDLER WEIGHT RANGE: 60-110 KG | LEVEL: HIGH END | STORAGE: 75L +115 L

RÖDLÖGA LV - MELKER KAYAKS

Proudly introducing our latest innovation: The Melker Rödlöga - an easily maneuvered and playful sea kayak. Designed by award-winning engineer Magnus de Brito, together with Melker Kayaks' design-team, to meet our highest possible standards of sustainability, design and innovation, function and safety, and value-for-money. The kayak was built with rougher waters, currents and surf waves in mind - yet is stable and easily maneuvered in calmer waters - the perfect kayak to evolve with. FSC Bamboo Composite characteristics in combination with honeycomb structure make the kayak lighter, stiffer, more durable and less harmful to the environment. Melker Rödlöga is designed for aid tracking capabilities in cross winds. Enhance control even further with a responsive and retractable rudder (optional).

LENGTH: 480 CM | WIDTH: 52 CM | WEIGHT: 21.5 KGS | PADDLER WEIGHT RANGE: 45-80 KG | LEVEL: HIGH END | STORAGE: 18 L + 60 L + 100 L | COCKPIT SIZE: 88 CM X 48 CM

[HTTP://WWW.MELKERKAYAKS.SE](http://www.melkerkayaks.se)

NORSE BYLGJA - NORSE KAYAKS

This is a hardchine kayak with a firm skeg. The Bylgja tracks extremely well in all conditions and turns on a dime. As with all our sea kayaks, the Bylgja's hull is reinforced with aramid all the way through her keel. In addition to this, the chines have also been reinforced to take a beating. This kayak has three bulkheads.

LENGTH: 520 CM | WIDTH: 55 CM | VOLUME: 350 L | WEIGHT: 24 KGS | WEIGHT RANGE: 60-110 KG | MAX. CAP.: 140 KG | LEVEL: HIGH END

[HTTP://WWW.NORSEKAYAKS.COM](http://www.norsekayaks.com)

420 SPORT - WIGKAYAKS

With the 420 Sport, we've taken care of everything, so you can simply kayak. Low size, low weight. Material options. Rudder system included. Two large storage spaces, one 15-cm day hatch.

LENGTH: 420 CM | WIDTH: 61 CM | WEIGHT: 20 KG | PADDLER WEIGHT RANGE: 70-90 KG | LEVEL: PERFORMANCE

[HTTP://WWW.WIGKAYAKS.COM](http://www.wigkayaks.com)

EPSILON C300 - BOREAL DESIGN

This stable and predictable craft works with a wide variety of paddlers. Those with long legs or natural curves will delight in its spacious cockpit. A rudder, ample deck bungees, and a full complement of deck safety lines are placed strategically to maximize your storage. Boreal Design has invested in high quality materials in all three constructions. Our bulkhead installation is famous for being reliable. With our easily adjustable foot sliders, the Epsilon accommodates a wide size range of paddlers. The Epsilon is a smooth, predictable and stable craft. Even in rougher water the ride is quite dry. Load up for a couple weeks and enjoy the speed of the Epsilon. Simply a delightful kayak to paddle while being able to count on its dependability! This versatile series is available in three sizes - making it accessible to any sized paddler - and available in rotomolded plastic, thermoformed ABS or composite construction.

LENGTH: 17'5/4.9 M | WIDTH: 24.25"/61.6 CM | VOLUME: 119 G/450 L | WEIGHT: 71.2 LBS/32.3 KG | PADDLER WEIGHT RANGE: 200-300 LBS/91-136 KG MAX CAP.: 340 LBS/155 KG | LEVEL: HIGH END

VALKYRIE - PYRANHA

The Valkyrie is a sea kayak designed for speed; whether you use that speed to take on more extensive open water crossings and expeditions, to challenge a circumnavigation record, or just to inject a touch more adrenaline into your day trips is up to you. A narrow, vertical bow maintains maximum waterline length whilst slicing cleanly through the water, creating a clean path for the rest of the kayak's hull to follow efficiently; added benefits of this shape are increased bow hatch volume, and a more engaged hull at the bow to counteract windage. P&H Kayak Sail System ready.

LENGTH: 539 CM | WIDTH: 53 CM | LEVEL: HIGH END

[HTTP://WWW.PYRANHA.COM](http://www.pyranha.com)

MEZZO STANDARD - RTM

The Mezzo is easy to maneuver and compact. It allows a playful approach to the touring kayak, on the calm waters, seashore, and coasts. This new kayak combines comfort, stability, and glide, regardless of the size of the paddler. Its large cockpit makes embarkation and disembarkation easier. The seat is particularly comfortable with a wide, ergonomic and foldable backrest. The kayak is fitted with a built-in compartment on the rear deck, to carry the personal belongings of the paddler. Bungees hold the PE cover in place.

LENGTH: 360 CM/11.8' | WIDTH: 67 CM/26.3" | WEIGHT: 25 KG/55 LBS | MAX. CAP.: 120 KG/265 LBS | LEVEL: ENTRY LEVEL

HYDRA - WAVE SPORT

The all-new Hydra from Wave Sport is a feature-rich sporty tourer set to turn heads - its sleek, stylish lines only hint at the speed and performance screaming to be unleashed! A game-changing complex hull shape and rocker profile propels the Hydra into an arena of its own. This is Touring: Wave Sport style! Like a sea monster from the deep, the Hydra possesses plenty of attitude and can certainly hold its own in the big stuff. Riding high over waves and offering plenty of stability - the Hydra will let you rule the waves. But don't be scared... the many heads of the Hydra make it a multifaceted platform for tour or play. The Hydra's caring nature yearns to look after the occasional traveller still finding their feet in the world of kayak touring.

LENGTH: 452 CM | WIDTH: 60 CM | WEIGHT: 25 KG | MAX. CAPACITY: 140 KG | LEVEL: HIGH END

TSUNAMI 145 - WILDERNESS SYSTEMS

An icon is reimagined in the all-new Tsunami. The aesthetics of the new Tsunami inspire performance and exploration with modern deck lines, while a focus on improving the paddler's experience sees new features incorporated into the design – two removable mesh deck storage bags are perfect for stowing close-at-hand items, and an under-deck storage area provides another alternative for staging your favorite beverage. Small changes with big effects have also been integrated into the hull – the flared sidewalls and increased volume above the waterline have been improved to provide more confidence and stability, while the longer waterline has increased speed and efficiency.

LENGTH: 442 CM/14.6' | **WIDTH:** 65 CM/25.5" | **WEIGHT:** 25 KG/56 LBS | **MAX. CAP.:** 159 KG/350 LBS | **LEVEL:** ENTRY LEVEL | **SIZES:** TSUNAMI 125, TSUNAMI 140, TSUNAMI 145

BURAN 430 - ROTO ATTIVO

BURAN 430 a modern sea kayak with a shorter hull for added maneuverability and more rocker for greater secondary stability and easier turning. Available in three different versions: The Buran Basic, The Buran Weekend, and the Buran Expedition.

LENGTH: 430 CM | WIDTH: 60 CM" | WEIGHT: 21 - 23 KG | DEPTH: 27 CM

[HTTP://WWW.ROTOATTIVO.EU](http://www.rototattivo.eu)

BURAN 488 - ROTO ATTIVO

The Buran 488 is the kayak for tall and/or heavy paddlers - or those with limited mobility. The Buran 488 features an XL cockpit for easy entry and exit, and is high volume with extreme load capacity. Plenty of space - especially in the leg and foot area- make this kayak comfortable for those who need more room. Accommodates even foot size 47! Very stable and fast - just like the shorter version. In the rear, a newly developed feature - a multifunctional insert - is easily upgradeable for a rudder. Useable for a drainplug or a rudder sleeve.

LENGTH: 488 CM | WIDTH: 63 CM" | WEIGHT: 26 - 29 KG | DEPTH: 27 CM

[HTTP://WWW.ROTOATTIVO.EU](http://www.rototattivo.eu)

TIWOK EVO - DAG

Stable, elegant and speedy, the Tiwok evolves toward better comfort thanks to the new Hi-Class Seat and Backrest and a larger cockpit. All size paddlers can now enjoy day trips or excursions on the sea, lakes, and rivers thanks to this polyvalent kayak. Maximum recommended paddler weight: 95 kg. A 63-liters watertight front compartment is accessible through one hatch. A watertight 120-liters rear compartment is accessible through another hatch. The Tiwok Evo is constructed of a tri-layered polyethylene sandwich, consisting of two layers of linear high-density PE and a low density foamed PE foam core.

LENGTH: 440 CM/14.4' | WIDTH: 60 CM/23.6" | WEIGHT: 26 KG/57 LBS | MAX. CAP.: 130 KG/286 LBS | LEVEL: ENTRY LEVEL

[HTTP://WWW.DAG-KAYAK.COM](http://www.dag-kayak.com)

BOLERO - ISLANDER KAYAKS

A classic touring kayak that is fast enough to cover distance, yet stable and easy to paddle. The rounded hull inspires confidence, and the drop-down skeg will help keep you paddling straight in choppy water. The accessible, comfortable cockpit includes multiple storage options, making the Bolero our go-to touring kayak for inland or coastal adventures.

SIZES: 14, 15 | LENGTH: 426 CM, 455 CM | WIDTH: 62 CM, 63 CM | WEIGHT: 23 KG, 26 KG | MAX. CAP.: 130 KG, 145 KG | LEVEL: HIGH END

[HTTP://WWW.ISLANDERKAYAKS.COM](http://www.islanderkayaks.com)

JOURNEY - JACKSON KAYAKS

Designed for the touring paddlers seeking to champion themselves into the next level of their adventures. The Journey offers speed, stability and safety for paddlers looking to push their adventures to great heights. This kayak utilizes best-in-class design techniques for edge control, comes Smart Rudder ready, and is equipped with top of the line, whitewater inspired outfitting for comfort and customized fit. Whether paddling for an afternoon or several days - the Journey will take you on an adventure.

LENGTH: 14' | WIDTH: 25" | WEIGHT: 61 LBS | PADDLER WEIGHT RANGE: 90-310 LBS | LEVEL: PERFORMANCE

[HTTP://WWW.JACKSONKAYAK.COM](http://www.jacksonkayak.com)

SCORPIO MKII HV CLX - P&H SEA KAYAKS

With the Scorpio MKII HV in CoreLite X, those needing a larger boat won't have to put up with something that's excessively heavy. CoreLite X construction brings the Scorpio MKII's performance closer to that of the Cetus, its composite brother. The reduced weight and greater stiffness is noticeable straight away, but you'll really come to appreciate it when every last bit of energy counts. Increased durability means you can explore rocky coastlines and shallow bays with absolute confidence and enjoy a reliable and responsive working platform with an impressive lifespan. Rental Centers can give clients something fun and progression friendly without excessive fleet replacement or maintenance costs. With a whole plethora of features such as recesses for secure split paddle storage and the revolutionary Skudder system to take a kayak sail mast foot, no other polyethylene sea kayak on the market comes as ready for adventure as this.

**LENGTH: 535 CM | WIDTH: 61 CM | VOLUME: 344 L | WEIGHT: 29.5 KG |
PADDLER WEIGHT RANGE: 75 - 135 KG | MAX. CAP.: 135 KG | LEVEL: HIGH END**

[HTTP://WWW.PHSEAKAYAKS.COM](http://www.phseakayaks.com)

DELPHIN 155 MKII CLX - P&H SEA KAYAKS

The Delphin MKII 155 advances the milestone modern sea kayak design of the Delphin to include a much-requested day hatch, providing a dedicated, quick-access hatch for safety gear, or allowing those embarking on longer expeditions to separate their kit appropriately. Other key advancements include the relocation of the skeg slider to the deck, and re-profiling of the cockpit for increased comfort. The P&H Delphin MKII 155 in CoreLite X is the absolute pinnacle of modern polyethylene sea kayak design; go rule the waves.

**LENGTH: 485 CM | WIDTH: 57 CM | VOLUME: 267 L | WEIGHT: 25.5 KG |
PADDLER WEIGHT RANGE: 65 - 125 KG | MAX. CAP.: 125 KG | LEVEL: HIGH END**

[HTTP://WWW.PHSEAKAYAKS.COM](http://www.phseakayaks.com)

STRATOS - DAGGER KAYAKS

The Stratos is a high performance ocean tourer, optimised for the paddler who wants an easy ride. Smooth and forgiving for the new paddler to learn, with performance characteristics that experts will relish, the Stratos has been developed for stability and predictability even in rough or moving water.

**SIZES: 14.5 S, 14.5 L | LENGTH: 440 CM, 442 CM | WIDTH: 60 CM, 64 CM |
WEIGHT: 24 KG, 25 KG | MAX. CAP.: 125 KG, 136 KG | LEVEL: HIGH END**

[HTTP://WWW.DAGGER.COM](http://www.dagger.com)

BAFFIN T2 - BOREAL DESIGN

The Baffin is built for the rigors of rough seas. A skeg series with a long and favorable history in the Boreal Design line up, the Baffin's reverse chine and distinctive upswept bow and stern provides paddlers with a lively yet stable boat compared to other Greenland style kayaks. Generous sized hatch openings allow paddlers to load plenty of supplies for long missions while the easily accessible day hatch keeps essentials handy. Available in three sizes, the new thermoformed ABS model reduces weight, increases durability and performance glide, making it a great upgrade for any kayaker.

LENGTH: 17 FEET | WIDTH: 23 IN | VOLUME: WEIGHT: 55 LBS | LEVEL: HIGH END

[HTTP://WWW.BOREALDESIGN.COM](http://www.borealdesign.com)

EPSILON P100 - BOREAL DESIGN

The Epsilon P100 is the smallest of this stable and predictable series. A rudder, ample deck bungees, and a full complement of deck safety lines are placed strategically to maximize your storage. Boreal Design has invested in high quality materials in all three constructions. Our bulkhead installation is renowned as being reliable. The Epsilon is a smooth, predictable and stable craft. Even in rougher water the ride is quite dry. Load up for a week-long trip and enjoy the speed of the Epsilon. Simply a delightful kayak to paddle knowing you can count on its dependability! This versatile series is available in three sizes – making it accessible to any sized paddler – and available in rotomolded plastic, thermoformed ABS or composite construction.

**LENGTH: 16'5/5M | WIDTH: 22.5 1/2" | VOLUME: 91 G/345 L | WEIGHT: 67.9 LBS/30.8 KG |
PADDLER WEIGHT RANGE: 90-190 LBS/41-73 KG | MAX. CAP.: 240 LBS/109 KG |
LEVEL: HIGH END**

[HTTP://WWW.BOREALDESIGN.COM](http://www.borealdesign.com)

EPSILON P300 - BOREAL DESIGN

This stable and predictable craft works with a wide variety of paddlers. Those with long legs or natural curves will delight in its spacious cockpit. A rudder, ample deck bungees, and a full complement of deck safety lines are placed strategically to maximize your storage. Boreal Design has invested in high quality materials in all three constructions. Our bulkhead installation is famous for being reliable. With our easily adjustable foot sliders, the Epsilon accommodates a wide size range of paddlers. The Epsilon is a smooth, predictable and stable craft. Even in rougher water the ride is quite dry. Load up for a couple weeks and enjoy the speed of the Epsilon. Simply a delightful kayak to paddle while being able to count on its dependability! This versatile series is available in three sizes – making it accessible to any sized paddler – and available in rotomolded plastic, thermoformed ABS or composite construction.

LENGTH: 17'5/4.9 M | WIDTH: 24.25"/61.6 CM | VOLUME: 119 G/450 L | WEIGHT: 71.2 LBS/32.3 KG | PADDLER WEIGHT RANGE: 200-300 LBS/91-136 KG | MAX CAP.: 340 LBS/155 KG | LEVEL: HIGH END

[HTTP://WWW.BOREALDESIGN.COM](http://www.borealdesign.com)

RIOT BRITTANY - RIOT KAYAKS

Our proven, award-winning British style sea kayak, the Brittany's reputation speaks for itself. Fast and agile, yet catering to paddlers of all skills, its stability instantly puts you at ease while its moderate width makes it possible for expert paddlers to express all the subtlety and finesse of fine sea kayak handling. Plenty of deck bungee, a compass recess, hi-vis lifelines and safety straps complete the package and maintain respect to the Brittany design tradition.

LENGTH: 15'10/482 CM | WIDTH: 21.65"/55 CM | WEIGHT: 66.1 LBS/30 KG | MAX CAP.: 350 LBS/159 KG | LEVEL: PERFORMANCE

[HTTP://WWW.RIOTKAYAKS.COM](http://www.riotkayaks.com)

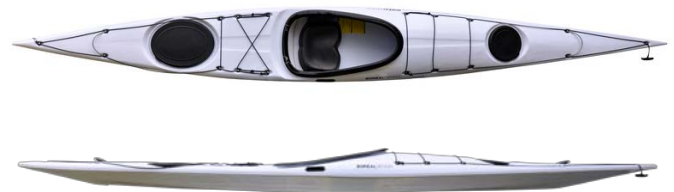

GREENLAND 17 - RIOT KAYAKS

The 17-foot Greenland is designed with traditional and historical consideration with the user friendly additions of more width and cockpit to make a kayak to be used by all. The Greenland 17 weighs only 45 lbs and paddles smooth and effortlessly. Strong initial and secondary stability will leave you incredibly pleased with overall performance. While Greenland rolling traditionalists will find it wider than normal, the Greenland 17 is intended to introduce more first timers to the sport and help make it easy for new paddlers to enjoy their first outing on the water. The Greenland 17 is made of thermoformed ABS plastics for a light but durable boat that will last.

LENGTH: 17 FEET | WIDTH: 23 IN | WEIGHT: 45 LBS | LEVEL: ENTRY LEVEL

[HTTP://WWW.RIOTKAYAKS.COM](http://www.riotkayaks.com)

BAFFIN 1 - BOREAL DESIGN

The slender Baffin 1 is built to battle the seas and made for the intermediate paddler. Its unique hull design provides paddlers with a lively boat compared to other Greenland style kayaks. The three models in the series are well suited for a wide range of paddlers who demand immediate control and predictability. The Baffin comes with a full complement of deck rigging and a comfortable cockpit. This versatile series makes choosing a kayak a breeze. There are three different sizes, each available in rotomolded plastic, thermoformed ABS or composite construction.

LENGTH: 16'5 | WIDTH: 21.5" | VOLUME: 91 G | WEIGHT: 62.8 LBS/28.5 KG | PADDLER WEIGHT RANGE: 90-190 LBS | LEVEL: PERFORMANCE

[HTTP://WWW.BOREALDESIGN.COM](http://www.borealdesign.com)

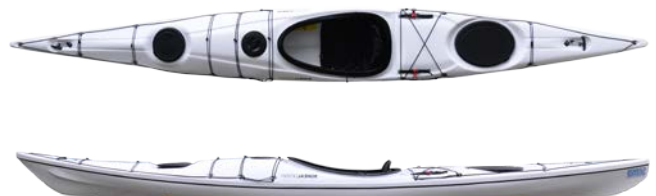

STORM 16 - BOREAL DESIGN

Pay attention, the next Gen X of kayaks is here and it's called the Storm 16! The Storm 16 is a do it all kayak that fits most everyone. Guides, Rec paddlers, expedition paddlers and rental locations, all can enjoy the Storm. Skag or rudder, Stable, lots of knee room, edge turn with massive secondary stability, and sporting the new Flex 4 seat system it really is comfortable over long distance and it simply makes paddlers look good! The Storm 16 is possibly the most versatile kayak that will endure the waves of time. The SR (Storm Ready) series is the new standard in kayaks other kayaks will be referenced by for years to come. Made from Thermoformed ABS with an Acrylic Solar Cap.

LENGTH: 16' | WEIGHT: 45 LBS | LEVEL: HIGH END

[HTTP://WWW.BOREALDESIGN.COM](http://www.borealdesign.com)

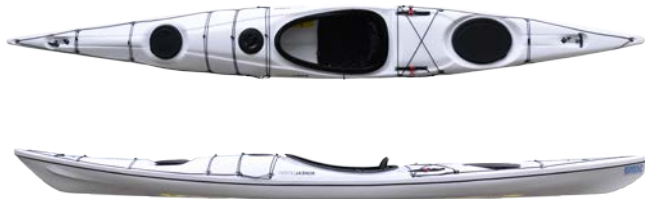

SEDNA - BOREAL DESIGN

Boreal Design is well known for its long boats but outfitters wanted a shorter kayak that clients could handle in adverse conditions, and so, the Sedna was born. This 15 footer is a desired boat for instructional use and light touring complete with rudder and a full complement of deck lines and safety straps. Significant rocker allows it to perform admirably on waves and it turns on a dime to get you out of the hole when required! The moral of the story is that the Sedna is simply the 15" "go-to boat" that does it all!

[HTTP://WWW.BOREALDESIGN.COM](http://www.borealdesign.com)

STORM 15 - BOREAL DESIGN

Every once in a while a series of kayaks is designed that just seem to do it all. Often called the go to boat, the Storm 15 appeals to Guides and Recreational paddlers alike. One of a series of three sizes, the 15 fits smaller women paddlers and kids given its lightweight construction rolling in at a meager 45lbs (!), slender profile, and low cut deck. Comes in rudder or skeg options. The SR 15 is made to be used anytime anywhere! Rocker is optimized to maintain group speed but is enough to maintain paddlers grin while surfing waves or traversing tidal zones. As all Storm SR series boats are labelled "Storm Ready" you will be certifiably happy paddling in any condition. Made from Thermoformed ABS with an Acrylic Solar Cap.

LENGTH: 15' | WEIGHT: 45 LBS | LEVEL: HIGH END

[HTTP://WWW.BOREALDESIGN.COM](http://www.borealdesign.com)

COMPASS - BOREAL DESIGN

Fast, sleek, stable and seaworthy – the Compass SR-140 does it all. While not a full touring kayak, this kayak gives you options. With enough storage capacity for 5 day tripping, yet light enough to easily carry; this is a versatile cross over kayak. The Compass SR-140 will turn on a dime, handle rough water and more importantly, put a smile on your face. The ergonomic cockpit with our industry leading 4-Way Adjustable Seat will fit a wide range of paddlers. The new day hatch is within easy reach, it comes with a rudder and our high-grade soft BD hatches protect your gear from water. The Compass really is a big boat in a little package just waiting for you. It's easy to paddle, easy to load, easy to travel with so, it must be easy to buy!!

LENGTH: 14'4.3 M | WIDTH: 24" / 61 CM | VOLUME: 42.3 G / 160 L | WEIGHT: 50.9 LBS / 23.1 KG | PADDLER WEIGHT RANGE: 90-300 LBS / 41-136 KG | MAX CAP.: 350 LBS / 158 KG | LEVEL: PERFORMANCE

STARLIGHT K2 - LETTMANN

The Star Light K2 is a lightweight, tandem touring kayak based on our very popular Star Light K1. In our Star Light family we focus on a very low weight. We only use the best material and the newest technologies. And of course, we only put in what is absolutely necessary – for example our comfortable adjustable seat and the incredible balance steering system. Add our innovative integrated back hatch and the Star Light K2 is ready for day trips or weekend adventures. Its stable hull makes it suitable for beginners but experienced paddlers love its compact and fast hull design.

LENGTH: 530 CM | WIDTH: 69 CM

[HTTP://WWW.LETTMANN.DE](http://www.lettmann.de)

STARLIGHT GT2 - LETTMANN

You decided to spend the day alone on the river, just you and perhaps some bird watching. In that case you choose the solo mode of the starlight GT. It is stable, fast and good to handle on your own. But then you find the girl of your life! Just fit the optional middle part and make the Star Light a proper tandem kayak! It takes only a few minutes. With style and grace you can take her to the best places and then... when she leaves you for a whitewater-kayaker, just take out the middle and make the GT2 a solo kayak again. Whatever life brings to you – be prepared with the Starlight GT2!

LENGTH: 219+136+223 CM | WIDTH: 68 CM

[HTTP://WWW.LETTMANN.DE](http://www.lettmann.de)

ÖRSKÄR K2-1 - MELKER

Bring along kids, dogs, or extra gear for overnight adventures -or paddle the light weight and flexible kayak by yourself - the innovative pedals and seats are easy to move between the cockpits. Secure and stable so the family can fully enjoy the experience during longer expeditions, it also offers excellent glide and maneuverability - even paddling solo. The fitted and flexible cockpits are arranged for excellent comfort and ease of entry and exit. Adjustable, padded, ergonomic seats in combination with optimal legroom keep your back and legs happy. The Örskär's timeless design benefits from the FSC Bamboo Composite characteristics, which make the kayak lighter, stiffer, and more durable. Designed by award winning engineer Magnus de Brito, together with Melker Kayaks design team, to meet our highest possible standards of sustainability, design and innovation, function and safety, and value-for-money.

LENGTH: 586 CM | WIDTH: 64 CM | WEIGHT: 29-31 KG | LEVEL: HIGH END | COCKPIT SIZE: 86 CM X 49 CM

[HTTP://WWW.PRIJON.COM](http://www.prijon.com)

BIWOK EVO - DAG

Kayakers can adjust the depth of the Biwok's removable drift depending on wind and current strength to correct course more easily. The Biwok EVO is designed for performance and comfort. Larger cockpits with hi-class seats and backrests offer optimal comfort, while a high load capacity, speed, and stability, offers all the advantages expected from performance crafts. Dimensions coamings: 92 x 47 cm. Volume front watertight compartment: 62 liters - accessible through one hatch. Volume watertight compartment rear: 120 liters - accessible through one hatch.

LENGTH: 17.5'/530 CM | WIDTH: 26"/67 CM | WEIGHT: 78 LBS/35.5 KG | MAX. CAP.: 600 LBS/270 KG | LEVEL: PERFORMANCE

[HTTP://WWW.DAG-KAYAK.COM](http://www.dag-kayak.com)

HORIZON - WAVESPORT

The Horizon is a versatile twin-cockpit tandem kayak perfect for short trips and multi-day expeditions. The long waterline provides excellent directional stability, yet the Horizon is still nimble enough for inland adventures. A high volume bow gives a dry ride even in choppy waters, as it climbs over waves and deflects spray from the cockpit areas. New for 2018: now available with CORE WhiteOut outfitting offering superior comfort including leg lifter support. Wave Sports trusty BlackOut outfitting is also available with modern comforts and adjustment.

LENGTH: 488 CM | WIDTH: 76 CM | WEIGHT: 36 KG | MAX. CAP.: 280 KG | LEVEL: PERFORMANCE

[HTTP://WWW.WAVESPORT.COM](http://www.wavesport.com)

OASIS TWIN MAX EXPEDITION RAINBOW KAYAKS

The Oasis Twin Max Expedition has the same outfitting of the Oasis Twin model but has more volume, especially in the knees and feet area. Add a larger cockpit, and the Oasis Twin Max is ideal for taller and heavier paddlers.

LENGTH: 495 CM | WIDTH: 67 CM | WEIGHT: 31 KG | VOLUME: 480 L | COCKPIT: 102 X 48 CM | LEVEL: PERFORMANCE

[HTTP://WWW.RAINBOWKAYAKS.COM](http://www.rainbowkayaks.com)

BUILT FOR SPEED ON THE OCEAN AND DESIGNED FOR TRAINING, DAY TRIPS OR RACING, THESE LONG, SLEEK DESIGNS HAVE EXCEPTIONAL TRACKING AND ALLOW PADDLERS TO MOVE SWIFTLY THROUGH WAVES AND ROUGH SEA CONDITIONS.

UNO MAX - THINK KAYAK

The new Uno Max is faster, more maneuverable, and more stable, with the great ergonomics Think Kayak is famous for. If you're looking for an elite level surfski capable of winning in all conditions, from flat water to big downwind conditions, look no further than the third generation of the most winning surfski since its introduction in 2010. The winner of the Dubai Shamaal, Mayor's Cup, Cape Point Challenge, the World Champs in Portugal, and many more, the Uno Max is a proven reliable top performer. Available in Performance, River, Elite, or Ultimate construction.

LENGTH: 645 CM | WIDTH: 43 CM | WEIGHT: 11 KG | PADDLER WEIGHT RANGE: 70 - 110 KG | LEVEL: ENTRY LEVEL

[HTTP://WWW.THINKKAYAK.COM](http://www.thinkkayak.com)

EVO - THINK KAYAK

The Evo has set the benchmark for all-around performance for more than a decade. Competitively fast, intermediate stability, and great comfort make the Evo the best choice for enthusiast racers and fitness paddlers alike. The Evo has just the right amount of rocker to surf downwind like a champ, yet still have great speed on the flats. The intermediate width of 47 cm gives that extra bit of stability to help out when conditions get difficult, but the narrow profile at the catch allows for a very efficient stroke. When you're looking for a competitive ski, but don't want to deal with the demands of skinny skis, then the Evo is the answer!

LENGTH: 625 CM | WIDTH: 47 CM | WEIGHT: 11 KG | PADDLER WEIGHT RANGE: 55- 105 KG | LEVEL: PERFORMANCE

[HTTP://WWW.THINKKAYAK.COM](http://www.thinkkayak.com)

ACE - THINK KAYAK

At Think Kayak we always get to work on fun stuff, but this time we've super-sized it with the Ace. If three words could sum up this new craft its stable, fast, and fun! At 22" wide the Ace is our most stable ski, but her sleek "swede" form means the Ace has the speed of a performance ski. The 17'8" length is highly maneuverable, great for exploring along the coastline, or linking waves when you find the wind at your back. The gunwale is low beside the seat, making remounts a snap should the need arise, and the integrated carry handle makes off the water handling a breeze. For big fun on the water, the Ace is for you!

LENGTH: 538 CM | WIDTH: 56 CM | WEIGHT: 11 KG | PADDLER WEIGHT RANGE: 60- 110 KG | LEVEL: PERFORMANCE

[HTTP://WWW.THINKKAYAK.COM](http://www.thinkkayak.com)

S16S - STELLAR KAYAKS AND SURFSKIS

The Stellar 16' Surf Ski (S16S) is a transitional sit-on-top, stable enough for entry level and intermediate paddlers to feel comfortable, but fast enough for fitness paddling and racing! The open cockpit, rounded seat and three-point footboard are very comfortable and responsive, keeping you on track to where you want to go. Two watertight hatches allow for modest storage for day tripping and overnight adventures. In the ocean, the S16S is a blast, easily catching waves and carving on the waves. The S16S's low weight makes it responsive to your power on the water and with its cockpit handles, it is a breeze to carry and car-top.

LENGTH: 488 CM | WIDTH: 25.8 CM | VOLUME: MID-VOLUME | WEIGHT: 12.5 KG | PADDLER WEIGHT RANGE: 60- 110 KG | SIZES: 14', 16', 18'

[HTTP://WWW.STELLARKAYAKS.COM](http://www.stellarkayaks.com)

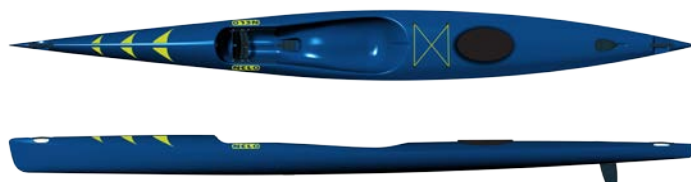

510 - NELO

The 510 is the right entry boat for anyone who wants to start paddling. It is easy to handle, durable, stable, accommodates a large range of paddler size from children to adults, and it allows for the progression from novice to semi-pro. The 510 allies with the great lines of the 520 to expand the Nelo line with an extra stable and durable boat. Built to the same standards as every other Nelo ski, it has an extra dry storage hatch area in the back deck for your paddling essentials.

LENGTH: 5.10 M | WIDTH: .55 M | PADDLER WEIGHT RANGE: 40 - 125 KG | LEVEL: ENTRY LEVEL

ISIGAA BONEEDGE GLOW EASTPOLE PADDLES

In 2016, we introduced the Isigaa - a traditional paddle with a diamond-shape shaft and no indexing shoulders. In 2017 we added a new practical feature called BoneEdge, which stands for a durable and shockproof epoxy edge. For 2018, we made the BoneEdge glow! It absorbs energy, and after 30 minutes of "charging" it glows for 5+ hours!

LENGTH: 210- 230 CM | **WEIGHT:** 650-900 G | **LEVEL:** HIGH END | **MATERIAL:** WESTERN RED CEDAR

KALLISTE - WERNER PADDLES

The carbon fiber Kalliste is our most advanced low-angle paddle, with our best paddling design and construction features. You'll feel exceptionally light, buoyant strokes while the smooth back face gives a quiet entrance and exit from the water. The Kalliste is the smart choice for those touring with a low-angle style of paddling and wanting the conservative yet powerful feel of a mid-sized blade.

INUKSUK - KAJAK SPORT COMPONENTS

The historical story and the unique feel of our West Greenland-style paddle takes you far from the traditional paddling routines that you are used to. Therefore, we gave it the name Inuksuk. It shows that you are on the right path to new adventures. The blade profile and the raw materials have been chosen to follow the historical values but the profile is thinner, which makes it quiet and precise in every stroke. Split construction with 13 cm length adjustment (215 - 228 cm) offers you plenty more options of usage and the tough but light core construction with a fantastic matte finish makes it absolutely irresistible.

LENGTH: ADJUSTABLE: 215 - 228 CM | WEIGHT: 770 G MATERIAL: CARBON | LEVEL: HIGH END | BLADE SIZE: 9.5 CM

HIGH-END

BLACKLIGHT - LETTMANN

The Black Light is the most elegant and efficient way to paddle Greenland-style. The blade glides through the sea, noiseless. The profiled surface makes each stroke soft and reduces fluttering and the ovalized shaft lies in your hand easily and securely; paddling has never been so easy. Manufactured in Carbon-Prepreg. The bicameral system featured with a vertical bridge enables extreme bending stiffness. The edges are reinforced with aramid, making the product super long lasting and reducing abrasion. Designed in Sweden by Sarah Wagner - produced in Moers, Germany. It is available as a one-piece or two-piece shaft. The minimum length is 217 cm the maximum length is 229 cm.

LENGTH: 217 - 229 CM | WEIGHT: 620 G | MATERIAL: CARBON | LEVEL: HIGH END | BLADE SIZE: 85 CM² | FEATHER: 0°

ERGONOM PRO TOUR LIGHT LETTMANN

Since the Lettmann Ergonom Pro Tour was introduced, it was always the reference in durability and power. The bent shaft in combination with the powerful blades helps you save energy. The Ergo Pro Tour generates more power than any other touring blade. The Light version comes with the same shape. A new material construction enables us to save about 10% of the weight. Try it – you will love it!

LENGTH: 212-230 CM | BLADE SIZE: 470/203 (LARGE)
| FEATHER: 55° WEIGHT: 950 G | LEVEL: HIGH END |
MATERIAL: CARBON ARAMID LCS 70 LIGHT

2018

SURGE - NRS

Designed for ultimate comfort in a front-entry vest, the full-featured Surge has a seven-panel design that effortlessly conforms to your shape. Our Cool Flow System (CFS) back panel adds welcome ventilation on warm days, and two zippered pockets give you room for snacks and supplies. Thoughtful details such as shoulder strap keepers, reflective accents and a grab tab for easier zipping make the Surge even better.

SIZES: XS/M - L/XL - XL/XXL

[HTTP://WWW.NRS.COM](http://www.nrs.com)

SECUFIT - SECUMAR

An inflatable lifejacket with 160 N specially designed for canoeists, rowers and paddlers. The SECUFIT lifejacket is simply pulled over the head and is cut short to sit directly on the chest so it will not interfere with any body movements. The back strap can be easily adjusted to the individual body size and the outer cover has an ergonomic shape so it barely touches the neck. Overall, it's so well padded with softshell material that it can be worn very comfortably. The outer cover zip has a predetermined breaking point, so it bursts extremely quickly once the firing mechanism comes in contact with water. Approved to DIN EN ISO 12402-3. (CE mark)

SIZES: BODY WEIGHT: > 40 KG

[HTTP://WWW.SECUMAR.COM](http://www.secumar.com)

CVEST - NRS

Designed with offshore sea kayakers in mind, the updated NRS cVest has two large zippered pockets and two zippered clamshell pockets, providing lots of handy storage. It includes numerous attachment points for accessories and two front-lash tabs, plus a beacon loop on the back. There are reflective accents on the front and back for low-light visibility. The cool mesh back works great with high-back seats, yet still provides 16.5 pounds of flotation. Zippered front entry and six adjustment points ensure a snug, secure fit. Large arm openings allow for unobstructed movement while paddling or rowing. For touring comfort, convenience and safety, the cVest can't be beat.

SIZES: XS/M - L/XL - XL/XXL

Recreational

Recreational kayaking involves leisure activities for the casual paddler on lakes, inlets, or flatwater streams. Recreational kayaks are characterized by a large cockpit opening for easy entry and exit, a wide hull for increased stability on the water, and a medium length for compromise between speed and maneuverability.

Due to the wider hull, recreational kayaks will not track as well as sea kayaks but the extra stability makes them suitable for a wide range of paddlers and skill levels. They generally have less cargo space as well as limited capacity to keep water out of the boat since they are meant exclusively for calm water paddling.

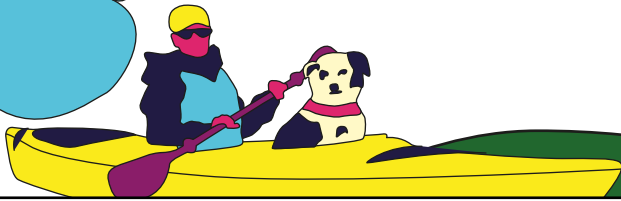

They come in solo and tandem models, can be used in a variety of settings, and are the perfect option for individuals or families looking for relaxed fun on the water.

SANTEE 126 SPORT - HURRICANE AQUASPORTS

This recreational kayak ups the ante on the industry-changing Santee 126 by adding an oversized cockpit, and it does so without sacrificing one iota of performance. In other words, you can still track like you're on rails, still carve turns, still have more fun than should be legal in most states. The 126 Sport gives you room for fishing gear, photography equipment, and camping gear too -whatever you need. The cockpit is a spacious 55 x 24 inches, and 55 x 24 = a whole lot of comfort.

LENGTH: 3.81M/12'6" | WIDTH: 71 CM/28" | WEIGHT: 17.69 KG/39 LBS | MAX.CAP.: 158.7 KG/350 LBS

PURA - BOREAL DESIGN

The PURA SR-120 is the perfect recreational kayak for beginners and paddlers looking for a stress free paddle. Heavy on style but easy to handle both on and off the water, the PURA SR-120 is a joy to paddle. Stable, responsive and comfortable, this versatile kayak will let you explore with confidence. Inspired by the very latest in advanced hull design, our designer has crafted a fast, stable kayak that tracks effortlessly & ensures a "dry ride". The PURA SR-120 is even enjoyable for seasoned paddlers. The ergonomic cockpit with our industry leading 4-Way Adjustable Seat will fit a wide range of paddlers and the new day hatch is within easy reach.

[HTTP://WWW.BOREALDESIGN.COM](http://www.borealdesign.com)

HALO - BOREAL DESIGN

Designed to give kayakers comfort and stability with agile yet positive handling, the HALO SR-130 will make all of your adventures memorable. Experienced paddlers and those looking to develop their skills will appreciate the HALO SR-130. This is truly a light and fun kayak! The ergonomic cockpit with our industry leading 4-Way Adjustable Seat fits a wide range of paddlers. The new day hatch is within easy reach, along with the optional rudder. Sharing many features with our touring kayaks, the HALO SR-130 also comes with our dry BD hatches for storage, a full complement of safety lines and bungees on deck.

[HTTP://WWW.BOREALDESIGN.COM](http://www.borealdesign.com)

EDGE 13 - RIOT KAYAKS

With an eye pleasing low deck profile so you don't feel lost inside, and a bundle of features that would make any sea kayak blush with envy, the Edge 13 brings together harmony of shape and a kayak rich in features. Its hull offers an amazing blend of primary and secondary stability, so you'll be immediately comfortable in a boat that will grow with you. The Edge 13 is a boat you will want to paddle again and again!

LENGTH: 13'397 CM | WIDTH: 25.1"/64 CM | WEIGHT: 58 LBS/26.3 KG | COCKPIT: 38" X 20.5/97 X 52 CM | MAX. CAP.: 300 LBS/136 KG | LEVEL: PERFORMANCE

[HTTP://WWW.RIOTKAYAKS.COM](http://www.riotkayaks.com)

EDGE 11 THERMO - RIOT KAYAKS

Low on the water, the stable and agile Edge 11 literally feels like a shrunken-down sea kayak thanks to its swede form shape and generous outline. The integrated keel makes its hull stiff and the skeg lets you focus on destination, while the front deck rigging and rear watertight bulkhead protect you and your belongings. Also available in a fishing model, the Edge 11 Angler.

LENGTH: 10'10"/331 CM | WIDTH: 27.5"/70 CM | WEIGHT: 52.4 LBS/23.8 KG | COCKPIT: 38" X 20.5/97 X 52 CM | MAX. CAP.: 275 LBS/125 KG | LEVEL: PERFORMANCE

[HTTP://WWW.RIOTKAYAKS.COM](http://www.riotkayaks.com)

QUEST 10 LT - RIOT KAYAKS

With its famous Greenland bow and arched multi-chine hull, the Quest 10 makes paddling effortless and exciting. The Quest 10 LT is the light version of our popular Quest model. When paddling the lightweight 10 LT you will be surprised at its performance ability, tracking, and amazing speed for a compact rec boat. Note how easy it is to pack around and load. Putting it on and off the roof of your vehicle is simply easy! Stores are confident selling you this kayak knowing that you will be comfortable and most importantly you will want to paddle again and again!

LENGTH: 10'/305 CM | WIDTH: 27"/69 CM | WEIGHT: 41.2 LBS/19.7 KG | COCKPIT: 40" X 21/99 X 50 CM | MAX. CAP.: 325LBS/148 KG | LEVEL: ENTRY LEVEL

BOATS SIT ON TOP 1

DESIGNED FOR FUN WITH FAMILY AND FRIENDS ON RIVERS, LAKES AND OCEANS.

CRUISE FD - JACKSON KAYAK

Pedal or paddle with the Cruise FD! Our unique prop system helps keep the system clear of obstacles and easy to clean and is protected by an articulating daggerboard. The daggerboard serves to help positioning in the wind and also acts as a keel in adding stability when standing on the deck. The Flex Drive is easily deployed with the flip of a lever and an interchangeable electric motor driven head unit will be released in 2018. The hull of the Cruise FD is sharp and cuts swiftly, silently and efficiently through whatever water it encounters. Combined with an industry-leading turning radius, the Cruise FD is positioned to be a standout on the water. The Cruise FD expands on the new Flex Drive family of Jackson kayak with a solid recreational platform that is quick, nimble and ready for casual tours or can be customized for fishing adventures. Miles roll by effortlessly - lets go for a Cruise!

LENGTH: 11'10" | WIDTH: 33" | MAX. CAP.: 400 LBS | LEVEL: HIGH END

[HTTP://WWW.JACKSONKAYAK.COM](http://www.jacksonkayak.com)

PESCADOR 12.0 - PERCEPTION

The new Pescador incorporates the features paddlers demand to enhance their recreational and fishing experiences. The new oval hinged hatch allows quick access to storage on the front of the boat, and the inclusion of two gear tracks and a Solo Mount recess allow recreational and angling paddlers to incorporate their favorite accessories quickly. The thick padded seating system with adjustable backrest, adjustable foot pegs, a higher capacity rating, and increased stability all contribute to making the Pescador the most comfortable kayak in the market at a great price.

LENGTH: 12' / 365 CM | WIDTH: 32.5" / 82 CM | WEIGHT: 64 LBS / 29 KG | MAX. CAP.: 375 LBS / 170 KG | LEVEL: ENTRY LEVEL | SIZES: 10', 12'

[HTTP://WWW.PERCEPTIONKAYAKS.COM](http://www.perceptionkayaks.com)

MANTA RAY 12 XT - LIQUIDLOGIC

Affordability, stability, and comfortable high/low seating are the name of the game with the NEW Manta Ray 12 XT. This polyethylene adaptation of the thermoformed Native Watercraft Manta Ray 12 XT LT contains the same hull design focused on maximizing stability in a seated, paddling or sight-casting position. The Manta Ray 12 XT delivers the performance, confidence and comfort necessary for a long day on the water. The cruising speed and tracking of the Manta Ray 12 XT is impressive, and its sharp bow lines slice through the water with grace in choppy conditions and open water swells. We have taken this model to the next level of comfort, adjustability and appeal by installing a Frame Seat featuring two height positions - the lower position for paddling to and from the fishing spots and the higher position for transitioning to a standing position while casting.

LENGTH: 12.6" / 381 CM | WIDTH: 33" / 84 CM | DEPTH: 12" / 30.5 CM | WEIGHT: TBD | MAX. CAP.: 325 LBS / 121.3 KG | LEVEL: PERFORMANCE

[HTTP://WWW.LIQUIDLOGIC.COM](http://www.liquidlogic.com)

SWEETWATER 126 - HURRICANE AQUASPORTS

The Sweetwater 126 is the newest addition to the ever popular sit-on-top series from Hurricane. With a new hull design focused on maximizing stability in a seated, paddling or sight-casting position, the Sweetwater 126 delivers the performance, confidence and comfort necessary for a long day on the water. The Sweetwater 126 has impressive cruising speed and tracking, and slices through the water even in choppy conditions. We have taken this model to the next level of comfort and adjustability by installing a first Class Frame Seat featuring two height positions. The easily removable seat provides generous fit, uncompromised comfort, and excellent breathability. The Sweetwater 126 is one of the lightest kayaks in its class, yet it is still fully featured from bow to stern with a 10" bow hinge-hatch, groove tracks with side handles, a 5 1/2" day hatch behind the seat, paddle holder, water bottle holder and stern well bungee.

LENGTH: 12'6" / 381 CM | WIDTH: 33" / 84 CM | DEPTH: 12" / 30.5 CM | MAX. CAP.: 325 LBS / 121.3 KG | LEVEL: HIGH END

[HTTP://WWW.HURRICANEAQUASPORTS.COM](http://www.hurricaneaquasports.com)

SKIMMER 120 PROPEL - HURRICANE AQUASPORTS

After nine years of success on the water, the Propel Pedal Drive system has landed in a beautiful Skimmer 120 design. The industry's first lightweight pedal drive has arrived. As our competitors seem to develop heavier and heavier crafts, the Skimmer 120 Propel can actually be moved from your car-top to the water - and back. The Skimmer delivers as a recreational hands-free cruising kayak. The Propel Pedal Drive system creates on water opportunities for fishing, bird watching, nature photography, and exercise. With a sharp entry and flare in the bow for enhanced glide and smooth travel in choppy water conditions, the Skimmer 120 Propel cruises with efficiency and grace on the water.

LENGTH: 12'/366 CM | WIDTH: 31"/79 CM | DEPTH: 12"/30.5 CM | WEIGHT: FITTED HULL: 55 LBS/25 KG, FULLY RIGGED: 74 LBS/33.6 KG | MAX. CAP.: 350 LBS/158.8 KG | LEVEL: HIGH END

[HTTP://WWW.HURRICANEQUASPORTS.COM](http://www.hurricaneaquasports.com)

SKIMMER 116 WITH FIRST CLASS FRAME SEAT - HURRICANE AQUASPORTS

The popular Skimmer 116 has received an upgrade for the 2017 season. We have paired our lightest sit-on-top with Native's industry-leading First Class frame seat. Feel the Hurricane difference with unparalleled performance, weight and comfort. The First Class seat will keep your thighs feeling fresh after a full day on the water. The touring style hull and Trylon construction allow it to easily outpace other kayaks in its class. This new model is full featured from bow to stern with comfortable grab handles, 10-inch bow hinge hatch, 5 1/2-inch day hatch in front of the seat, a paddle holder, water bottle holder, and stern well bungee.

LENGTH: 11'6"/350 CM | WIDTH: 30.5"/77 CM | WEIGHT: 42 LBS/19.1 KG | LEVEL: HIGH END

[HTTP://WWW.HURRICANEQUASPORTS.COM](http://www.hurricaneaquasports.com)

MANTA RAY PROPEL 12 - LIQUID LOGIC

The Liquidlogic Manta Ray Propel is a dream pedal boat for hands-free fishing, bird watching, nature photography, simply exploring or looking for a relaxing way to enjoy being on the water. The proven Propel Pedal Drive is a highly acclaimed and revolutionary system that allows users to go further and explore more than ever before. Reverse capability enables users to easily slow down, stop, or back up in tight spots. Great for all ages and uses, the Manta Ray Propel is on the cutting edge of recreational kayak design. Features include: a sharp bow and stern that enhances glide for easy cruising, adjustable ergonomic seating for comfort on the water, sealed bow storage, padded grab handles, and transducer mounting cavity and plate under the hull.

LENGTH: 12.2"/371 CM | WIDTH: 33"/84 CM | DEPTH: 12"/30.5 CM | WEIGHT: FITTED HULL: 70 LBS/32 KG, FULLY RIGGED: 90 LBS/41 KG | MAX. CAP.: 325 LBS/147 KG | LEVEL: HIGH END

[HTTP://WWW.LIQUIDLOGIC.COM](http://www.liquidlogic.com)

PESCADOR 10 & 12 - PERCEPTION KAYAKS

The new Pescador incorporates the features paddlers demand to enhance their recreational and fishing experiences. The rear storage area accommodates popular fishing crate sizes and moulded-in rod holders provide a convenient location for quick staging. The new, oval-hinged hatch allows quick access to storage. The inclusion of two gear tracks and a Solo Mount recess allow recreational and angling paddlers to incorporate their favourite accessories quickly. A thick padded seating system with adjustable foot pegs and increased stability all contribute to making the Pescador the most comfortable kayak in the market at a great price.

SIZES: PESCADOR 10/PESCADOR 12 | LENGTH: 323/365 CM | WIDTH: 81/82 CM | WEIGHT: 26/29 KG | MAX. CAP.: 147/170 KG | LEVEL: PERFORMANCE

[HTTP://WWW.PERCEPTIONKAYAKS.COM](http://www.perceptionkayaks.com)

CRUISE 10 - JACKSON KAYAK

The little sister to the popular Cruise 12, this version is ideal for those who aren't paddling long distances or need a shorter, lighter boat to fit into smaller spaces. The Cruise 10 is a great option for anyone looking to get out on the water. With outstanding comfort and ease of access thanks to the unique Hi-Lo elite seat, you'll want to stay on the water all day! Deck storage space along with a round sealed front hatch and day hatch make it so you can take everything you might need for a picnic or all day outing. Interested in fishing? There are plenty of attachment points on the clean, uncluttered deck for adding rod holders and other gear, and it takes only minutes to customize your Cruise. Goes where other boats, even larger kayaks, can't reach!

CRUISE 12 - JACKSON KAYAK

Designed to be paddler friendly for multi-purpose use, the Cruise 12 is a great option for anyone simply looking to get out on the water. With outstanding comfort and ease of access thanks to the unique Hi-Lo elite seat, you'll want to stay on the water all day! Deck storage space along with a large sealed front hatch and day hatch make it so you can take everything you might need for a picnic, day outing, or even an overnighter. Interested in fishing? With multiple Ram mount attachment points, adding rod holders takes only minutes. Whatever your hopes may be with paddling, this boat works as a great starting point, and can grow to accommodate your needs.

[HTTP://WWW.JACKSONKAYAK.COM](http://www.jacksonkayak.com)

RIVIERA - JACKSON KAYAK

The Riviera is Jackson Kayak's blend of easy and FUN! Designed for its simplicity, the Riviera is a great option for those looking for an easy to use, easy to store, and comfortable sit-on-top. The high back on the seat gives you the comfort and support you need to enjoy your paddling adventures, and with very few moving parts, the Riviera is sure to provide fun for a lifetime. A small day hatch in the center provides dry storage for your lunch, sunblock, or other accessories you might need. The Riviera is a great "cottage boat," as well as the most popular rental boat on the market.

[HTTP://WWW.JACKSONKAYAK.COM](http://www.jacksonkayak.com)

SCAPA FIT - BIC KAYAKS

With its narrow, water-cutting bow section and clean hull shape, the Scapa is a boat that is designed for speed. The look matches the feel in every way but still retains the excellent stability and added safety and comfort you expect from a BIC Sit-On-Top. The Scapa is a true sport boat designed and built for fast cruising and physical conditioning. What's more, it's an excellent boat for learning sea kayaking. Even in difficult sea conditions, the Scapa holds its course thanks to its superb glide and reassuring stability. With its adjustable footrests it suits to all sizes of paddler and paddle positions. The molded baggage storage area behind the cockpit allows you to load up with diving tanks, as well as fishing or touring equipment.

LENGTH: 440 CM | WIDTH: 66 CM | WEIGHT: 23 KG | PADDLER WEIGHT RANGE: < 130 KG | LEVEL: ENTRY LEVEL

BORNEO - BIC KAYAKS

The Borneo is a family oriented double sit-on-top, with a number of innovative features, notably the possibility of solo use in equal paddling comfort to double. Its innovative shape and generous dimensions give it great glide whilst retaining reassuringly comfortable stability. It's also got a large rear section including a big flat storage area. There's innovation in the equipment and fittings too, like the integral wheels/rollers for easy transportation. And there's a moulded deck insert for storing the wheels/rollers while sailing. Clearly a future benchmark boat in its category.

NAIAD - KOKATAT

Kokatat's new women-specific life vest provides the ultimate in comfort and safety in one sharp package. Expertly styled for female recreational paddlers, this front entry, high-back vest features articulated, body-mapped flexible Gaia® PVC-free foam panels that are purposefully designed to accommodate a woman's natural curves. The soft texture of the durable 100D stretch polyester fabric, combined with 210 high-tenacity nylon in the vest's high-friction areas, makes the Naiad a perfect vest for everyday paddling, light touring and canoeing. Available in two colors, it features three zippered pockets and two cozy fleece-lined hand warmer pockets for chilly days on the water.

SIZES: (BUOYANCY LBS/OZ.): XS/S (16/00), M/L (16/00), XL/XXL (16/00) | **COLORS:** PURPLE, REEF

RONWE PANTS - HIKO SPORT

Basic pants designed for recreational paddling and touring. Loose cut allows free movement. Neoprene waist is adjustable with doublepull system and protects lower back from cold. The leg sleeves can be tightened with velcro. On the bottom the inner side of the sleeves is equipped with PU leather to minimize seeping of water in the pants. This polyamide-based fabric has a layered composition. It is characterized by its strength in tension and abrasion resistance provided by the density of its knitting. However, the material remains extremely pliable. To achieve the optimum level of breathability and water-tightness, the inner coating consists of three layers that are systematically applied to the fabric.

SIZES: S - XXL | **COLORS:** GREY

[HTTP://WWW.HIKOSPORT.COM](http://www.hikosport.com)

A top-down view of a bright red kayak floating in dark water. The kayak is oriented vertically, with its bow at the top. It features two large black circular hatches, a central cockpit with a black seat, and two smaller circular hatches near the stern. Black deck lines and bungee cords are visible across the deck. The water around the kayak is splashing, creating white foam and bubbles.

Kayak Fishing

In the past several years kayak fishing has become a huge sport. People can be seen fishing from kayaks on coastlines, rivers, bays and inlets around the world. Anglers enjoy the quiet access offered by a kayak; they also appreciate the ease of transporting a kayak as opposed to a larger rowboat or powerboat. Popularity has grown in part due to the ease of entry into the sport. Especially compared to powerboats, fishing kayaks can be purchased inexpensively and have few maintenance costs.

They can be stored in small spaces and launched quickly. Most designs offer great stability and ease of maneuverability. The new generation of twinhull (catamaran) kayaks recently introduced into the market is stable enough to enable both paddling and fishing in the standing position. Anglers don't have to remain in a seated position for hours on end, and increased visibility from the standing position means more fish.

There are also kayaks propelled by flippers or propellers and a foot mechanism. These kayaks offer hands-free fishing and all the benefits associated. Some kayak manufacturers offer special models for fishing that are designed and accessorized for this sport, including specially-designed hatches, built-in rod holders, catch bags and equipment mounts.

TITAN PROPEL 10.5 - NATIVE WATERCRAFT

THE TITAN PROPEL IS NOW AVAILABLE IN A 10.5 FOOT PLATFORM! The Titan model has proven itself to be a bass fishing kayak extraordinaire. The 10.5' Titan is more easily transported but offers many of the same features as the 13.5' model. All Titan models feature our Plastifoam technology, which adds flotation for safety and increased stiffness for performance. The Titan 10.5 offers unsurpassed stability, optimal for sight casting while providing plenty of leverage to reel in the catch. In addition, the boat features easy mounting of a Power-Pole Micro Anchor system, easy-to-reach horizontal rod storage with rod tip protection and elevated First Class Seating designed for comfortable transitions between standing and sitting. The Titan 10.5 can be purchased with our transom-style motor mount that will accept many off-the-shelf trolling motors for a power-assisted ride making this one truly versatile kayak fishing platform.

LISKA - JACKSON KAYAK

The modern version of our best-selling Cuda series, the Liska is well-suited to a wide variety of water types and fishing styles. Wider, more stable and updated with features that novice kayak anglers look for and experienced anglers demand. A wider hull creates a more stable standing platform than the original Cuda, meaning it is better suited to larger paddlers, beginners, and more gear. A comfortable, easily removable Hi-Lo Ergo seat system features hi/lo positioning and track-mounted seat system means infinite trimming and includes functional versatility for any fishing style. Track systems on the gunnels and large stern storage area add functionality. New, narrow hinging center hatch with molded-in tackle storage and fishfinder battery compartment allows convenient storage without cramping standing area. This boat is ideal for kayak anglers focused on flatwater conditions who want more portability.

MANTA RAY ANGLER 12 LT - NATIVE WATERCRAFT

The Manta Ray Angler 12 LT is the newest addition to Native's ever popular sit-on-top series. We have taken this model to the next level of comfort and adjustability with a 1st Class Frame Seat featuring two height positions. With a new hull design focused on maximizing stability in a seated, paddling or sight-casting position, the Manta Ray Angler 12 LT delivers the performance, confidence and comfort necessary for a long day on the water. The Manta Ray Angler 12 LT has impressive cruising speed and tracking, and its sharp bow lines slice through the water even in choppy conditions. The easily removable seat provides generous fit, uncompromised comfort, and excellent breathability. With proven Trylon ABS thermoformed construction, the Manta Ray Angler 12 LT is one of the lightest kayaks in its class, yet it is still fully featured from bow to stern.

KRAKEN 13.5 - JACKSON KAYAK

The Kraken 13.5 is an all-new option for paddlers looking to tackle big water. Based on The Kraken 15.5 platform, the 13.5 sheds length for more maneuverability but maintains the punch of its big brother. This kayak, just like the original, is designed for the world's most challenging paddling environments and is intended for the offshore and big lake kayak angler. A natural follow up to the first collaborative design between legendary kayak angler, Jim Sammons, and Jackson Kayak's design team led by Tony Lee, the Kraken 13.5 is built to accommodate those hitting the open water in a nimble, smaller footprint, but still capable of big water management. It's designed for punching through surf, handling rough offshore currents, swells, and beach landings, for those who desire ultimate performance and maneuverability while chasing big fish.

LENGTH: 13'3"/WIDTH: 30.5" | CAPACITY: 350 LBS | WEIGHT: 72-76 LBS | LEVEL: PERFORMANCE

SLAYER 12 XC - NATIVE WATERCRAFT

The Slayer XC 12 is the first boat of its kind designed to be comfortable floating rivers, stalking the flats, and paddling open water. The hull of the XC is designed towards cross conditions performance. A broad flatter hull not only allows river anglers to maneuver and control their boats in tighter conditions while sliding through shallow areas with a very shallow draft, but it also gives an incredibly stable standing platform for sight fishing. When it's time to cover some ground, a flip of a lever drops a directional skeg to allow the Slayer XC to track on a line to the next spot. The XC maintains a clean deck profile for anglers, but is carefully packed with fish ready features and advanced electronics capabilities for the biggest gear hounds. No cluttered deck, no tangled lines, just fishing.

LENGTH: 12'2"/371 CM | WIDTH: 36.5"/93 CM | DEPTH: 12"/30 CM | MAX. CAP.: 500 LBS/227 KG | LEVEL: PERFORMANCE

BIG TUNA - JACKSON KAYAK

The Big Tuna is one of our largest capacity kayaks and offers the ability to paddle either as a tandem or a solo fishing kayak. It has many different seating positions allowing for traditional tandem positions, 'face-time' positions and a good variety of solo positions making it a great platform for fishing of all kinds. Its JK stability, logical accessory positioning, rudder option, and speed make it a serious predator in all water types.

LENGTH: 14'2" | WIDTH: 35" | CAPACITY: 500 LBS | WEIGHT: 92-104 LBS | LEVEL: PERFORMANCE

[HTTP://WWW.JACKSONKAYAK.COM](http://www.jacksonkayak.com)

COOSA - JACKSON KAYAK

The Coosa is the answer to the evolving needs of the river and small water kayak fisherman. It's 11'2" length and rockered hull make it the most sporty and nimble of the Jackson fishing kayaks to best handle those smaller waters and especially wild rivers and creeks. It's a signature series design of one of the original "river bassers," Drew Gregory, who also founded the River Bassin Tournament Trail and is the host of the new adventure show, Hooked on Wild Waters.

LENGTH: 11'2" | WIDTH: 32" | CAPACITY: 350 LBS | WEIGHT: 65-70 LBS | LEVEL: PERFORMANCE

[HTTP://WWW.JACKSONKAYAK.COM](http://www.jacksonkayak.com)

KRAKEN 15.5 - JACKSON KAYAK

This kayak is designed for some of the world's most challenging paddling environments. Intended for the offshore and big lake kayak angler, this kayak marks the first collaborative design between legendary kayak angler, Jim Sammons and Jackson Kayak's design team led by Tony Lee. The end result is a boat shaped and built to accommodate those hitting the open water, those looking for speed, comfort, perfect trim and big water management. It's a paddler's fishing kayak! It's designed for punching through surf, handling rough offshore currents, swells, beach landings and those who desire ultimate performance when paddling long distances to get on big fish.

LENGTH: 15'7" | WIDTH: 30" | CAPACITY: 400 LBS | WEIGHT: 85-90 LBS | LEVEL: PERFORMANCE

[HTTP://WWW.JACKSONKAYAK.COM](http://www.jacksonkayak.com)

KILROY - JACKSON KAYAK

This sit-inside kayak design incorporates several other Jackson fishing features found throughout our sit-on-top kayaks. Features like the Hi/Lo seating in the comfortable Elite Seat 2.0, the fast Cuda 12 hull shape, enormous amounts of protected storage for fishing and hunting gear, protected rod storage in tubes along the sidewalls, interchangeable hard deck and optional soft deck options, and strategically located accessory mounting locations. It is also one of our most stable kayaks since the standing area is actually below the waterline, thus creating a very stable platform. The Kilroy is built with YakAttack tracks and comes standard with various RAM accessories. The Kilroy is tailored for the outdoorsman, offering features for the kayak angler, hunter, wildlife photographer, bird watcher, and anyone hoping to enjoy being on the water all while staying high and dry!

LENGTH: 12'4" | WIDTH: 31" | CAPACITY: 375 LBS | WEIGHT: 66-72 LBS | LEVEL: PERFORMANCE

[HTTP://WWW.JACKSONKAYAK.COM](http://www.jacksonkayak.com)

KILROY DT - JACKSON KAYAK

The Kilroy Delta Tango - "DT" represents a stellar tandem platform slightly wider and longer than the original Kilroy. The DT is all about versatility! Designed to excel as a tandem, it paddles great as a solo too! The JK Elite Seats with a Sealine storage pouch can be placed in multiple positions, or even removed so you can turn the tandem DT into solo kayak. Trimmable adjustments let you dial in a sweet spot for a smooth day on the water. The Kilroy DT is tailored for any outdoorsman; it offers features for the kayak fisherman, hunter, wildlife photographer, birder, etc. The DT includes standard, full cockpit length tracks to accommodate accessories in any seating position - tandem, face-time tandem, or solo. Looking for versatility on the water? You will find it in the Kilroy DT.

LENGTH: 14'8" | WIDTH: 33" | CAPACITY: 500 LBS | WEIGHT: 96-108 LBS | LEVEL: PERFORMANCE

[HTTP://WWW.JACKSONKAYAK.COM](http://www.jacksonkayak.com)

BIG RIG - JACKSON KAYAK

The name of this kayak, Big Rig, sums up exactly what it is intended to do and for whom it was intended to do it for - big stability for the many anglers that deserve a model to help them feel comfortable in a smaller watercraft, and even allow them to stand and fish from one! If this kayak was much wider we might have to call it a boat, but our design team kept it at just the right specs to allow the Big Rig to maintain the performance of a kayak with the stability of a boat. They crafted the hull for reliable, efficient performance in most kayak fishing situations - lakes, ponds, rivers, inshore saltwater bays or marshes - so no matter where you go, the Big Rig is ready to make you feel comfortable!

LENGTH: 13'2" | WIDTH: 38" | CAPACITY: 400 LBS | WEIGHT: 93-99 LBS | LEVEL: PERFORMANCE

[HTTP://WWW.JACKSONKAYAK.COM](http://www.jacksonkayak.com)

CUDA 12 - JACKSON KAYAK

The Cuda 12 was designed for anglers who enjoy fishing many different water types – rivers, lakes, ponds, ocean – but can only purchase one kayak. The popular 12-foot length makes it easy to store and transport off the water, yet quick and maneuverable enough for any on-water situation. The deck sports all the comforts and angler friendly features that fishermen have come to love about the Jackson brand.

LENGTH: 12'7" | WIDTH: 31" | CAPACITY: 350 LBS | WEIGHT: 70-75 LBS | LEVEL: PERFORMANCE

[HTTP://WWW.JACKSONKAYAK.COM](http://www.jacksonkayak.com)

ALFONSO - GUMOTEX/INNOVA

The ALFONSO is a three-person boat designed specifically for anglers that can be also used as a dinghy with or without an outboard motor. The ALFONSO is suitable for sheltered waters, such as lakes, fishponds and large calm rivers. It is a very stable boat that moves effortlessly with an optional pair of oars or with a crew of two with canoe paddles. The optional motor mount is fitted with two rod holders and can accommodate a short shaft outboard up to 3.5 hp = 2.6 KW. ALFONSO is equipped with many practical holders for attaching equipment and baggage.

LENGTH: 430 CM | WIDTH: 125 CM | CAPACITY: 410 KG | WEIGHT: 34.5 KG | LEVEL: PERFORMANCE

[HTTP://WWW.GUMOTEXBOATS.COM](http://www.gumotexboats.com)

STRIKE - ISLANDER KAYAKS

The Strike Angler comes ready to go fishing. Its unique, pontoon-style hull offers unmatched stability for anglers to stand up with ease. Featuring flush mount and Scotty Rod Holder as standard.

LENGTH: 406 CM | WIDTH: 81 CM | CAPACITY: 181 KG | WEIGHT: 34 KG | LEVEL: PERFORMANCE

[HTTP://WWW.ISLANDERKAYAKS.COM](http://www.islanderkayaks.com)

RYTMO ANGLER - RTM FISHING

The RYTMO ANGLER is a streamlined, performance kayak allowing the paddler fast access to his favourite fishing areas. Long and stable with several storage spaces: front hatch with removable basin, two central storage areas - one rectangular and one round - and rear storage area for a case. The RYTMO ANGLER is pre-fitted with cabling to allow the optional installation of a rudder system including foot braces. The RYTMO ANGLER is available with engine TORQUEEDO ULTRALIGHT 403. FAST - STABLE - STORAGE AREAS - SLOW DRIFT.

LENGTH: 15'1/460 CM | WIDTH: 28.3"/72 CM | WEIGHT: 75 LBS/34 KG | MAX. CAP.: 396 LBS/180 KG | LEVEL: PERFORMANCE

[HTTP://WWW.RTM-FISHING.COM](http://www.rtm-fishing.com)

HALIBUT - GUMOTEX/INNOVA

The HALIBUT is an inflatable fishing kayak, offering a new dimension in the sport of angling. Thanks to its compact dimensions when packed, it is possible to enjoy kayak fishing even in remote locations. Halibut is very stable, responsive and fast when moving on the water. The inflatable kayak floor is fitted with a marine plywood deck on its top, enabling safe standing. A raised adjustable seat makes for easy embarking and disembarking and also provides comfort while waiting for a catch.

LENGTH: 375 CM | WIDTH: 96 CM | CAPACITY: 200 KG | WEIGHT: 21 KG | LEVEL: PERFORMANCE

[HTTP://WWW.GUMOTEXBOATS.COM](http://www.gumotexboats.com)

ENDURO 12 ANGLER - RIOT KAYAKS

Folks in the fishing industry asked for more storage capacity, flotation, and sealed bulkheads front and back... you've got them in this fishing trip dream machine! At only 12' long, with two sealed compartments for fishing and camping gear, and a large cockpit, you can get ready for the most exciting fishing experience of your life. You'll silently access remote marshes and otherwise unreachable eddies while being completely at ease. The Enduro 12 Angler is a big guys fishing kayak that is sure to bring in the Halibut.

LENGTH: 11'9"/357 CM | WIDTH: 27.2"/69 CM | WEIGHT: 60.2 LBS/27.3 KG | MAX. CAPACITY: 350 LB/159 KG | COCKPIT SIZE: 38" X 20"/97 X 51 CM | LEVEL: PERFORMANCE

[HTTP://WWW.RIOTKAYAKS.COM](http://www.riotkayaks.com)

ENDURO 12 ANGLER CAMO - RIOT KAYAKS

Designed for fishing minded kayakers and equipped with features made for anglers, the Camo-Angler version of the Escape 12 is a great combination of stability and performance with an excellent load capacity so you can stay well provisioned and properly organized. Perfect for all fishing environments. You can deploy the rudder at will, or use one of the five rod holders positioned throughout the kayak. Don't forget our custom anchor line on the port side! What a great price for this special camo fishing kayak.

LENGTH: 12'/365 CM | WIDTH: 30.7"/78 CM | WEIGHT: 68.3 LBS/31 KG | MAX. CAPACITY: 300 LB/136 KG | LEVEL: PERFORMANCE

BOATS ENTRY LEVEL

ENTRY-LEVEL DESIGNS ALLOW THE KAYAK ANGLER A COMFORTABLE PLACE TO STAND AND SPACE FOR STORAGE.

MIRAGE COMPASS - HOBIE

Set your course with the new Mirage Compass, the newest addition to Hobie's fleet of award-winning kayaks. Simplicity defined, its time-tested MirageDrive pedal system with Glide Technology moves you smoothly through the water. Outfitted with a breathable mesh seat, the Compass offers maximum stability and an oversized cockpit and flat deck for standing. A sharp turning radius makes it nimble in tight quarters, yet able to speed over open water in a stealthy fashion. Fishing features include molded-in rod holders, H-Track accessory mounts and a transducer cavity ready for you to install a Lowrance® fishfinder.

LENGTH: 3.66 M | WIDTH: .86 M | WEIGHT: 31 KG | MAX. CAP.: 181 KG | LEVEL: ENTRY LEVEL

SENTINEL 100X ANGLER - PELICAN

Enjoy fishing even more with the new Pelican SENTINEL 100X ANGLER. Built on a twin-arched, multi-chine hull, this sit-on-top fishing kayak is designed for stability and performance. The SENTINEL 100X ANGLER features molded footrests, an ERGOFIT padded backrest with seat cushion for increased comfort, flush mount and swivel rod holders, a tank well with bungees to store your gear and carrying handles for easy transport. Made of RAM-X™ impact-resistant material, it is built to last. So take your Pelican SENTINEL 100X ANGLER on your fishing adventures and create memorable stories worth sharing with everyone.

LENGTH: 10'0/305 CM | WIDTH: 30"/76 CM | WEIGHT: 45 LBS/20 KGS | MAX. CAP.: 300 LBS/136 KG | LEVEL: ENTRY LEVEL

[HTTP://WWW.PELICANSPORT.COM](http://www.pelicansport.com)

JAVA FISHING - BIC KAYAKS

The Java Fishing gives you an outstanding compromise between glide and stability. At more than four-metres long, combining an innovative hull and a neat design, it also gives you equally high quality features: a wide, flat rear storage area for carrying sizeable loads, integral wheels/rollers for easy transportation, plus a moulded deck insert for storing the wheels/rollers while sailing, all conceived to help you get in and out of the water with the minimum of effort. It also includes excellent and comprehensive extra equipment enabling you to customize your boat for fishing trips and excursions.

LENGTH: 13'5/4.10 M | WIDTH: 28"/71 M | WEIGHT: 55 LBS/25 KG | MAX. CAP.: 300 LBS/150 KG / 1 ADULT | LEVEL: ENTRY LEVEL

[HTTP://WWW.BICSPORTKAYAKS.COM](http://www.bicsportkayaks.com)

SKIPPER - JACKSON KAYAK

Kids keep asking, "How come grown ups get all the cool stuff!?" Well, young anglers, we've listened! We made a specific model for those energetic lighter weight anglers - the Skipper. The hull was designed with the youth fisherman in mind, making it narrow enough so they can easily keep up with adults without getting too worn out or frustrated. Our kids want to use what mom or dad use, which is why we've made the Skipper with standard Jackson Kayak features. The Skipper also offers a stable enough platform for standing while casting just like our larger, adult-focused versions. Recommended for anglers in the 50 to 125 lb range, which includes many teens, college students, women and some adult men looking for a smaller, nimble craft to take on some wild waters that only a lightweight kayak can easily access!

LENGTH: 9'10 | WIDTH: 28" | WEIGHT: 46-49 LBS | MAX. CAP.: 155 LBS | LEVEL: ENTRY LEVEL

[HTTP://WWW.JACKSONKAYAK.COM](http://www.jacksonkayak.com)

CRUISE 10 ANGLER - JACKSON KAYAK

The Jackson Kayak Cruise 10 Angler kayak fills a variety of niches. It is a great price-point kayak for someone looking to get into kayak fishing without all the bells and whistles, but has enough features to make your time on the water enjoyable. It is a great platform for an avid angler looking for a small, versatile kayak with a minimalistic approach. The Cruise 10 Angler is perfect for fishing smaller rivers and creeks, or even your neighborhood pond. It is also a great choice for college kayak anglers or anyone who has limited storage space - dorm room, condo or apartment - or issues transporting a larger kayak. The Cruise 10 Angler is also suited for anglers around the 215 lbs mark or under. Many smaller anglers still feel comfortable standing to fish out of their Cruise.

LENGTH: 10'3" | WIDTH: 32.5" | WEIGHT: 53-58 LBS | MAX. CAP.: 300 LBS/136 KG | LEVEL: ENTRY LEVEL

[HTTP://WWW.JACKSONKAYAK.COM](http://www.jacksonkayak.com)

CRUISE 12 ANGLER - JACKSON KAYAK

The Jackson Kayak Cruise 12 Angler, similar to its little brother the Cruise 10 Angler, fills a variety of niches. The 12 is better suited for anglers who want/need more speed and better tracking than the 10 ft version offers. It is also better suited for anglers who need a higher weight capacity. The Cruise 12 Angler is simply a great price point kayak for someone looking to get into kayak fishing without all the bells and whistles, but still wants enough features to make time on the water enjoyable. It is a great platform for an avid angler looking for a small, versatile kayak with a minimalistic approach. The Cruise Angler 12 is perfect for fishing small to large rivers with small rapids but tracks well and carries enough speed for a jaunt on a bigger lake or inshore saltwater.

LENGTH: 12'3" | WIDTH: 31.5" | WEIGHT: 65-69 LBS | MAX. CAP.: 375 LBS | LEVEL: ENTRY LEVEL

LEVIATHAN - KOKATAT

The Leviathan is the ultimate kayak fishing life vest, with 14 pockets and multiple fixture options allowing anglers to carry a selection of lures, tools and gear wherever they choose. This high performance recreational life vest features PVC-free, body-mapped Gaia® foam panels designed to contour precisely around an angler's torso for a secure and comfortable fit. Ultra-light, quick-drying Ariaprene™ (both non-toxic and hypoallergenic) mesh back and shoulders complements the high-back seats. The Leviathan uses 210D high tenacity, rip-stop nylon designed to withstand the demands fishing equipment can put on a vest. Fleece-lined hand warmer pockets are a bonus on chilly days. Certifications: ISO (European Union), US Coast Guard, Transport Canada.

SIZES: XS/S, M/L, XL/XXL | **COLORS:** MENS: ORANGE, OLIVE | WOMEN'S COLOR: GRAY

[HTTP://WWW.KOKATAT.COM](http://www.kokatat.com)

HYDRO - PALM EQUIPMENT

A versatile front-entry personal floatation device with a classic cut, loaded with storage, including a rear pocket – great for fishing or canoeing.

SIZES: XS/S - XL/XXL

KAAKI LIFE VEST - AQUADESIGN

The KAAKI buoyancy aid is designed with fishing activities in mind, either in rivers or along the seashores. A very comfortable life vest with neoprene shoulders and 5 well placed pockets on the front of the vest for maximum storage space. Features: 4 front pockets with zipper / Closure with YKK front zipper / Adjustable shoulder and side straps / Adjustable waist strap with quick release buckle / Reflective tape on shoulders.

[HTTP://WWW.AQUADESIGN.EU](http://www.aquadesign.eu)

CHINOOK - NRS

The Chinook is more than a safety aid. With seven pockets for all your tackle, attachment points for your tools and an integrated rod holder, it's gear that makes you more effective on the water. Kayak anglers attest: No other fishing life jacket can match the comfort and utility it delivers. The roomy front-entry design with eight adjustment points lets you customize the fit for comfort and security. US Coast Guard and CE ISO approved.

SIZES: XS/M, L/XL, XXL

[HTTP://WWW.NRS.COM](http://www.nrs.com)

RANGER II - NOOKIE

Low visual impact buoyancy aid which is ideal for kayak fishing/canoeing/open boating. Multiple stretchy neoprene front & back pockets are essential if you need to keep your bits'n'pieces separate & organised. Neoprene expandable pockets offer space galore but will not hinder self rescue should you need. A large hydration pouch on the back will carry over 1 liter packs.

OLIVE GREEN & GREY | **SIZES** SM, LXL, XXL

Canoeing

Canoes involve the paddler kneeling or sitting in a raised position and using a paddle with one blade. Canoes can be paddled on flatwater or whitewater, though depending on the skill of the paddler, their use may be limited by the open nature of the craft. Due to the single-bladed paddle, canoeing can be more difficult to learn than kayaking, yet it offers a unique grace and appeal that has continued to draw people to the sport.

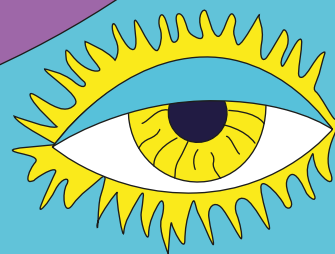

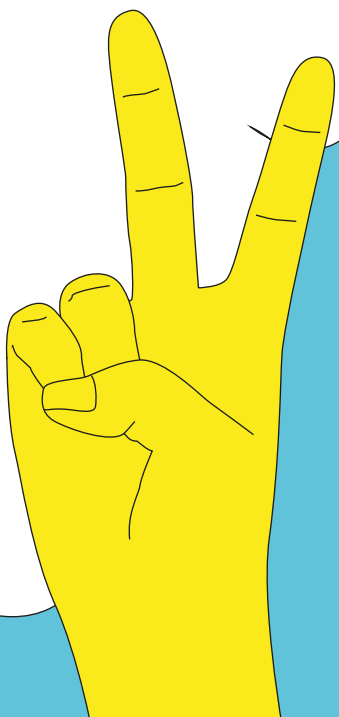

Canoes can be used for outings ranging from a few hours to many weeks, and boat styles and designs reflect the intended use. Whitewater canoes are shorter and tend to have more rocker, while tripping canoes are longer, with less rise from end to end. Tripping canoes also have maximum space for storage, allowing the transport of food and gear for extended trips. Whitewater canoes are designed for maximum maneuverability and a higher water line to keep the boat drier while paddling through whitewater rapids. Canoes of both varieties come in solo and tandem models.

BROADLAND 15- DURACORE PLUS - SILVERBIRCH CANOES

Drawing on the classic lines and proven design characteristics of a traditional Prospector canoe, the Broadland is a true all rounder and a real workhorse. We have optimized the chine, camber, and sidewall profile from the original Prospector design to increase both primary and secondary stability - making the Broadland a confidence inspiring canoe to paddle. A carefully considered rocker profile, and a symmetrical hull form ensure the Broadland 15 and 16 paddle well either tandem or solo. Now made to last with Duracore Plus - a tough, high-density outer skin, a closed cell foam core, and a medium density inside skin to help dissipate the energy from impacts. Duracore is made with a tough, UV stable, and abrasion resistant outer skin, and is easily repairable at home.

AFON - VENTURE CANOES

Afon is the Welsh translation of 'Avon,' which itself is derived from the ancient British word for 'river.' This simple word in itself says everything about this canoe. Rivers can be tranquil, or they can be wild, and the Afon is a canoe in which you can enjoy either variety, as well as everything between, whether paddled solo or tandem. High volume ends, a flared bow, a subtle V-hull, and paddle cutaways all produce a canoe that is responsive and an utter joy to paddle, whilst continuous hull curvature gives a progressive feel, and high secondary stability. The Afon is available in two specs: Whitewater; featuring traditional extruded gunwales, which can be cut lower to suit smaller, lighter paddlers, or Cruiser; with fully moulded-in end decks and gunwales, with recessed lacing and seat and handle fastenings for a uniquely tougher approach.

LENGTH: 450 CM | WIDTH: 90 CM | WEIGHT: TBD | VOLUME: TBD | LEVEL: PERFORMANCE

[HTTP://WWW.VENTURECANOES.COM](http://www.venturecanoes.com)

BROADLAND 16 DURACORE PLUS - SILVERBIRCH CANOES

Drawing on the classic lines and proven design characteristics of a traditional Prospector canoe, the Broadland is a true all rounder and a real workhorse. We have optimized the chine, camber, and sidewall profile from the original Prospector design to increase both primary and secondary stability – making the Broadland a confidence-inspiring canoe to paddle. A carefully considered rocker profile, and a symmetrical hull form ensure the Broadland 15 and 16 paddle well either tandem or solo. Now made to last with Duracore—a tough, high-density outer skin, a closed cell foam core, and a medium density inside skin to help dissipate the energy from impacts. Duracore is made with a tough, UV stable, and abrasion resistant outer skin, and is easily repairable at home.

[HTTP://WWW.SILVERBIRCHCANOES.COM](http://www.silverbirchcanoes.com)

BROADLAND 16 HL - SILVERBIRCH CANOES

For those who push their boats hard with tripping loads in exposed open water or in advanced white water, our Hi Line boats add additional depth to our already versatile Broadland range. Our standard Broadland range offers enthusiasts a fine balance of Prospector versatility, traditional virtues, 21st century handling and workhorse capabilities - all of which are retained in our Hi-Line range. If you paddle tandem with expedition gear in big waves or like to drive your canoe through the biggest features, the additional freeboard makes this range a little more forgiving. Duralight Construction means stiffer, lighter, and more durable! The noticeable weight saving over our Duracore laminate puts many models made with Duralite into close competition with more expensive canoes produced with composite or royalex construction methods.

LENGTH: 4865 MM/15'11" | WIDTH: 934 MM/36.75" | WEIGHT: ASH GUNWALES – 35 KG/77 LB, VINYL GUNWALES – 37 KG/82 LB | LEVEL: PERFORMANCE | SIZES: BROADLAND 15 HL, BROADLAND 16, BROADLAND 16 HL

[HTTP://WWW.SILVERBIRCHCANOES.COM](http://www.silverbirchcanoes.com)

MALECITE - LETTMANN

The Malecite 490 is a versatile open canoe with many uses. Its well-thoughtout design assists in easy turning on small rivers or lakes. Due to its slight lines, the Malecite is easy to paddle and offers a high initial and final stability, excellent for families. The high capacity makes it possible to use this boat with three adults and their gear.

LENGTH: 490 CM | WIDTH: 90 CM | VOLUME: 900 L | WEIGHT: DCS 35 KG, LCS 28 KG | MAX. CAP.: 340 KG | LEVEL: HIGH END | SIZES: L 525 CM X W 93 CM, L 550 CM X W 95 CM

PROSPECTOR 155 WHITEWATER CLX - VENTURE CANOES

The Venture Prospector 155 is a traditional style and highly popular canoe that's ideal for whitewater enthusiasts or wilderness tripping, both solo and tandem. In CoreLite X, the Prospector 155 comes alive. You get all the same benefits as the standard CoreLite, as well as an impressively stiff hull that gives a supremely crisp performance, a weight reduction of approximately 3kg which means you can easily throw the boat around on and off the water, and increased durability meaning that if you take the last sentence too literally it won't end in tears. Available in both standard Cruiser Spec, or Whitewater Spec with Deluxe Deep Dish Yoke, Laced-In Airbags, Rope End Grabs and Premium Wooden Handles.

LENGTH: 464 CM | WIDTH: 91 CM | WEIGHT: 34 KG | DEPTH: 36 CM | MAX. CAP.: 370 KG | LEVEL: HIGH END | SIZES: 155, 165 | COLORS: DARK GREEN, OCEAN TURQUOISE, MELLOW YELLOW, BURNT ORANGE

CANYAK-BEOTHUK - GATZ KANUS

GATZ KANUS' newest boat features a unique design of a very stable boat due to the general hull design with extraordinarily good performance. The CANYAK can be paddled in style with either kayak paddles or canoe paddles or a mix of both paddle types. Due to the new design no paddle type or mix looks out of place. Performance is excellent either way and various seat options allow any paddler to paddle comfortably.

LENGTH: 4.55 M | WIDTH: 1M | WEIGHT: FROM 19 KG | PADDLER WEIGHT RANGE: 50-120 KG | MAX. CAP.: 2 ADULTS + GEAR | LEVEL: HIGH END

[HTTP://WWW.GATZ-KANUS.DE](http://www.gatz-kanus.de)

ATHABASCA 470 - GATZ KANUS

The ATHABASCA 470 is based on the well-loved hull of the Mohawk 470. With the standard wooden trim the Athabasca is one of the most beautiful canoes around. It comes with two woven seats and balanced characteristics – a very nice canoe! Various seat options are at your choice. Different size available in various models.

LENGTH: 470CM | WIDTH: 90CM | WEIGHT: FROM 19KG - MAX. CAP.: 360KG | LEVEL: HIGH END

[HTTP://WWW.GATZ-KANUS.DE](http://www.gatz-kanus.de)

ONTARIO - GATZ KANUS

A team canoe with seven seats for up to 10 adults for safe and fast paddling. Despite its size, it is very easy to handle. It just needs one good paddler in the stern. The Ontario is one of the bestselling team canoes in the world. Its usage is in clubs, schools, and youth groups. There is sufficient space to stow equipment for extended trips with this fascinating canoe. Different size available: 6,50 m and 5,80 m team canoe.

LENGTH: 700 CM | WIDTH: 130 CM | WEIGHT: 110 KG | PADDLER WEIGHT RANGE: 0-100 KG | MAX. - CAP.: 1200 KG | LEVEL: PERFORMANCE

[HTTP://WWW.GATZ-KANUS.DE](http://www.gatz-kanus.de)

MOOD - ARMERLITE

The first thing you'll notice is that the Mood has a lot of glide. The boat is very responsive, and its secondary stability is outstanding, which fosters a high degree of confidence and guarantees a dry run. The beginner will feel comfortable in just a few minutes; advanced paddlers will enjoy challenging moves. The Mood will be delivered ready to paddle from factory with airbags, foam saddle, and fully outfitted. Available in black, pearl, ultra red and melone.

LENGTH: 365 CM | WIDTH: 75 CM | WEIGHT: 23 KG | MAX. CAP.: 120 KG | LEVEL: HIGH END

[HTTP://WWW.ARMERLITE.COM](http://www.armerlite.com)

CANADIER C4 - ROTO ATTIVO

The CANADIER C4 is a classic open boat made of long lasting one or three-layer polyethylene with PE seats for more security and durability. Its lightweight properties make it easy for paddlers to carry. Stable in the water, it is spacious and easy to manoeuvre, with plenty of storage. There is no better canoe for a paddling trip through the nature.

LENGTH: 525 CM | WIDTH: 93.5 CM | WEIGHT: 49 KG | LEVEL: PERFORMANCE

[HTTP://WWW.ROTOATTIVO.EU](http://www.rototattivo.eu)

BROADLAND 15 HL - SILVERBIRCH CANOES

For those who push their boats hard with tripping loads in exposed open water or in advanced white water, our Hi Line boats add additional depth to our already versatile Broadland range. Our standard Broadland range offers enthusiasts a fine balance of Prospector versatility, traditional virtues, 21st century handling and workhorse capabilities - all of which are retained in our Hi-Line range. If you paddle tandem with expedition gear in big waves or like to drive your canoe through the biggest features, the additional freeboard makes this range a little more forgiving. Duralight Construction means stiffer, lighter, and more durable! The noticeable weight saving over our Duracore laminate puts many models made with Duralite into close competition with more expensive canoes produced with composite or royalux construction methods.

LENGTH: 4565 MM/14'11" | WIDTH: 900 MM/36" | WEIGHT: ASH GUNWALES - 33 KG/73 LB, VINYL GUNWALES - 35 KG/77 LB | LEVEL: PERFORMANCE | SIZES: BROADLAND 15 HL, BROADLAND 16, BROADLAND 16 HL

CLASSIC 15 - OSAGIAN

The Canoe that made Osagian famous. The Classic is the best all-around choice for entry- and intermediate- level canoeists in a wide variety of applications. Honest, true-tracking, almost unconscious performance - day-in, day-out, season-in, season-out - is what sets the Classic apart. Over the years we've made a few refinements, including a side sponson model for extra stability. But the real beauty of an Osagian Classic Canoe is found in something that hasn't changed a bit: The rugged integrity of our meticulous, hands-on craftsmanship.

LENGTH: 4.58 M | WIDTH: 91 CM | WEIGHT: 30 KG | MAX. CAP.: 264 KG |
LEVEL: ENTRY LEVEL | SIZES: 15 FT, 17 FT, 18 FT

[HTTP://WWW.OSAGIAN.COM](http://www.osagian.com)

MISSOURIAN 16 - OSAGIAN

Created by - and for - hunters and fisherman, this rugged performer comes standard with integrated hydrodynamic side sponsons to deliver remarkable stability along with a 700-pound capacity (17ft Missourian: 1000 pound!). The Missourian's square stern accommodates motors up to 5hp.

LENGTH: 4.9 M | WIDTH: 91 CM | WEIGHT: 30 KG | MAX. CAP.: 320 KG | LEVEL: ENTRY LEVEL
| SIZES: 16 FT, 17 FT

[HTTP://WWW.OSAGIAN.COM](http://www.osagian.com)

BROOKS 16 - ARMERLITE

A classic all-around canoe; stable and spacious, manufactured with ash gunnels and cane seats or vinyl and webbed seats in super tough Armerlite. An excellent choice for family trips. Available with two or three seats in black, pearl, ultra red or melone.

LENGTH: 488 CM | WIDTH: 92 CM | WEIGHT: 28 KG | MAX. CAP.: 450 KG | LEVEL: HIGH END

[HTTP://WWW.ARMERLITE.COM](http://www.armerlite.com)

SKYLINER 17 - ARMERLITE

The first thing you'll notice is that the Mood has a lot of glide. The boat is very responsive, and its secondary stability is outstanding, which fosters a high degree of confidence and guarantees a dry run. The beginner will feel comfortable in just a few minutes; advanced paddlers will enjoy challenging moves. The Mood will be delivered ready to paddle from factory with airbags, foam saddle, and fully outfitted. Available in black, pearl, ultra red and melone.

LENGTH: 365 CM | WIDTH: 75 CM | WEIGHT: 23 KG | MAX. CAP.: 120 KG | LEVEL: HIGH END

[HTTP://WWW.ARMERLITE.COM](http://www.armerlite.com)

CANOE - ONAKCANOES

Instead of designing around the limits of existing materials, we developed our own: it is durable and flexible enough to be folded and unfolded multiple thousands of times. Our patent pending Honeycomb - Curv™ Polypropylene material became the backbone of our innovation. Aside from being extremely tough and fully recyclable, it allowed us to design a stiff canoe almost entirely in one piece, with very few other parts required. Honeycomb air cells give it so much additional buoyancy that it even stays afloat when entirely flooded with water. ONAK's case on wheels unfolds to a very capable canoe in less than 10 minutes. Thanks to important material innovations, it is suited for urban adventures as well as the most sublime and wild outdoors.

LENGTH: 465 CM | WIDTH: 85 CM | WEIGHT: 17 KG | MAX. CAP.: 250 G |
LEVEL: PERFORMANCE

[HTTP://WWW.ONAKCANOES.COM](http://www.onakcanoes.com)

CANADIA - DAG

Inspired by the old wooden boats, but made from durable, long lasting plastic, the Canadia promotes safe and comfortable paddling. Two children can sit on the central seat and it is the only unsinkable canoe in its category. It can carry 4 people and their equipment. Ideal for family days out.

LENGTH: 15.4/470 CM | WIDTH: 36.6"/93 CM | WEIGHT: 88 LBS/40 KG
LEVEL: ENTRY LEVEL

PADDLES

A VARIETY OF DESIGNS AND MATERIALS MEAN PADDLES TO SUIT THE NEEDS OF MOST CANOEISTS.

BLACK PEARL II - BENDING BRANCHES

Inspired by the Black Pearl, the Black Pearl II is our lightest canoe paddle. Made for expert canoeists with a 100% carbon shaft and a carbon blade, the Black Pearl II is lightweight, dependent and durable. The 11° bend and Contoured Palm Grip make this paddle smooth and efficient for long days on the water. The Black Pearl II is available in sizes from 48 to 56 inches.

LENGTH: 48 IN, 50 IN, 52 IN, 54 IN, 56 IN | WEIGHT: 16 OZ | SHAFT MATERIAL: 100 % CARBON | BLADE MATERIAL: FOAM CORE CARBON | LEVEL: HIGH END | BLADE SIZE: 8.25" X 18.75" (105 IN2)

[HTTP://WWW.BENDINGBRANCHES.COM](http://www.bendingbranches.com)

HIGH END

ZIWA - PROFIPLAST

The Whiskey Fiberglass features all new, vibrant designs with compression-molded fiberglass blades and a T-700 carbon shaft. This paddle is ideal for high-angle paddlers that need lightweight performance. While weighing just 26 oz., the Whiskey Fiberglass will deliver unforgettable ultra-lightweight performance for an effortless and smooth paddling stroke.

LENGTH: 200 CM, 205 CM, 210 CM, 215 CM, 220 CM, 225 CM, 230 CM, 235 CM, 240 CM | WEIGHT: 26 OZ | SHAFT MATERIAL: T-700 CARBON | BLADE MATERIAL: COMPRESSION MOLDED FIBERGLASS | LEVEL: HIGH END | BLADE SIZE: 7.8" X 16" (95 IN2) | FEATHER: INFINITE

HIGH END

INDIHANDY - LAHNAKOSKI

A handy, well-balanced paddle is an important tool that must be made with care and attention. It is the most important thing a canoeist has. New for 2018, the Indihandy is a fully adjustable all-round paddle. The composite shaft can easily and quickly be adjusted to fit multiple users. Thanks to the tri-oval inner tube, the handle stays stable both when adjusting and using. The blade and handle are made of weather-proof polypropylene. Part of the shaft is covered with heat-shrink tubing for better grip and protection. Handy to store and transport.

LENGTH: 120-160 CM | WEIGHT: 860 G | BLADE SIZE: 470 MM | MATERIAL: COMPOSITE | LEVEL: HIGH END

HIGH END

BEAVERTAIL - FREEFALL

Designed to be ultra-lightweight and strong, we have produced the Beavertail Paddle for racers and long distance paddlers with straight shaft from Oak and Sapella, for strength and flexibility. This paddle has a scroll trip and tapering shaft to a thin blade. This is a very popular choice for paddlers who want traditional paddles in a lightweight package that performs.

LENGTH: 50", 52", 54", 56", 60", 68" | **MATERIAL:** LAMINATED WOOD: OAK AND SApELLA | **LEVEL:** HIGH END

[HTTP://WWW.FREEFALLPADDLES.COM](http://www.freefallpaddles.com)

HIGH END

BLACK FEATHER - FREEFALL

We are very proud of this paddle. The Black Feather is a modern design on the traditional Canadian style long paddles. The blade is super slim with a short shaft and has been designed for paddling the boat when it is right over on its edge in the Canadian Style. The blade is long and thin to give the maximum power when paddling a boat on its side in this unique style of paddling. The shaft is contoured for ease of use and paddler comfort giving long predictable strokes on calm deepwater lakes and rivers.

LENGTH: 50", 52", 54", 56", 60", 68" | **MATERIAL:** LAMINATED WOOD: OAK AND SApELLA | **LEVEL:** HIGH END

BOATS FOR WORLD ADVENTURES

www.gumotexboats.com

Collapsible

Inflatable and foldable kayaks provide paddlers with an ease of transport that few other boats can offer. Inflatables and foldables can be packed into compact cars, carried on pack trips, and carried on airplanes without extra charge. They come in all shapes and sizes and are built for a wide variety of uses.

Inflatable boats are found on many beginner and intermediate stretches of river, allowing paddlers with little or no experience to enjoy the fun and excitement of whitewater. They are durable, maneuverable, and incredibly stable. Specialized inflatables are light enough and pack small enough to be carried on backpacking trips, enabling enthusiasts to alternately hike and float through wilderness areas. Inflatables are often made from Hypalon or Denier nylon with a urethane coating. They come in solo and tandem models, with speed and agility varying greatly by design.

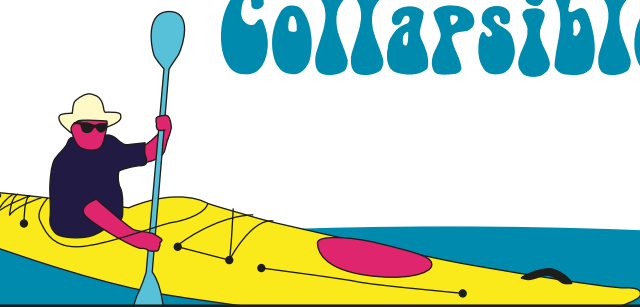

Foldable kayaks generally consist of an aluminum or plastic frame with a synthetic skin stretched over it. They can be used in a wide variety of situations and stand up to tough conditions. They are used by recreational paddlers, expedition kayakers, and the military. Constructed well, they are very seaworthy and because of their transportability they can be carried just about anywhere.

TRAK 2.0 - TRAK KAYAKS

TRAK 2.0 is the Ultimate Touring Kayak. How do we know? Well, we asked the paddling community what they think would make the ultimate touring kayak and we got answers: durability, versatility, quality materials and of course, light enough to carry on planes, trains and automobiles in one awesome bag. Includes: TRAK 2.0 Kayak, Wheeled Travel Pack, Gear Floatation Bag Set, Custom Spray Skirt, 5 Year Warranty.

[HTTP://WWW.TRACKAYAKS.COM](http://www.trakkayaks.com)

FOLD 4.2 - NORTIK

The Nortik Fold 4.2 is a "folding kayak" in the true sense of the word. It is made of innovative, never-seen before material in the field of folding kayaks with an elegant appearance. The Fold 4.2 consists of a single solid plate that can easily be folded entirely into itself in the style of the origami technique. The Fold 4.2 has a length of 420 cm and is also available as Fold 3.8 with 380 cm. Both are made of robust, solid, nearly maintenance free material. There is no danger to damage the material by folding it wrong or getting water into it. The folding technique is simple and the kayak is ready for use in 3-5 minutes.

LENGTH: 420 CM | WIDTH: 64 CM | WEIGHT: 16 KG | MAX. CAP.: 130 KG |

QUEST 150 - PAKBOATS

The Quest-150 is a folding touring kayak. Patterned after the popular Puffin family of recreational kayaks by Pakboats, the Quest-150 is lightweight and easy to assemble. Innovative independent tensioning of keel and gunwales makes a rigid hull that greatly improves paddling efficiency. Unlike other touring kayaks, the Quest-150 can be paddled without a deck like a sit-on-top. In spite of its low weight, the Quest-150 is solidly built with a tough polyurethane coated 2000 denier skin for years of trouble free adventures. The inside structure is aircraft grade anodized aluminum to provide high strength and corrosion protection, combined with low weight and a minimal packing size.

LENGTH: 455 CM | WIDTH: 61 CM | WEIGHT: 14.1 KG | LEVEL: PERFORMANCE

BEACH - ORU KAYAK

We started Oru Kayak to make the outdoors more accessible—and the Beach is our clearest expression of that goal. We're pretty sure it's the easiest collapsible boat in the world to put together—it takes just three minutes. Its 28" width makes it stable and comfortable. The open cockpit makes entry a breeze, for paddlers of all shapes and sizes. It's perfect for fun, spontaneous day trips, and sharing with friends and family. While it may be our friendliest boat, it's still built to our usual high standards of strength and durability. And of course it's as easy on the eyes as it is on the water.

LENGTH: 365 CM | WIDTH: 71 CM | WEIGHT: 12 KG | MAX CAPACITY: 135 KG

TREKRAFT - NORTIK

The nordik TrekRaft with deck is a Packraft with an excellent performance at a very affordable price. Combine the ideas of trekking and paddling or rafting and use the TrekRaft for incredible tours. From whitewater to calm water, everything is possible. With a weight of only 3 kg you can have it with you everywhere you go. Beginners as well as professionals love the endless possibilities of usage of this high-performance and ultra lightweight Packraft. A double coated PU-hull, welded seams, reinforced bottom and many successful field tests e.g. in Skandinavia or Alaska make the Nordik PackRaft a very good choice.

LENGTH: 230 CM | WIDTH: 92 CM | WEIGHT: 3 KG | LEVEL: PERFORMANCE
SIZES: LIGHT RAFT: 180 CM, TREK RAFT: 230 CM, FAMILY RAFT: 290 CM

BOATS INFLATABLE 2

OFFERING MORE STABILITY THAN PLASTIC KAYAKS AND MAKING RIVER RUNNING ACCESSIBLE TO A WIDE VARIETY OF PADDLERS.

THOMAHAWK 425 - AQUAMARINA

The THOMAHAWK is taking recreational inflatable kayak to new levels in rigidity, speed and shape. This kayak is designed for some of the most challenging paddling environments in the world and is intended for the offshore and big lake kayak angler. The THOMAHAWK makes the first collaborative design between inflatable kayak and classic craft canoe. Blending efficiency, stability, capacity and finesse, it's ideal for cruising with a light load but also has the volume needed for medium-length trips. The THOMAHAWK is all about glide and speed. It's a lean boat that tracks well, yet will turn quickly and return to a stable position more readily than other fast kayaks.

LENGTH: 13'1 1/425 CM | **WIDTH:** 31" / 78 CM | **WEIGHT:** 51.8 LBS / 23.5 KG
LEVEL: HIGH END | **MAX. CAP.:** 485 LBS / 220 KG | **MATERIAL:** DROPSTITCH
SIZES: THOMAHAWK 325, THOMAHAWK 4

TWIST 2 - GUMOTEX/INNOVA

The TWIST Inflatable kayak is a perfect choice for your summer holiday. It's best suited for sheltered waters such as lakes and calm flowing rivers. The TWIST is very stable and is great for smaller paddlers, yet still offers enough room to accommodate an XXL kayaker. It has removable seats with adjustable backrest for a comfortable and dry ride. The TWIST is supplied with a skeg/tracking fin to keep the kayak on a straight course. Thanks to its small packed size and low weight the TWIST Inflatable kayak is easy to travel with.

LENGTH: 360 CM | **WIDTH:** 83 CM | **WEIGHT:** 13 KG | **LEVEL:** PERFORMANCE
MAX. CAP.: 180 KG | **SIZES:** TWIST 1, TWIST 2

[HTTP://WWW.GUMOTEXBOATS.COM](http://www.gumotexboats.com)

SOLAR - GUMOTEX/INNOVA

The inflatable SOLAR is intended for recreational excursions and trips on rivers up to grade II white water. The SOLAR benefits from many new innovations, including extended decks to help prevent water getting inside the hull. To increase stiffness and further improve performance there is metal reinforcement fitted under the front spray deck, which affords extra legroom. For convenient draining of water there is now a drain facility at the stern. The SOLAR in its basic version is equipped with two seats but has the fixtures for a third. Seating positions are variable; SOLAR can be a single, double or a three-seat kayak.

LENGTH: 410 CM | **WIDTH:** 80 CM | **WEIGHT:** 18.5 KG | **LEVEL:** PERFORMANCE
MAX. CAP.: 270 KG | **SIZES:** SOLAR 2, SOLAR 3

[HTTP://WWW.GUMOTEXBOATS.COM](http://www.gumotexboats.com)

YAKKAIR FULL HP 2 - BIC KAYAKS

The YAKKAir Full HP 2 is a significant progression in the concept of inflatable kayaks, with a panelled structure using the new Drop Stitch technology. These high-pressure inflated, rock-solid panels, assembled around pre-formed bow and stern elements, combine to create an ultra-rigid, high-performance kayak. They have superb glide and are made for easy paddling. The narrower lateral panel sections give much more storage space inside. The more open cockpit design makes re-mounting much easier. And the bung at the stern makes it easy to empty after use. YAKKAir Full HPs come with quality fittings as standard. A new revolution in inflatables....

LENGTH: 13'5/4.10 M | **WIDTH:** 33.5"/.85 M | **WEIGHT:** 34 LBS/15.5 KG
LEVEL: PERFORMANCE | **MAX CAP.:** 463 LBS/210 KG / 2 ADULTS

[HTTP://WWW.BICSPORT.COM](http://www.bicsport.com)

PALAVA - GUMOTEX

The updated design of PALAVA features a sportier look and better handling qualities achieved by narrower bow and stern combined with an increased length of the hull. Increased inner space offers more room for baggage and a greater variability of seat positioning. Wide horizontally installed seats offer comfortable seating, and combined with the provided thigh straps allow safe kneeling while paddling in rapids. The canoe is suitable for overnight trips and can be used on rivers up grade III white water as well as on sheltered waters.

LENGTH: 400 CM | **WIDTH:** 90 CM | **WEIGHT:** 17.5 KG | **LEVEL:** PERFORMANCE
MAX. CAP.: 240 KG

[HTTP://WWW.GUMOTEXBOATS.COM](http://www.gumotexboats.com)

BETTA VT K2 412 - AQUAMARINA

The Betta VT kayak is an outstanding sea/touring kayak that incorporates a hard v-cone rocker design and drop-stitch PVC deck to improve tracking in open water conditions. It's self bailing ports can be opened in rough conditions and closed in calm or cold conditions making a kayak that can paddle in up to class III whitewater with improved tractability on open water. Upgraded drop-stitch vinyl seating allow for kayak to be set up in solo or double mode.

LENGTH: 13'6/412 CM | WIDTH: 33"/83 CM | WEIGHT: 36.4 LBS/16.5 KG
LEVEL: HIGH END | MAX.CAP.: 342 LBS/155 KG | MATERIAL: REINFORCED MULTI-LAYER PVC, DROPSTITCH | SIZES: BETTA VT 312, BETTA VT 412
[HTTP://WWW.AQUAMARINA.COM](http://www.aquamarina.com)

VAGABOND - INNOVA

The updated design of the VAGABOND features a sportier look and better handling qualities achieved by narrower bow and stern combined with an increased length of the hull. Increased inner space offers more room for baggage and a greater variability of seat positioning. Wide horizontally installed seats offer comfortable seating, and combined with the provided thigh straps allow safe kneeling while paddling in rapids. The canoe is suitable for overnight trips and can be used on rivers up grade III white water as well as on sheltered waters.

LENGTH: 400 CM | WIDTH: 90 CM | WEIGHT: 17.5 KG | LEVEL: PERFORMANCE
MAX.CAP.: 240 KG
[HTTP://WWW.GUMOTEXBOATS.COM](http://www.gumotexboats.com)

SCOUT - GUMOTEX/INNOVA

The SCOUT is an inflatable canoe with a modern design. The boat offers plenty of features for the crew's comfort and convenience, such as large inner space combined with huge payload and smooth handling. Scout makes an ideal boat for adventurers with lots of baggage, white water enthusiasts and also for families with children. This boat is available in a Standard or Economy (S/E) version.

LENGTH: 445 CM | WIDTH: 95 CM | WEIGHT: 25 KG | LEVEL: PERFORMANCE
MAX.CAP.: 450 KG
[HTTP://WWW.GUMOTEXBOATS.COM](http://www.gumotexboats.com)

BARAKA - GUMOTEX/INNOVA

The BARAKA is a river canoe with a self-bailing floor that can handle whitewater up to grade III. The boat has a rigid hull that handles well in rapids. The BARAKA provides its crew with many useful features and fittings and with plenty of inside space. The boat is designed for two adults plus a child, up to 350 kg max load. The BARAKA is the right choice for paddlers shopping for a boat designed without compromise.

LENGTH: 410 CM | WIDTH: 105 CM | WEIGHT: 23.5 KG | LEVEL: PERFORMANCE
MAX.CAP.: 350 KG
[HTTP://WWW.GUMOTEXBOATS.COM](http://www.gumotexboats.com)

TWAIN PACKRAFT - KOKOPELLI PACKRAFT

The Twain is Kokopelli's first two person inflatable canoe style packraft. The Twain is ideal for lake settings whether you're out for a recreation day paddle or you're on a week long paddling trip exploring a series of lakes. Weighing in at under 7kg, portages are no longer the dreaded chore they were in the past. The Twain's longer profile and tracking fin allow for the best tracking of any packraft on the market. Kokopelli Packraft specializes in producing the lightest inflatable kayaks in the world.

LENGTH: 310 CM | WIDTH: 94 CM | WEIGHT: 7 KG | LEVEL: PERFORMANCE
PADDLER WEIGHT RANGE: < 300 KG
[HTTP://WWW.KOKOPELLIPACKRAFT.COM](http://www.kokopellipackraft.com)

SEAWAVE - GUMOTEX/INNOVA

Thanks to its long narrow shape, the SEAWAVE kayak is easy to control and very fast. It can be converted from a three-person version into a two-person or one-person kayak by moving the seats. Installation of an optional deck makes Seawave a great seakayak. Aluminium reinforcements support the deck and stiffen the kayak's hull. The floor features a pronounced keel for handling in the wind and better tracking. Seawave is an excellent touring kayak suitable also for seakayaking in sheltered waters.

LENGTH: 455 CM | WIDTH: 80 CM | WEIGHT: 17.5 KG | LEVEL: PERFORMANCE
MAX.CAP.: 250 KG
[HTTP://WWW.GUMOTEXBOATS.COM](http://www.gumotexboats.com)

- intended for recreational excursions and trips on rivers
- extended decks on front and rear
- metal reinforcement under the front deck
- drain facility at the stern
- convertible for 3-2-1 person
- up to Gr. 2 white water

www.gumotexboats.com

SWING 2 - GUMOTEX/INNOVA

The SWING is a sit-in inflatable kayak great for relaxing trips on sheltered waters, harbours, lakes and rivers up to grade II white water. The kayak is supplied with two aluminium reinforcements for improved rigidity of the hull, maneuverability and stability. The reinforcements also shape the deck of the kayak. Thanks to its low weight the kayak is perfect for trips with frequent portages. The enclosed deck prevents water getting in. The SWING is available in a single and a double version.

LENGTH: 402 CM | WIDTH: 87CM | WEIGHT: 14.3 KG | LEVEL: PERFORMANCE
MAX. CAP.: 220 KG | SIZES: SWING 1, SWING 2

[HTTP://WWW.GUMOTEXBOATS.COM](http://www.gumotexboats.com)

ADVENTURE EXPEDITION - GRABNER GMBH

The ADVENTURE EXPEDITION is ideal for expedition/wilderness travellers where a lot of attachment possibilities are required as well as for those who would also like to paddle the boat. In order to fasten luggage and make a heavily loaded boat easier to carry, the ADVENTURE EXPEDITION comes equipped with 52 stainless steel eyes into which support ropes, baggage attachments or rudder holders can be mounted. It is no wonder it is the most purchased canoe in the Grabner collection and has been used in many wilderness journeys and expeditions all over the world.

LENGTH: 450 CM | WIDTH: 95 CM | WEIGHT: 25 KG | MAX. CAPACITY: 450 KG
LEVEL: HIGH END

[HTTP://WWW.GRABNER.COM](http://www.grabner.com)

MEGA 2 - GRABNER GMBH

The Mega is new, super comfortable touring kayak for 1 or 2 adults or 2 adults + 1 infant. The new Mega has the same lower hull as the Riverstar and is unbeatably stable by a large margin. The comfortable seats with high backrest are continuously longitudinal and have tilt adjustment options, making sure even heavier people feel comfortable and safe. Designed for leisurely paddling on rivers, lakes, sea and to whitewater, it paddles smoothly over long trips. Electric motor compatible.

LENGTH: 500 CM | WIDTH: 90 CM | WEIGHT: 23 KG | MAX. CAPACITY: 280 KG
LEVEL: HIGH END | MATERIAL: 1100 DTEX

[HTTP://WWW.GRABNER.COM](http://www.grabner.com)

HOLIDAY 2 - GRABNER GMBH

For decades the HOLIDAY has proved to be a great performer for leisurely exploring lakes, rivers, and inshore coastal waters. It combines good hydrodynamic riding characteristics with a roomy interior and comfort. The HOLIDAY 2 is the ideal holiday boat for for 1 or 2 person(s) of average stature and not too much luggage.

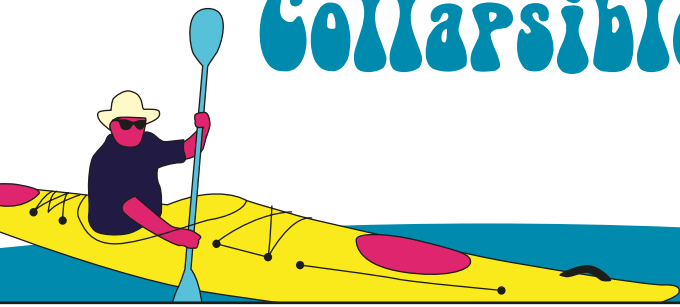

LENGTH: 395 CM | WIDTH: 75 CM | WEIGHT: 17.5 KG | MAX. CAPACITY: 190 KG | LEVEL: HIGH END

[HTTP://WWW.GUMOTEXBOATS.COM](http://www.gumotexboats.com)

PULSAR 420 - GUMOTEX/INNOVA

PULSAR rafts are sought after by rafting operators, sports centers, water sports clubs and also for raft racing. The fast and rigid hull combined with the self-bailing inflatable bottom provides exceptional stability and very fast draining in rapids. PULSAR rafts have been chosen several times as the official race boats for the European Championships (most recently for the European Rafting Champs 2016 in Slovenia) and also the official race boat for the 2003 World Championships that took place in the Czech Republic on the Vltava River.

LENGTH: 420 CM | WIDTH: 190 CM | WEIGHT: 50 KG | LEVEL: PERFORMANCE
MAX. CAP.: 800 KG | SIZES: PULSAR 380, PULSAR 420, PULSAR 560
[HTTP://WWW.GUMOTEXBOATS.COM](http://www.gumotexboats.com)

HIPPO 8SB - SPREU BOOTE

A favorite for medium volume, technical rivers. Colours upon availability: grey, red, blue. All of our boats are handmade and constructed from CSM (Chlorosulfonated Polyethylene, also known as Hypalon®) a synthetic rubber material favoured by the majority of inflatable boat users because of its excellent resistance to abrasion, ozone, oil, and UV-rays. Our rafts are now outfitted with Leafield D7 air valves along with Leafield Overpressure valves in the floors. All our inflatables meet the CE safety standards.

LENGTH: 395 CM | WIDTH: 193 CM | WEIGHT: 60 KG | MAX. CAP.: 8 PERSONS
LEVEL: HIGH END

Stand Up Paddling

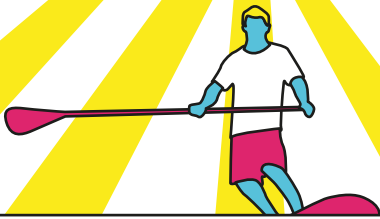

One of the fastest growing segments of paddlesports, every day more and more people around the world are hopping on stand up boards and heading out to enjoy the water. From fitness to family fun, from surfing waves to racing long distance, stand up has a broad appeal for anyone with access to lakes, rivers, or oceans.

SUP involves standing on a large, wide board and paddling with a long, one-bladed paddle to propel oneself forward and turn the board when necessary. SUP offers enthusiasts an excellent core workout and the sport has grown in popularity among fitness fans with access to safe waters.

Some surfers have converted to SUP because of its versatility. Stand up paddle boarding offers surfers the ability to catch more waves in a set, as well as have a better view of incoming sets. Original stand up boards were made like a surfboard, with epoxy resin and fiberglass around foam core. However, many companies are coming out with rotomolded plastic and inflatable boards to offer more durable options.

NEW
2018

GLIDE 12'6" BAMBOO - OXBOW

Launched in 2017 and lauded for their impressive performance, smooth feel on the water and eye-catching graphics, the Glide series has been updated to improve speed and glide as well as comfort and stability. The flat section underfoot has been extended forward towards the nose to improve stability while a lower profile piercing nose increases efficiency by smoothly parting the water on entry. A squared off 'chisel' shaped tail reduces drag and the standing area was revised to more efficiently shed water. Deck attachment points make it easy to secure extra gear for extended trips. Available in 12'6" and 14' lengths.

[HTTP://WWW.OXBOW-SUP.COM](http://www.oxbow-sup.com)

NEW
2018

BAYONET 14' - SIC MAUI

The Bayonet Series is not a replacement of SIC's iconic Bullet series; it is however, an extension to the range in a new high performance series. A derivative of its world-class next of kin and answering the call for a narrower board that has a get-up-and-go attitude in sub twenty knots as well as a higher top end due to the narrower widths. That said, much of the volume distribution, rail shaping and wider tails make these boards remarkably stable despite the slimmed down outlines and flatter rocker lines. The Bayonet continues SIC's legacy of having the fastest downwind boards in the world. The Bullets remain without a doubt some of the fastest downwind boards in the world, however, comparatively are wider with slightly more rocker and therefore are for paddlers who want speed without giving up rail-to-rail stability. Available in both 14' and 17' lengths.

LENGTH: 14'/426.7CM | **WIDTH:** 26.0"/66CM | **THICKNESS:** 6.0"/15.2CM | **WEIGHT:** 26.5LBS/12 KG | **VOLUME:** 295L | **FIN:** WEEDLESS 7.0 | **MATERIAL:** SCC+ INNEGRA

[HTTP://WWW.SICMAUI.COM](http://www.sicmaui.com)

NEW
2018

RS 14' X 24' 1/4" - SIC MAUI

Short for "Rocket Ship," the all NEW RS Series is sure to be one of the fastest all-water race boards in the world. We have developed and tested these shapes starting at Pacific Paddle Games 2016 and have made countless prototypes, refining and honing in on the perfect design and performance characteristics. The RS has proven race ready at the Carolina Cup, the 2017 Euro tour, Grand Prix Sprint Race in Hossegor... The RS will surely take you to the top of your game. Aside from racing, we have had a lot of fun on the wider width models, testing them in a variety of conditions, touring around and blasting downwind runs with friends. The RS is an incredibly versatile, all around, performance board covering a wide range of abilities, weights and conditions.

LENGTH: 14'/426.7CM | **WIDTH:** 24.5"/62.2 CM | **THICKNESS:** 6.0"/15.2CM | **WEIGHT:** 24.7 LBS/11.2 KG | **VOLUME:** 288 L | **FIN:** WEEDLESS 8.3 | **MATERIAL:** SCC+ INNEGRA

FOCUS CALI RACE PADDLE BOARD FOCUS SUP HAWAII

The new Cali shape brings you a smooth and sleek flatwater race board ready for winning competitions. The unique hull shape has added volume and a wider tail that is designed to glide through and displace water with ease. The mono-concave bottom shape will provide the speed and stability of a top of the range board. With multiple wins in a variety of conditions, the Cali has become a favorite board in many quivers.

LENGTH: 14" | WIDTH: 23.5 CM/27 CM | VOLUME: 246 L, 256 L, 276 L | WEIGHT: 10.6 KG | PADDLER WEIGHT RANGE: 60-110 KG | LEVEL: HIGH END | MATERIAL: ACT (ADVANCED CARBON TECHNOLOGY)

[HTTP://WWW.FOCUSUP.COM](http://www.focussup.com)

FOCUS BLUEFIN TURBO RACE PADDLE BOARD FOCUS SUP HAWAII

A revolutionary design brings proven prone board design to standup. Best in downwind conditions. The board provides stability and maintains speed in calm conditions because of a lower entry rocker that maximizes the water line, a concave bottom shape, and hard rails. The perfect combination of a slender outline and volume distribution will allow you to ride a narrower board than what you are used to. The Bluefin is the go-to board of Elite racer Mo Freitas. It embraces racing design derived from extensive racing, testing, and product development.

LENGTH: 14" | WIDTH: 23.5 CM, 26 CM | VOLUME: 262 L, 276 L | WEIGHT: 10.6 KG | PADDLER WEIGHT RANGE: 60-110 KG | LEVEL: HIGH END | MATERIAL: ACT (ADVANCED CARBON TECHNOLOGY)

[HTTP://WWW.FOCUSUP.COM](http://www.focussup.com)

WING 12'6 - BIC SUP

The 12'6 WING is a Touring SUP designed for fitness paddling, flatwater cruising, open ocean touring and recreational racing. It's aimed at medium and larger riders looking for a board with excellent glide that is versatile and easy to ride. With 285 liters of volume the 12'6 WING is ideal for beginners up to 260lbs/120kg, with plenty of flotation for larger intermediate riders. ACE-TEC construction offers a unique combination of durability AND lightweight performance at a great price. The high-gloss red color on the deck is paired with a high-gloss white finish on the hull and additional color in the deck pad, creating a unique and striking aesthetic.

LENGTH: 12'6"/381 CM | WIDTH: 30"/76 CM | VOLUME: 285 L | WEIGHT: 34 LBS/15.5 KG | PADDLER | MATERIAL: ACE-TEC

12'6 TOURING WOOD - INDIANA SUP

Our touring board from shaper Andi Widmann comes in various versions: As 12'6 or 11'6 version, produced with the renowned foam core technology. Or as a more exclusive 14', produced with vacuum infusion technology and hollow. This makes the board extremely light, but at the same time rigid and robust.

LENGTH: 12'6/381 CM | **WIDTH:** 29"/73.7 CM | **THICKNESS:** 5.75"/14.6 CM | **VOLUME:** 265 L | **WEIGHT:** 11.8 KG | **PADDLER WEIGHT RANGE:** < 110 KG | **LEVEL:** HIGH END | **MATERIAL:** EPS FOAM, INNEGRA, CARBON, FIBERGLASS, WOOD VENEER, EPOXY | **SIZES:** 11'6, 12', 14'

[HTTP://WWW.INDIANA-SUP.COM](http://www.indiana-sup.com)

RACER 12'6 X 25'5 - OXBOW

Ideal as a dependable 'one-board quiver' with the speed you need to perform at your peak, combined with the stability required to stay upright and focused on the task at hand. Featuring full carbon construction for lightweight, rigidity and maximum speed, the Racer series are competition-level boards that excel in flatwater, open ocean, beach and downwind race conditions. A full nose outline with lowered profile is ideal for penetrating chop in rough conditions as well as reducing cross-wind interference. The wide cockpit standing area allows for full use of the deck area and provides a 'corrugated' design for added rigidity and durability. Rail edges in the rear of the board are slightly rounded and combined with a relaxed tail rocker for minimal drag. Available in both 12'6 and 14' lengths.

[HTTP://WWW.OXBOW-SUP.COM](http://www.oxbow-sup.com)

BULLET 14' - SIC MAUI

The Bullet Series has become an icon not only for its open water prowess and downwind superiority; these boards have gained a huge following from paddlers who love cruising, touring, fitness and even mixing in a bit of surf. Stable, fun, fast and incredibly versatile, the Bullet can literally do it all. The Bullet has won numerous awards for its overall performance and versatile fun. It features a flat bottom, which gives the board a very stable platform rail-to-rail and smooth glide through the water. The overall rocker line makes the board perform very well in a variety of conditions planing over chop and down swells, as well as enabling rail-to-rail steering when on glide. The high volume in the rails provides unprecedented stability in wind or boat chop and helps the board have a get-up-and-go feeling. Available in both 12' and 14' lengths.

LENGTH: 14'/426.7 CM | **WIDTH:** 27.25"/69.2 CM | **WEIGHT:** 31.3 LBS/14.2 KG | **VOLUME:** 275 L | **FIN:** WEEDLESS 7.0 | **MATERIAL:** TWC

[HTTP://WWW.SICMAUI.COM](http://www.sicmaui.com)

NINJA 14' X 23 PRO CARBON - NSP

The NSP Ninja boards are specific flatwater raceboards designed for unbridled speed on lakes, rivers and calm seas. The bulbous bow is designed to decrease the bow wave effect and optimize your energy while paddling. All NSP Ninja boards include 4 x Accelerator Vacuum System (AVS) to ensure that any water entering the dugout is quickly and efficiently removed. The Ninja maintains an hydrodynamic deck profile shape between the inverted bulbous bow and dugout to shield the rider from any wash, waves or spray. All NSP Ninja boards are designed by Alain Teurquetil and shaped by Dale Chapman.

LENGTH: 14' | **WIDTH:** 23" | **LEVEL:** HIGH END

RAZZLE DAZZLE 14 ROBERTO RICCI DESIGNS

RACE PRO RRD developed the new Razzle Dazzle 14' board with the help of RRD Sup Race team rider Jacopo Giusti. Paolo Marconi won the stage of the European Sup Championship in Marotta, Italy, with this board. The concept was born after the success of the Razzle Dazzle 12'6". After a small run of custom boards entirely made in the RRD custom board factory in Italy, Roberto Ricci decided to start a complete range of fixed sizes. The new CNC shaped, full carbon laminated and totally hand finished Razzle Dazzle line is now ready for the pro racers. The new 14' delivers great performances in every kind of water conditions, perfect for flat water and ocean chop. Available in two different width sizes 14'x24" and 14'x25'.

LENGTH: 14' | **WIDTH:** 24", 25" | **THICKNESS:** 18 CM | **VOLUME:** 27 LTR | **WEIGHT:** 11 KG | **PADDLER WEIGHT RANGE:** 75 - 95 KG | **MATERIAL:** FULL CARBON | **LEVEL:** HIGH END

6'6 EASY FOILER - BLUE PLANET SUP EUROPE

The new Blue Planet Easy Foiler boards and Foils are designed for easy foiling to make this thrilling new sport as accessible as possible. The board sizes available are: 7'6 x 30.5, 6'11 x 29.5 and 6'6 x 28.5 6'0 x 27.5 The Easy Foiler is available in Bamboo hybrid and full carbon construction. The outline, bottom shape and rocker line are designed to maximize lift and ease of catching waves while minimizing length and swing weight of the board to make it as easy to control as possible when foiling. These are dedicated foil boards with inserts for foot straps and are available with mounts for Tuttle Box or Plate mounted foils.

LENGTH: 6'6" | WIDTH: 28.5" | VOLUME: 116 L | WEIGHT: 7.5 KG | THICKNESS: 4.25" PADDLER WEIGHT RANGE: <95 KG | LEVEL: PERFORMANCE | MATERIAL: BAMBOO/CARBON/KEVLAR

[HTTP://WWW.BLUEPLANETSURF.COM](http://www.blueplanetsurf.com)

PEAK WIDE 8'10 X 32" - OXBOW SUP

The SUP wave range is the result of years of testing and optimization to find the ideal cocktail between the shape of the outline, the rocker, the volume distribution, the back shape and the placement of the fins. The result is a versatile design that provides the stability needed for a fairly easy rowing without losing performance once in the surf. These new forms allow the maintenance of their speed and maneuverability and a good grip of the rail, even in small waves. The Peaks are made of Innegra carbon and available in four sizes for paddlers of all sizes and levels. The shape generates the speed you need on softer waves while leaving freedom on steeper slopes and tighter turns. Whatever the size and shape of the waves, you will have fun!

SLIDING PENGUIN - WILD SUP

The Sliding Penguin is designed for surfing but works perfectly on smaller rivers and lakes too. So if you are ready to hit the waves, the Sliding Penguin is the best choice for you. Comes with: Bravo pump (double action, high pressure up to 29 psi), WildSUP board carrying bag, WildSUP leash, repair-kit.

LENGTH: 289 CM | WIDTH: 74 CM | THICKNESS: 12 CM | WEIGHT: 10 KG | LEVEL: PERFORMANCE | MATERIAL: DROPSTITCH PVC

[HTTP://WWW.WILDSUP.EU](http://www.wildsup.eu)

SUPER FRANK - JIMMY LEWIS

The Super Frank is the ultimate SUP groveler. It's meant to be ridden quite a bit shorter than your normal board and still offer plenty stability. Flat rocker with a very deep single to double concave for high speed and drive in flat and weak surf. The outline has the wide point a bit forward coming into a performance thumb tail to make the board very responsive and easy to whip around. The Super Frank comes in two widths for each length so you can choose the width and volume that best suits you. Five Fin Box Set Up. Comes with JL Five fin set. (Allows for thruster or quad fin set up)

SIZES: 7'6"X29.5"X4" (100L), 8'X30"X4.2" (115L), 8'6"X30.5"X4.4" (130L), 7'6"X31"X4.4" (115L), 8'X31.5"X4.5" (127L), 8'6"X32"X4.5" (141L) | COLORS: GREEN, ORANGE | MATERIAL: JL CLASSIC CONSTRUCTION, JL CARBON CONSTRUCTION

[HTTP://WWW.JIMMYLEWIS.EU](http://www.jimmylewis.eu)

8'6 WAVE CARBON - INDIANA SUP

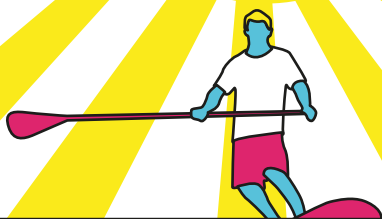

These uncompromising waveboards have world champion traits. The Brazilian Indiana shaper Johnny Cabianca also makes the boards for world surfing champion Gabriel Medina. And this man knows what it takes to get shortboard-style wave shredding to really take off.

LENGTH: 8'6"/261.5 CM | WIDTH: 29"/73.7 CM | THICKNESS: 4.25/10.8 CM | VOLUME: 113 L | WEIGHT: 6.9 KG | PADDLER WEIGHT RANGE: <90 KG | LEVEL: HIGH END | MATERIAL: EPS FOAM, INNEGRA, CARBON, FIBERGLASS, EPOXY

[HTTP://WWW.INDIANA-SUP.COM](http://www.indiana-sup.com)

THRIVE - AQUAMARINA

The Thrive is the ultimate go-anywhere, do-anything SUP that everyone can enjoy. Building on the success of its sister board, Breeze, Thrive takes its inspiration from the most popular nautical animal – the Sea Turtle, and is presented in stark white, black and green which is sure to please the professional paddler's eye. With its generous volume and an integrated kick pad at the tail, this board is ideal for those lighter riders and for those who want to enter the waves.

LENGTH: 9'9/300 CM | WIDTH: 30"/75 CM | THICKNESS: 6"/15 CM | VOLUME: 264 L | WEIGHT: 18.1 LBS/8.2 KG | PADDLER WEIGHT RANGE: < 120 KG | LEVEL: HIGH END

[HTTP://WWW.AQUAMARINA.COM](http://www.aquamarina.com)

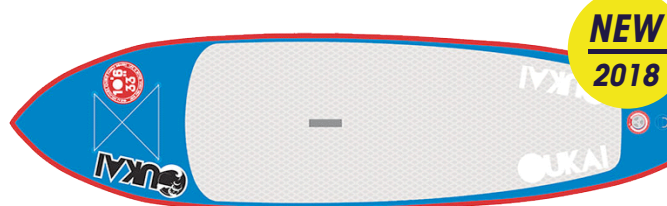

BLUELINE 10'6 - OUKAI

The Okai BlueLine 10'6 is a freeride crossover board with effortless glide and great directional tracking. The boxy tail gives the board superb water release and allows the board to turn quickly. A great board for both advanced and entry-level SUPers.

LENGTH: 10'6/323 CM | WIDTH: 84 CM | VOLUME: 250 L | THICKNESS: 12 CM - | WEIGHT: 10 KG | MAX CAP.: 125 KG | LEVEL: PERFORMANCE

[HTTP://WWW.OUKAI-SUP.COM](http://www.oukai-sup.com)

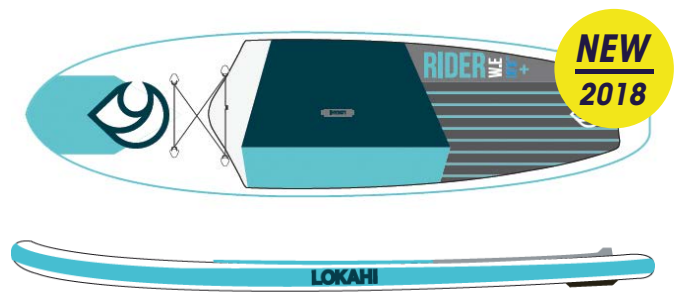

WE RIDER 10'5 + - LOKAHI

The WE Rider Air was designed to make the SUP practice as accessible as possible. With a great price to quality ratio, it is the choice to start SUPing with the whole family. "Air STRINGER Technology" construction makes it a rigid board, ideal for a regular practice. Feature: - One-piece diamond deck pad - Soft carry handle - Bungee cord - Leash D-ring - US box and its flexible single fin set up with the handy screw system - Double action pump - Repair kit - Extra large back pack with embroidery.

LENGTH: 10'6"/320 CM | WIDTH: 33"/82 CM | VOLUME: 290 L | WEIGHT: 22 LBS/10 KG | THICKNESS: 6"/15 CM | LEVEL: ENTRY LEVEL | MATERIAL: DROPSTITCH AIR STRINGER TECHNOLOGY

[HTTP://WWW.LOKAHIBOARDS.COM](http://www.lokahiboards.com)

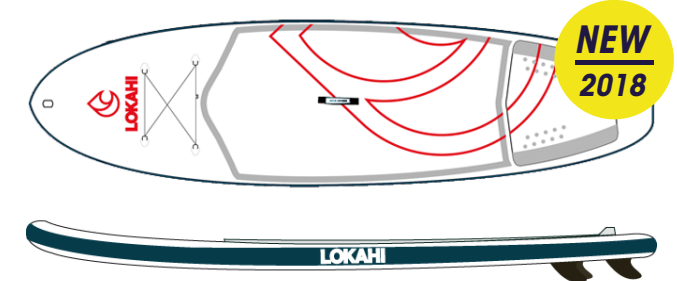

ENJOY 10'6 - LOKAHI

The ENJOY was designed to make the SUP accessible to all. It is a fantastic choice for both price and quality. Practice with family and friends. The Enjoy uses "Air SINGLE SKIN Technology" construction, making it the lightest board on the market. Features: - Two-piece diamond deck pad with an additional quick to the back and an arch - Soft neoprene carry handle - Bungee cord - Front hook - Leash D-ring - Simple action pump - 3 flex fix fins - Extra large back pack.

LENGTH: 10'6"/320 CM | WIDTH: 33"/82 CM | VOLUME: 290 L | WEIGHT: 22 LBS/10 KG | THICKNESS: 6"/15 CM | LEVEL: ENTRY LEVEL | MATERIAL: DROPSTITCH AIR STRINGER TECHNOLOGY

[HTTP://WWW.LOKAHIBOARDS.COM](http://www.lokahiboards.com)

BLACK MOOSE - WILDSUP

Stand up paddleboard Black Moose – this is a very popular SUP with a universal size and shape. This SUP is very stable on the water, but also does not lose its maneuverability and speed. This board is the perfect choice if you want to enjoy relaxing and calm paddling. Because of very high compression (up to 27psi) this board reaches maximum stiffness on the water. The Black Moose features two carrying handles – one in the middle and one in the back, stainless steel D rings, elastic bands under which you can stash your stuff. And of course a very pleasant, non-slippery EVA deck on the top of the board.

LENGTH: 10'6"/320 CM | WIDTH: 78 CM | VOLUME: 27 L | THICKNESS: 12 CM | WEIGHT: 10 KG | PADDLER WEIGHT RANGE: <110 KGS | MAX CAP.: 150 KG | LEVEL: ENTRY LEVEL | MATERIAL: TWO-LAYER PVC DROPSTITCH

[HTTP://WWW.WILDSUP.EU](http://www.wildsup.eu)

ECHO - AQUAMARINA

Designed like no others, plays like no others! Our freshly developed new SUP Echo 10'6 doesn't only light up our line-up with its stunning design and thrilling conch graphics, it also shines with endless all-around abilities and performance. Smooth paddling and engaging rails, this signature design and most popular size is easy to use with effortless glide. This really is as good as it gets!

LENGTH: 10'6"/320 CM | WIDTH: 32"/81 CM | THICKNESS: 4"/10 CM | VOLUME: 206 L | WEIGHT: 19.8 LBS/9 KG | PADDLER WEIGHT RANGE: < 115 KG | LEVEL: HIGH END

[HTTP://WWW.AQUAMARINA.COM](http://www.aquamarina.com)

HYDRO-FORCE™ AQUA JOURNEY - BESTWAY

Great all around SUP. High maneuverability and lightness make this board perfect both for flat water and small wave riding. Comes with paddleboard, paddle, hand pump, one travel bag, surf leash, repair kit. Features: Non-slip traction pad - adjustable 85 in (2.17m) aluminum paddle (3 sections) - Convenient deck handle to easily pick up and carry the SUP.

THRIVE - NRS

The Thrive series from NRS disproves the theory that no single board can do several things well. It's the perfect all-around shape for paddlers looking to mix it up with touring, fitness paddling and light river running.

LENGTH: 10'8" | WIDTH: 34" | VOLUME: 340 L | THICKNESS: 6" / 15 CM | WEIGHT: 29 LB | MAX CAP.: 250 LBS / 113.4 KG | LEVEL: ENTRY LEVEL | MATERIAL: PVC DROPSTITCH

[HTTP://WWW.NRS.COM](http://www.nrs.com)

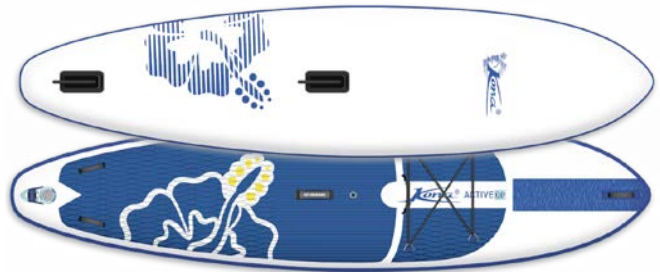

ACTIVE 11.2 - KONA WINDSURFING AB

The refined all-round rider Active 11.2 is a development of the previous successful Active models. It is faster and more stable, making it even better for beginners or as a family board. It has a wide range of use, from playing and cruising to yoga and fitness training. With its larger volume it is well suited for the heavier paddler. The Active 11.2 is equipped with two thrusters and smaller side fins, which makes it possible to try riding waves. It comes with a windsurfing attachment and is the preferred board for windsurfing within the Active model range. It is also equipped with a second fin midship to improve its windsurfing qualities.

LENGTH: 11.2" | WIDTH: 32" | VOLUME: 33.0 L | THICKNESS: 6" | WEIGHT: 9.9 KG | PADDLER WEIGHT RANGE: <120 KGS | MAX CAP.: 25 PSI | LEVEL: ENTRY LEVEL | MATERIAL: MACHINE BASE DROPSTITCH

[HTTP://WWW.KONAWINDSURFING.COM](http://www.konawindsurfing.com)

MAGMA - AQUAMARINA

The Magma is simply a cruising and exploring tourer. Featuring a stunning design, super stable and equipped with loads of performance, this is the top choice for the explorer looking to go with the flow. Highlights- a 4cm kick pad for step back confident and control.

12'6 X 31" TOURING DELUXE DOUBLE CHAMBER - STARBOARD

A tool for adventure. A highly efficient shape for cruising and exploring with good glide to cover distance. The inflatable touring board is the explorer's favorite transportation. With the new technology, The new Touring Deluxe Double Chamber makes the board stiffer and safer than ever before. The secondary chamber offers up to 42 litres of safety floatation. This innovative chamber also doubles the sidewalls and acts like rollable I-BEAMS. Starting just behind the standing area and continue toward the front, the chamber is placed in the most critical area for flex and reduces deflection by 1.8 cm. Target rider: explorers. Key features: FCS Touring Fin, Star Mount and bungee tie-downs to pack your gear for the next adventure.

LENGTH: 12'6/381 CM | WIDTH: 31"/78.7 CM | THICKNESS: 6"/15 CM | WEIGHT: 25 LBS/11.48 KG | VOLUME: 320 L | LEVEL: HIGH END | PADDLER WEIGHT RANGE: 121-242 LBS/55-110 KG

[HTTP://WWW.STAR-BOARD-SUP.COM](http://www.star-board-sup.com)

14'0 X 26" ALL STAR AIRLINE - STARBOARD

Challenging the future. A popular size for many riders. The 14'0 x 26 All Star gives enough stability to be in control when conditions get choppy, yet fast and slippery to cover distances quickly. With the extra stiffness and rigidity from the Airline system coupled with the lightweight technology, this board will make you question a hard board. It is our most significant breakthrough in tuning rocker lines and deflection. Target rider: All racers. Key features: Nose cone, loop and hook with a pre-stretched High Tension aramid fiber cable providing unparalleled stiffness and rigidity.

LENGTH: 14'/426.7 CM | WIDTH: 26"/66 CM | THICKNESS: 6"/15 CM | VOLUME: 320 L | LEVEL: HIGH END | PADDLER WEIGHT RANGE: 132-231 LBS/60-105 KG

INDIANA INFLATABLE 12'6 TOURING - INDIANA SUP

The fast touring board is very stable and tilt-resistant due to the double-concave underwater hull. Triple Stringer Technology makes it one of the lightest and most rigid boards on the market. The Touring is available in the narrow, extra-sporty 12'6 variant, as a wider and tilt-resistant 11'6 or as a lady version, which is specially adapted to the needs of the ladies in terms of volume, weight and size.

LENGTH: 12'6/3.81 M | WIDTH: 28"/71.1 CM | VOLUME: 309 L | WEIGHT: 11 KG | THICKNESS: 6"/15 CM | MAX CAP.: < 110 KG | LEVEL: PERFORMANCE | MATERIAL: DROPSTITCH, PVC

[HTTP://WWW.INDIANA-SUP.COM](http://www.indiana-sup.com)

HOWLING WOLF - WILD SUP

If it's not your first time on a SUP, or if you are looking for speed and dynamic performance but you don't want a race board, than the Howling Wolf is just for you. Inflatable up to 27 psi means you don't have to worry about bumps and dings, but don't have to compromise on stiffness and stability. Comes with SUP, wheeled bag, pump, leash, and repair kit.

LENGTH: 12'6/374 CM | WIDTH: 70 CM | THICKNESS: 12 CM | WEIGHT: 13 KGS | MATERIAL: PVC DROPSTITCH

[HTTP://WWW.WILD SUP.EU](http://www.wildsup.eu)

12'6 TOURING - INDIANA SUP

The fast Touring Board is very stable and remains on course due to the double-concave underwater hull. Thanks to the triple stringer technology, it is one of the lightest and sturdiest boards on the market. The Touring is available in the narrow, extra sporty 12'6" version, as a wider and tilt-resistant 11'6", or Lady version, which, in terms of volume, weight and size, is specifically adapted to the needs of the ladies.

LENGTH: 12'6/3.81 M | WIDTH: 28" | 71.1 CM | VOLUME: 309 L | WEIGHT: 11 KG | THICKNESS: 6"/15 CM | MAX CAP.: < 110 KG | LEVEL: PERFORMANCE | MATERIAL: DROPSTITCH, PVC

[HTTP://WWW.INDIANA-SUP.COM](http://www.indiana-sup.com)

RAY 12.6 PFT - SIREN SUPSURFING

The Ray 12.6 PFT is a sporty touring racer in the SIREN range. Thanks to its innovative cruiser shape, it not only allows comfortable exits, but also sports training and racing operations. The combination of a slightly wider midsection with a super narrow rear gives stability when paddling, but also keeps the board at a higher pace. We believe we offer the lightest and stiffest board generation on the I-SUP market thanks to our new PFT technology. The SIREN ray 12.6 PFT has the stuff for fun beginner races and inflatable sprints, as well as quick exploration or a fitness trip on the lake.

LENGTH: 12'/384 CM | WIDTH: 29"/78 CM | VOLUME: 271 L | WEIGHT: 10.9 KG | THICKNESS: 6"/15 CM | MAX CAP.: 115 KG | LEVEL: HIGH END | MATERIAL: DROPSTITCH

[HTTP://WWW.I-SUP.DE](http://www.i-sup.de)

HALA CARBON NASS - HALA GEAR SUP

Our new, patented Carbon Construction™ creates rigidity with hardboard-like performance while also being travel-ready. Coupled with a sleek outline and glide rocker, the Nass gives you a smooth ride and a solid tracking experience. Zoom across a secluded alpine lake or hop a flight and tour down a jungle river. Whatever you choose, rig up and set out with speed and style. This 30" wide board is the most versatile touring board you've ever been on. So pack up your gear with the 8 D-Ring rigging points and let the Nass carry you to new adventures.

LENGTH: 12'6 | WIDTH: 30" | VOLUME: 350 L | WEIGHT: 29 LBS | THICKNESS: 6" | PADDLER WEIGHT RANGE: <400 LBS | LEVEL: HIGH END | MATERIAL: CARBON CONSTRUCTION™ + PVC

AIR GLIDE BULLET 14' - SIC MAUI

The Bullet 14' is one of the highest-end inflatable boards on the market. Designed with nearly the same dimensions as its composite counterpart, it offers near unbeatable performance. SIC Air-Glide Bullet utilize FST (Fusion Skin Technology). FST is substantially stiffer than single layer PVC, which translates into rigidity, stability, speed and greater glide. SIC Air-Glide boards also feature DSW (Double Sidewall Construction). SIC always goes the extra mile when it comes to performance, durability and wherever possible, enhanced safety. A DSW assists in stiffening the board and enabling it to handle higher PSIs. The Air-Glide Bullet come complete with a leash, wheelee backpack and repair kit. Available in both 14' and 17'4 lengths.

**LENGTH: 14'/426.7 CM | WIDTH: 28.5"/72.4 CM | THICKNESS: 6"/15 CM | WEIGHT: 25.4
LBS/11.5 KGS | FIN: WEEDLESS 9" | MATERIAL: DCS FUSION**

RAPID - AQUAMARINA

Short and nimble, the Rapid 9'6" is an advanced river SUP that delivers easy surfing action with surprisingly radical performance attributes. Featuring stability, ease of use with desired speed and control, the Rapid guarantees unbeatable fun in all types of waves.

LENGTH: 9'6/289 CM | WIDTH: 33"/84 CM | THICKNESS: 6"/15 CM | VOLUME: 289 L | WEIGHT: 22 LBS/10 KG | MAX. CAP.: < 287 LBS, 130 KG | LEVEL: HIGH END

[HTTP://WWW.AQUAMARINA.COM](http://www.aquamarina.com)

STREAM-LE - AIRBOARD

The Airboard STREAM SUP comes in a timeless design. The durable double-layer construction guarantees great driving fun in rivers but also on calm waters. With the US box fin system, the SUP adapts to every situation. The kickpad and the extended deckpad on the nose make the Airboard STREAM extremely agile and a loyal companion on the river, lake and on the sea. Now available in the LIGHT EDITION - 20% weight savings thanks to the latest materials.

LENGTH: 10' | WIDTH: 32" | THICKNESS: 6"/150 MM | WEIGHT: 9.7 KG | VOLUME: 265 L | MAX. CAPACITY: 160 KG | MATERIAL: ULA LIGHT DOUBLE LAYER | LEVEL: HIGH END

[HTTP://WWW.AIRBOARD.COM](http://www.airboard.com)

WHIP 9.6 - NRS

Pull up to your local play wave, pump up the Whip and start shredding. The Whip's rounder shape, shorter length and surf-style fin and tail configurations make it the ultimate park-and-play inflatable. Inflates up to a rock-hard 20 psi for performance that rivals a hard board, then folds up compactly when deflated for easy transport and storage. Removable, interchangeable fins let you customize your setup and the ABS plastic fins absorb impacts without breaking. All NRS SUP boards are backed by a three-year warranty.

LENGTH: 9'2 | WIDTH: 34"/864 MM | THICKNESS: 6"/150 MM | WEIGHT: 25 LBS VOLUME: 329.5 L | MAX. CAPACITY: 250 LBS | MATERIAL: PVC DROPSTITCH | LEVEL: ENTRY LEVEL

[HTTP://WWW.NRS.COM](http://www.nrs.com)

QUIVER 9.8 - NRS

If river running is your jam, the NRS Quiver is your board. The Quiver combines a wide deck with extra rocker on the nose and tail to deliver the ultimate combination of stability and maneuverability.

LENGTH: 9'8" | WIDTH: 36" | VOLUME: 322 L | WEIGHT: 26 LBS | THICKNESS: 6" | PADDLER WEIGHT RANGE: 130-250 LBS | LEVEL: ENTRY LEVEL | MATERIAL: PVC DROPSTITCH

[HTTP://WWW.NRS.COM](http://www.nrs.com)

HALA PEÑO - HALA GEAR SUP

The patent-pending DoubleStack™ construction divides the Hala Peño board into two sections, giving this high volume board the rail benefits of a hardboard-like surfer. The wider 3" bottom chamber provides an edge to delve into the wave with precision while the stacked 3" top chamber gives you a sturdy platform to base from. A 32-inch width creates stability as you paddle downriver to your next play feature, but stays quick and responsive in the wave. A 6'11" length gives you a smooth ride that can take on larger waves while still fitting into those smaller pockets.

LENGTH: 6'11" | WIDTH: 32" | VOLUME: 224 L | WEIGHT: 25 LBS | THICKNESS: DOUBLESTACK™ 3"+ 3" | PADDLER WEIGHT RANGE: 0-280 LBS | LEVEL: PERFORMANCE | MATERIAL: PVC

[HTTP://WWW.HALAGEAR.COM](http://www.halagear.com)

HALA RADO - HALA GEAR SUP

Inspired by rugged Colorado rivers, the Rado is the burliest, sportiest expedition board to do it all. Venture out on a long expedition, set up camp, then hit the river again to stomp whitewater and shred the surf with confidence. The Rado comes standard with a Stompbox™ retractable fin and four fixed, unbreakable, low profile, side fins for low draft, high-performance tracking. 10 rigging points, six of which are soft and centralized plus four additional side ones. The full rocker combined with the board length is designed to support the gear load while still punching holes. Our classic CoreConstruction™ makes this board rugged and dynamic for all crossover adventures so you can explore uncharted territories all year long.

LENGTH: 10'10" | WIDTH: 35" | VOLUME: 345 L | WEIGHT: 33 LBS | THICKNESS: 6" | PADDLER WEIGHT RANGE: 0-350 LBS | LEVEL: PERFORMANCE | MATERIAL: PVC

[HTTP://WWW.HALAGEAR.COM](http://www.halagear.com)

RIVER AIR 9'2 - OXBOW

At 9'2" the RIVER is compact, rigid (15psi), rugged and maneuverable. It's a super-stable platform that easily punches through waves and swirly, boily eddylines. Six grab handles are carefully placed along the rails for easy access when you need to quickly pull yourself back on board. These rugged handles also work great for securing gear if you need to bring along more than the standard bungee deck rigging will accommodate. Optimized nose and tail rocker help keep the board on top of the water through holes and prevents pearling while surfing. A low-profile permanent quad flexi-fin set-up is ideal for running shallow rapids and for maximum maneuverability, while the universal center fin box lets you attach a longer center fin (included) for added stability and tracking in deeper water. Psst- it works GREAT as a yoga board too! Backpack, two-way pump, gauge, repair kit and removable center fin all come standard.

LENGTH: 9'2" | WIDTH: 36" | THICKNESS: 6" | LEVEL: PERFORMANCE

TAO FIT 10' - SIC MAUI

The TAO Fit is all about stability, no matter where you are paddling. The hybrid hull offers a smooth, stable ride while the keeled nose cuts through chop and provides positive tracking. The flat deck offers the perfect platform for those looking for a board for yoga class or for the angler who wants to land the big one. A flat deck is also the perfect surface to keep your cooler, take your child or your dog for ride. This board is offered in Space Tech, which utilizes a polymer outer skin for impact resistance, and incredible durability. The TAO FIT 10' have multiple bungee tie downs for your bottle of water or PFD. The Ergo-Undercut handle makes for comfortable carrying. The TAO FIT 10' has inserts so you can equip your board with accessories. Available in both 10' and 11' lengths.

LENGTH: 10'/305 CM | WIDTH: 33"/84 CM | VOLUME: 195 L | WEIGHT: 28 LBS/13 KG | THICKNESS: 4.75"/12.1 CM | FIN: TOURING 9" | LEVEL: PERFORMANCE | MATERIAL: SPACETEC

Stand Up Paddle

BOARDS FISHING

BOARDS THAT HAVE BEEN DEVELOPED TO FIT THE NEEDS OF FISHING ENTHUSIASTS. THESE BOARDS ARE THICKER AND MORE STABLE, AND OFTEN COME WITH SPECIAL EQUIPMENT AND ACCESSORIES.

ROVER - BOTE

Rover evolved from the most innovative paddleboards on the planet, and it was designed as a paddleboard first. Its channeled, Deep-V nose design quietly slices through the water and paddles efficiently through a variety of water conditions. It's a stand up paddleboard. It's a microskiff. It's everything in between. No matter what you call it, one thing's for sure, it's a BOTE. The Rover's revolutionary modular Racs allow you to go from paddle to power in seconds. The most stable board we've ever created with a capacity up to 500 lbs, you can walk from rail to rail and nose to tail while maintaining complete control. BOTE has developed a platform like no other that will take you anywhere you want go.

LENGTH: 14' | WIDTH: 40" | WEIGHT: 10.5 | PADDLER WEIGHT RANGE: <500 LBS | LEVEL: PERFORMANCE

[HTTP://WWW.BOTEBOARD.COM](http://www.boteboard.com)

11'6 FISHER FIJI - INDIANA SUP

Fast and stable fishing inflatable board. Once anchored and the outriggers are pulled out, it becomes a really stable fishing platform. Thanks to the double layer construction it is very robust and stiff. Includes: One Honeycomb 8 Touring Fin, backpack with wheels, Double Action Pump, Repair Kit Specials, One Inflatable Outrigger with Fibreglass Carbon, Borika Mount. Shaper: Lianel Spengler.

LENGTH: 11'6/350 CM | WIDTH: 33"/83.8 CM | THICKNESS: 6/15 CM | VOLUME: 345 L | WEIGHT: 13 KG | PADDLER WEIGHT RANGE: <120 LBS | LEVEL: PERFORMANCE | MATERIAL: DROPSTITCH, PVC

[HTTP://WWW.INDIANA-SUP.COM](http://www.indiana-sup.com)

DRIVE FISHERMAN - SIPABOARDS

The SipaBoards Fisherman is a voluminous SUP, with tons of space for a cooler and a tackle box. The quiet motor will take you right to where the fish are biting without scaring them away. Dedicated rings can be used for dropping anchor, attaching nets, or whatever other accessories outdoor enthusiasts need.

LENGTH: 11'3/35 CM | WIDTH: 35"/90 CM | VOLUME: 310 L | WEIGHT: 37 LBS/17 KG | THICKNESS: 5.5"/14 CM | PADDLER WEIGHT RANGE: < 390 LBS/180 KG | LEVEL: HIGH END | MATERIAL: DOUBLE LAYER PVC DROPSTITCH

[HTTP://WWW.SIPABOARDS.COM](http://www.sipaboards.com)

HERON SUP - NRS

Dual 7" diameter side chambers act like outriggers to make the Heron an incredibly stable platform for fishing. Move around the board with ease to make pinpoint presentations or to land hard-fighting fish. We also give you three accessory mounts, bungee deck rigging up front, and infinitely adjustable rigging on the back for securing your cooler, tackle bag or milk crate. Inflates up to a rock-hard 20 psi for performance that rivals a hard board, then folds up compactly when deflated for easy transport and storage. Removable, interchangeable fins let you customize your setup and the ABS plastic fins absorb impacts without breaking. All NRS SUP boards are backed by a three-year warranty.

LENGTH: 11'0" | WIDTH: 40" | VOLUME: 326 LTR | WEIGHT: 30 LBS | THICKNESS: 6" | PADDLER WEIGHT RANGE: < 300 LBS | LEVEL: ENTRY LEVEL | MATERIAL: PVC DROP-STITCH

SUPER TRIP 12'2 - AQUAMARINA

One of the most appealing things about SUP is just how easy it is to do. There are not many active outdoor activities where the whole family can join in. Super Trip inflatable SUP extends the family fun to the next level with its extra length (370cm) and width (85cm). Designed for 2 adults + 1 kid, this family stand up paddleboard is perfect rig for lakes, seaside, and rivers. The Super Trip offers a perfect mix of quick, agile and stable and ideal for family use or for clubs.

LENGTH: 12'2/370 CM | **WIDTH:** 34"/87 CM | **THICKNESS:** 6"/15 CM | **VOLUME:** 415 L | **WEIGHT:** 27.6 LBS/12.5 KG | **MAX CAP:** <210 KG | **LEVEL:** PERFORMANCE

VOYAGER TANDEM - RED PADDLE CO.

The Tandem is tailored to the needs of two explorers who want to carry their kit along with them on their adventure. The 15' inflatable board includes all the technology and innovation that makes Red Paddle Co. boards popular. Red Paddle Co uses trademarked MSL fusion technology, which adds stiffness to the Tandem's structure while saving weight - important with such a long board. Adding MSL to our TecAir manufacturing process makes all our boards more durable and ensures they perform better.

LENGTH: 15'0 | **WIDTH:** 34"/864 MM | **VOLUME:** 723 L | **WEIGHT:** UP TO THREE RIDERS | **THICKNESS:** 8"/200 MM | **PADDLER WEIGHT RANGE:** 35KG-80 KG | **LEVEL:** HIGH END | **MATERIAL:** MSL DROPSTITCH TECHNOLOGY

HOVER FOIL - JIMMY LEWIS

The new sport of Foiling is here! We quickly realized that to be comfortable and get the most performance out of our foils we needed a new board specifically designed with ONLY foiling in mind. These shorter lengths allow for much better performance, maneuverability, and glide once on foil and the extra width through the full outline of the board, especially the tail, gives you incredible stability, paddling and tracking.

LENGTH: 7'9 | **WIDTH:** 32" | **VOLUME:** 130 L | **WEIGHT:** 7.2 KG | **THICKNESS:** 4.1" | **PADDLER WEIGHT RANGE:** 70-110 KG | **LEVEL:** HIGH END | **MATERIAL:** PVC SANDWICH

16'0 TANDEM LIMITED EDITION - INDIANA SUP

The Limited Edition 16' Tandem is the perfect match for couples who love to go stand-up paddling on the same board and who like to proceed fast. Two engines create more speed on one board than separated on two individual boards. And there is even enough space for the luggage you want to take on multi-day trips. Thanks to its fiberglass pressure belt on top and the Dyneema Triple Stringer tension flange at the bottom it's lightweight and very rigid at the same time. The loud colors and totem patterns give it a fresh look and certainly make any paddler happy who has missed the color in our plain SUP designs.

LENGTH: 16'0/487.7 CM | WIDTH: 34"/86.4 CM | THICKNESS: 6"/15 CM | VOLUME: 485 L | WEIGHT: 16 KG | MAX CAP.: <220 KG | MATERIAL: PVC, DROPSTITCH | LEVEL: PERFORMANCE

10'6 WINDSURF - INDIANA SUP

When there is no wind, the Windsurf 10'6 is an all-round SUP board. And when the wind blows, you mount a Touring Fin in the dagger board and thanks to the integrated M8 thread, any mast foot you like. Now the windsurfing fun can start!

LENGTH: 10'6/320 CM | WIDTH: 32"/82 CM | THICKNESS: 4.75"/12 CM | VOLUME: 243 L | WEIGHT: 10.8 KG | MAX CAP.: <100 KG | MATERIAL: PVC, DROPSTITCH | LEVEL: PERFORMANCE

[HTTP://WWW.INDIANA-SUP.COM](http://www.indiana-sup.com)

MEGA 18'1 - AQUAMARINA

This is what you need when you want to have loads of fun with your friends on a standup paddleboard. You can paddle with up to seven friends on this giant board, which has been tested in the toughest circumstance. The MEGA paddleboard can be used for a super amount of fun on surf, or on flat water and river tours.

LENGTH: 18'1/550 CM | WIDTH: 60"/152 CM | THICKNESS: 8"/20 CM | VOLUME: 1400 L | WEIGHT: 59.5 LBS/27 KG | MAX CAP.: <1433 LBS/650 KG | LEVEL: PERFORMANCE

[HTTP://WWW.AQUAMARINA.COM](http://www.aquamarina.com)

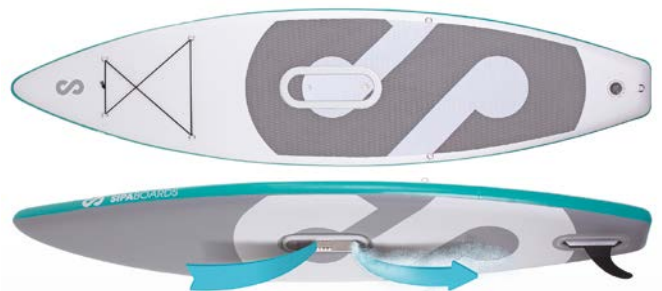

DRIVE CRUISER - SIPABOARDS

The SipaBoards cruiser is the original classic. Versatile enough for pure recreation and enjoyment, the sleek lines of the cruiser cut through the chop and keep the paddler on the water all day long. This is the perfect SUP to take you further, to show you what's around the bend, and to help you find that hidden spot.

LENGTH: 11'/335 CM | WIDTH: 32"/80 CM | THICKNESS: 5.5"/14 CM | VOLUME: 250 L | WEIGHT: 30.5 LBS/14 KG | PADDLER WEIGHT RANGE: < 265 LBS/120 KG | MATERIAL: DOUBLE LEVEL PVC DROPSTITCH | LEVEL: HIGH END

[HTTP://WWW.SIPABOARDS.COM](http://www.sipaboards.com)

HI LIFE - PERCEPTION KAYAKS

The Perception Hi Life 11.0 is your one stop shop for fun on the water. The Hi Life is an 11-ft kayak with smooth tracking and enough stability to paddle as a SUP. The super low profile is reminiscent of a paddleboard, but still provides a sturdy platform for kayaking. Perfect for a day trip, this SOT features a fold down seating system with a cooler storage area under the seat, a rear tankwell for additional storage, and a centre cup holder in front of the seat for easy access. Swim decks make exit and re-entry for kids and pets a breeze, and the track pads on the bow, midship, and stern help you keep your footing while paddling. Live it up with the Hi Life.

LENGTH: 11' / 335 CM | WIDTH: 34" / 86 CM | WEIGHT: 45 LBS / 21 KG | MAX. CAP.: 280 LBS / 127 KG | LEVEL: ENTRY LEVEL

[HTTP://WWW.PERCPTIONKAYAKS.COM](http://www.perceptionkayaks.com)

DRIVE ALL-ROUNDER - SIPABOARDS

The SipaBoards All-Rounder is meant for pure entertainment. Its strong and sturdy design will provide watersports lovers of all ages and experience levels with countless hours of fun. And as the perfect mobile diving board, this SUP is the perfect thing for those who want to spend as much time IN the water as ON it.

LENGTH: 11' / 335 CM | WIDTH: 35" / 90 CM | THICKNESS: 5.5" / 14 CM | VOLUME: 310 L | WEIGHT: 33.5 LBS / 15.5 KG | PADDLER WEIGHT RANGE: < 309 LBS / 140 KG | MATERIAL: DOUBLE LEVEL PVC DROPSTITCH | LEVEL: HIGH END

[HTTP://WWW.SIPABOARDS.COM](http://www.sipaboards.com)

11'6 PERFORMER WIND SUP - BIC SUP

Featuring a mastfoot track for attaching a windsurf rig as well as a retractable daggerboard, the 11'6" WIND SUP is a highly versatile and adaptable SUP/windsurfer for both windy and calm conditions. Its substantial volume and width offer excellent lateral stability without compromising performance. Volume is evenly spread throughout the board and its finely balanced rocker and longboard style outline make it easy to handle in flatwater conditions without reducing agility in the surf zone. The 11'6" is also a great choice for families looking to bring along the kids or pets. Shaped for novice riders up to 260lbs/120kg and will float more advanced paddlers up to 300lbs.

LENGTH: 11'6" / 350 CM | WIDTH: 32.5" / 82 CM | THICKNESS: 4.75" / 12.1 CM | VOLUME: 215 L | WEIGHT: 33 LBS / 15 KG | MATERIAL: ACE TECH | LEVEL: PERFORMANCE

SUP - LAHNAKOSKI

A beautiful light and warm SUP paddle made of aspen and alder. Combining respect for exacting traditional Finnish craftsmanship with carefully selected materials, modern technology and cutting-edge innovation produces the definitive paddle: handy, flexible and pleasant for both beginners and old hands. The SUP paddle does not sink. Due to its light colour and graceful shape, it is easy to see even if you are in the water rather than on it. The blade is bent 14 degrees in relation to the shaft to maximize paddling efficiency. Shaped handle, blade tip reinforced with a wedge. Finished with a special varnish. Made in Finland.

LENGTH: 170-220 CM | WEIGHT: 780-100 G | BLADE SIZE: 460 MM | MATERIAL: ASPEN AND ALDER | LEVEL: HIGH END

OCEAN PRO - SELECT PADDLES

Developed by Eric Terrien, the OCEAN PRO SUP paddle was designed to combine comfort, control and performance in the ocean environment. The OCEAN PRO is flawlessly efficient in raw water conditions, with a huge potential for accelerating in the bumps in downwind conditions, optimal control in crosswinds and choppy water; it is very comfortable to face headwinds. Thanks to all its qualities, the OCEAN PRO is also remarkable in technical races, facilitating the acceleration at the buoys, the wave handling and the passage of foams as well as the control of the board in chops created by the competitors. The OCEAN PRO is fitted with an oval shaft enabling easier tack changing moves. Available as a one piece or adjustable.

DRYSUIT RACE II - STANDOUT

This redesigned and modern looking race dry suit is made from extremely light waterproof, breathable, windproof three-layer material from Toyota Gelanots GT3. It is designed for every Stand Up Paddler who does not shy away from paddling even in adverse weather conditions while others start packing their boards. The zipper is put around the hips and not near around the shoulders, so we can allow a freest possible movement in the shoulder area. Since it is made for paddlers who will likely be more exposed to the water, the neoprene collar and cuffs on the arms and legs ensure that it is 100% waterproof. Specs: Waterproof 18.000 mm, Breathability 24.000 g/sqm, Windproof, Very light < 1kg (M size). Made in Slovenia.

MARATHON RACER - PEAK UK

A super-lightweight, waterproof and highly breathable jacket for SUP, marathon paddling and touring. The articulated cut gives superb freedom of movement, and the jacket features a drop tail, high front cut with elasticated drawcord waist. The neck is a half zip opening collar with baffle and the wrists are Aquaout Velcro closing seals. Off the water this hugely versatile jacket is also great for running, cycling and more.

SIZES: XS. S. M. L. XL. | COLORS: BLUE / LIME
[HTTP://WWW.PEAKUK.COM](http://www.peakuk.com)

RESTUBE SWIM - RESTUBE GMBH

The Restube Swim is your safety backup for the water. Thanks to thinner material it is lighter than the traditional version for even more freedom in the water. Available in bright colours it is an eyecatcher. If necessary, just pull the trigger and the Restube buoy inflates within seconds. Perfect for swimming in open water.

[HTTP://WWW.RESTUBE.COM/DE](http://www.restube.com/de)

RESTUBE LIFEGUARD - RESTUBE GMBH

RESTUBE lifeguard was developed in close cooperation with the SLRG (Swiss lifeguards) and lifeguards from DLRG (Germany), Wasserwacht (Germany) & RNLI (UK). Designed for professional use to rescue others, the RESTUBE Lifeguard is so small that you can always carry it with you. It also does not take a lot of space aboard your boat or in the car. RESTUBE is official "Safety Partner" and supplier of SLRG.

RESTUBE SPORTS - RESTUBE GMBH

RESTUBE sports - for rough use! RESTUBE is your security system in the water. Small and lightweight, it is easy to take anywhere. The RESTUBE inflates in seconds thanks to the integrated CO2 cartridge; simply pull the trigger firmly when needed. Use the buoy to keep your head above water and give you peace of mind. The robust pocket with its splint closing system and the exchangeable belt system can be mounted directly to the harness or worn around the waist. Designed to be tough enough for rough use, it is perfect for kite, wind and wave surfing or SUP.

[HTTP://WWW.RESTUBE.COM/DE](http://www.restube.com/de)

FREE 100 - SECUMAR

An inflatable rescue device for stand-up-paddlers, swimmers and all watersports on and in the water. The SECUMAR FREE 100 is a great back-up system that looks like a slightly fattish belt hiding a fully-fledged inflatable lifejacket buoyancy chamber (110 N) neatly folded inside. In case of emergency, the bladder can easily be pulled out of its pocket and placed directly over the head, the CO2 cylinder is then manually operated, inflating the lifejacket thereby stabilising the person in trouble. After stabilization, head and airways will remain above the water level.

PADDLER WEIGHT RANGE: > 40 KG

Whitewater

Whitewater kayaking is an exciting sport that involves paddling down rivers and rapids – from simple, gently moving water to demanding, challenging rapids. The sport encompasses a wide variety of disciplines, from creek boating to river running to play boating, and each offers different ways to appreciate the river. With so many approaches to choose from, there is a style of whitewater paddling for everyone. Whitewater paddling is becoming increasingly accessible to a wider population thanks to better equipment and improved designs.

Gear made specifically for kids, and in a wider range of adult sizes, has made whitewater paddling more appealing in recent years. Specified boat and gear designs have grown to meet the needs of each style of whitewater paddling. Creekboats tend to be larger volume with significant rocker, bulbous ends, and a more rounded hull. Playboats are generally shorter and smaller volume, often with a flat hull, slicey ends and sharp chines. River running boats generally utilize a blend of creekboat and playboat characteristics, aiming for a balance between stability and playability.

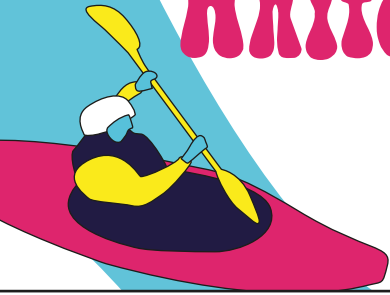

Boats, paddles, PFDs, and helmets are designed distinctly to cater to the specific demands of paddlers on all types of whitewater. Countless accessories also exist to make paddling easier, more comfortable, and more feasible in a variety of weather conditions.

BOATS CREEKING

HIGH STABILITY WHITewater KAYAKS DESIGNED SPECIFICALLY FOR RUNNING RIVERS AND STEEP CREEKS

DELTA V 73/88 - LIQUIDLOGIC

With this model we created a creek boat that will behave very well in any situation. The paddler will get the feeling that the DELTA V is taking care of them while on the water. With soft edges, smooth Braaap inspired rocker and a shorter platform, the DELTA V allows the paddler to go anywhere their intended line takes them. The Delta V also features a unique stern "Turbo Booster" design which accelerates the kayak forward when engaged after a drop. Combine this with the nimble and intuitive feel which allows the boat to make difficult maneuvers seem effortless and you have one powerful design. Simply put, this creek boat will have entry level paddlers falling in love with it immediately, and top paddlers choosing it every time they are pushing the boundaries of the sport.

PHANTOM - DAGGER

The Phantom is the latest high-performance model to join the ranks of the Mamba, The Green Boat and the Nomad, and has already won numerous short boat class podiums even before its launch. The Phantom stays high-and-dry on the water, yet still carries its speed through holes and away from drops, and achieves the perfect balance of tracking and maneuverability with the ability to rapidly change direction when on edge. The volume of the Phantom has been optimized for both performance and fit with sizing that can accommodate various paddler heights and sizes.

NIRVANA - JACKSON KAYAK

The Nirvana creek boat makes you faster, more confident, and lets you paddle through rapids with more control than ever before. A dry bow keeps you on top of holes and waves and the nimble feeling while maneuvering assures that you stay on your line in the hard rapids. Racers will be delighted to paddle this boat as it, unlike most racing kayaks in the 9' range, is easy to paddle and confidence inspiring, and the speed of it is mind-boggling. If you want a river running/creek boat that takes the rapids down a grade, the Nirvana is your boat!

9R II MEDIUM - PYRANHA

In 2014, the 9R created a whole new category of creekboat; in 2018, the 9R II will take that category to the next level. A second, full-sized handle on the bow increases boat handling and rescue versatility, while an open stern handle recess and raised peak prevent pressure build-up on the rear deck. The balance of the stern width and bow rocker profile has also been tweaked to carry more lateral speed out of drops, and the stern sidewalls softened to improve manoeuvrability and make the boat more forgiving on confused water. #FastIsNowEvenMoreFun

BLACK JACK - SPADE KAYAKS

NEW
2018

No matter if you are a beginner, intermediate or expert, Spade Kayaks new toy is your "Jack of all Trades." The tips of the boat seem slicy, but are still high volume due to their width. The Jack allows the paddler to turn the boat effortless with only a sweep stroke, paddle precise lines in big volume, but also stay high and dry over steep drops. Without edging it seems to run independently form cross currents, but presents a dynamic edge performance even with modest lean angles. A flat bottom and a pronounced rail deliver dynamic reactivity even on mellower waters. The fully integrated seat-rail-tower combo enables ergonomic seating ever over long periods on the water.

LENGTH: 256 CM | WIDTH: 66 CM | VOLUME: 285 LITRES | WEIGHT: 20 KG | PADDLER WEIGHT RANGE: 60-85 KG | MAX. CAP.: 90 KG | LEVEL: PERFORMANCE | COLORS: YELLOW, LIME GREEN
[HTTP://WWW.SPADEKAYAKS.COM](http://www.spadekayaks.com)

SPY 260 - DAG

This versatile river runner was designed to satisfy the dynamic paddler. It is an all-terrain river kayak, suitable for paddlers of all levels and all types of rivers. The SPY is also acclaimed by kayaking clubs for use initiating new paddlers in sessions on calm waters. Larger people will appreciate its comfort and its generous cockpit. Maximum paddler weight: 110 kg.

LENGTH: 260 CM/8.5' | WIDTH: 64 CM/25.2" | WEIGHT: 20 KG/44 LBS | MAX. CAP.: 110 KG/242.5 LBS | LEVEL: ENTRY LEVEL
[HTTP://WWW.DAG-KAYAK.COM](http://www.dag-kayak.com)

ACE OF SPADES - SPADE KAYAKS

The Ace of Spades feels just as good in steep water as it does on high-volume rivers. The boat is forgiving, fast, light footed, and agile. It accelerates with little effort and retains speed over drops and holes while keeping true to the line. The boat's shell is made of high-density thermoplastic that is blow-molded at high pressure, which makes the Ace of Spades stiffer and firmer than a boat manufactured by rotational moulding. The footrest, thigh braces, seat, hip pads and backrest are all tailored to the ergonomics of a paddler for an untiring day on the river. The Ace is available in 2 outfitting versions: "Pro" and "Whitewater."

LENGTH: 265 CM | WIDTH: 67.5 CM | VOLUME: 320 L | WEIGHT: PRO: 22.5 KG, WW: 22 KG | PADDLER WEIGHT RANGE: 65-110 KG | LEVEL: HIGH END | COLORS: BURNT ORANGE
[HTTP://WWW.SPADEKAYAKS.COM](http://www.spadekayaks.com)

GRANATE CREEK - LETTMANN

There is nothing left to say. The Granate speaks for itself. Triple Sickline winner and two-time KanuMagazin Readers choice winner, the Granate is one of the most popular kayaks in the world. The fast hull and the smooth edges make the Granate a forgivable kayak for beginners, while experienced kayakers love the easy way the Granate boofs and allows control even the wildest torrents. The current generation comes with an innovative new footplate that makes the Granate safer still.

SIZES AVAILABLE: GRANATE M, GRANATE L, GRANATE XL | LENGTH: 254, 260, 269 CM | WIDTH: 63, 65, 67 CM | VOLUME: 270, 310, 350 LITRES | WEIGHT: 20, 21.5, 22.5 KG

SPY 235 - DAG

DAG is back in the world of the river with the SPY 235, a creekboat for jigs up to 75 kg. The Spy 235 is stable, secure, fast, and controllable even in larger volume. It comes equipped with two front and rear handles, and also three stainless steel safety handles: one on the front deck, two on the deck behind the coaming. The back splash is reinforced and is far more rigid than the back stiles used previously.

LENGTH: 235 CM/7.7' | WIDTH: 65 CM/25.6" | WEIGHT: 19 KG/41.8 LBS | MAX. CAP.: 110 KG/242.5 LBS | LEVEL: ENTRY LEVEL

BOATS RIVER RUNNING

OFFERING THE STABILITY OF A CREEKBOAT WITHOUT LOSING THE ABILITY TO STOP AND PLAY A BIT ALONG THE WAY. THESE MAKE GREAT BEGINNERS BOATS TOO.

MAMBA ACTION - DAGGER KAYAKS

An all-river kayak developed for modern technical paddling. The fast planing hull and precise rail profile deliver outstanding drive, with volume positioned to inspire confidence. With Contour Life outfitting for control and comfort, the Mamba Action takes your whitewater paddling to the next level.

SIZES: 7.6, 8.1, 8.6 | **LENGTH:** 231 CM, 246 CM, 259 CM | **WIDTH:** 65 CM, 68 CM, 70 CM | **VOLUME:** 242 L, 292 L, 337 L | **WEIGHT:** PADDLER WEIGHT RANGE: 54-77 LBS, 68-100 LBS, 79-118 LBS

[HTTP://WWW.DAGGER.COM](http://www.dagger.com)

ZEN - JACKSON KAYAK

The 2015 Zen bridges the gap between river runner and creek boat for a new tier in speed and performance. The sidewalls are higher than the previous model for improved stability. The added volume and bow rocker keep you higher on the surface. The Zen has held onto its fast, light maneuverability but now allows you to fly up and over rocks, holes and waves better than ever. Fast, stable and more versatile than ever: an awesome instructional kayak and top creek racer, whether you are looking for a forgiving, easy to roll all around kayak or wanting a sporty river runner that surfs as well as it creeks, the 2015 Zen is for you. Available in three sizes: S, M, L.

SIZES AVAILABLE: ZEN S, ZEN M, ZEN L | **LENGTH:** 8'2, 9' | **WIDTH:** 24.75, 27 | **VOLUME:** 68, 89 G | **WEIGHT:** 38.5-48 LBS | **PADDLER WEIGHT RANGE:** 90-250 LBS

DIESEL - WAVE SPORT

Point A to Point B and all points in-between. River running is half white-knuckle big water, half technical and all fun. And it's our job to keep it that way. You need a kayak that deals with any situation Mother Earth throws at you. Meet the SUV of river running. Runs rapids like a fast creekboat with a hull that will also spin on green waves. It is no wonder the Diesel is called the 4x4 of kayaks. Peaked deck for resurfacing – check. A honed combination of planing hull and continuous rocker for ultimate agility – check. Premium CORE WhiteOut outfitting – check. Also available with our trusty BlackOut Outfitting.

SIZES: DIESEL 60, DIESEL 70, DIESEL 80 | **LENGTH:** 244 CM | **WIDTH:** 65 CM | **VOLUME:** 265 L | **WEIGHT:** 18 KG | **PADDLER WEIGHT RANGE:** 54-86 | **LEVEL:** PERFORMANCE |

REMIX 69 - LIQUID LOGIC

With the help of dozens of instructors, we designed the Remix series to carve, to glide and to provide beginners, intermediates and experts with that age old rush that comes with speed. Perfect for novices and instructors excited about rolling and proper eddy turns, big water junkies wanting to safely push their limits or experienced racers looking to cash-in, the Remix combines the clear advantages of a relatively narrow and longer hull platform with modern chine placement to create an unrivaled comfortable, stable and responsive package.

LENGTH: 8'8/264 CM | **WIDTH:** 25.5"/65 CM | **VOLUME:** 69 G/261 L | **WEIGHT:** 44LBS /20 KG | **COCKPIT LENGTH:** 33"/86 CM | **COCKPIT WIDTH:** 20"/51 CM | **ROCKER BOW:** 13"/33 CM | **ROCKER STERN:** 10"/25 CM | **PADDLER WEIGHT RANGE:** 140-220 LBS/64-100 KG

RPM ACTION - DAGGER KAYAKS

The Radical Play Machine was first released in 1996 when rodeo kayaking exploded in popularity – at the time it was considered too radical. We have been making RPMs ever since. The secret to its continued appeal? The RPM is a fantastic river runner, which brings your home run alive with slalom moves, front surfs and stern dips. Now available in Action spec, the RPM and RPM Max are ready to get rad.

SIZES: RPM, RPM MAX | LENGTH: 272 CM, 279 CM | WIDTH: 60 CM, 65 CM | VOLUME: 228 L, 284 L | PADDLER WEIGHT RANGE: 50-100 KG, 80-115 KG

MIXMASTER - JACKSON KAYAK

Meet the new playmaster of the river! It slices and dices every drop of water with a super-low volume, high-performance bow and stern. The ride of the Mixmaster is from a bygone era, but this new and improved design, now mixed with better ergonomics, hull shape and overall package brings retro to modern! If you thought you could never squirt, flatwater cartwheel, bow or stern stall a boat before, think again. The MixMaster is the ultimate learning tool for those who just need something easier. If you have pre-existing skills, this is the ultimate mix of wave, hole, flatwater and eddy line fun. Two sizes will cover most paddlers. You too will be a MixMaster with this boat! **SHIPPING FEBRUARY 2018**

SIZES: MIXMASTER 7, MIXMASTER 7.5 | LENGTH: 6'11, 7'3 | WIDTH: 23.75", 25.5" | WEIGHT: 29 LBS, 32 LBS

2018

PLAN B - LETTMANN

The first plan B was introduced in 1999 for the kayak rodeo world championships in New Zealand. It was never made in Polyethylene but in our hearts we always knew that one bright day it would happen. Now our dreams came true. With more room for your feet, forgivable edges and more space in the cockpit, the Plan B 2016 is ready to play the rivers. As a radical but smooth river runner you can run your favorite class IV home run or have tons of fun on class two. Rocksplats, surfs, spins, blunts, cartwheels, boofs... everything is possible. Make the river become your playground!

LENGTH: 235, 240 CM | WIDTH: 64, 66 CM | VOLUME: 200, 220 L | WEIGHT: 16, 17 KG | LEVEL: HIGH END | SIZES: M, L

[HTTP://WWW.LETTMANN.DE](http://www.lettmann.de)

Z.ONE - PYRANHA

Enthusiasm for kayaking and playing the river is at the core of the Pyranha ethos, and the Z.One embodies these qualities entirely by not only being an excellent learning platform for beginners keen to get in to whitewater, but also offering exceptional fun to the intermediate or expert paddler wanting to inject some excitement into familiar runs. Pedigree from the award winning InaZone with modern comfort and safety features mean that experienced kayakers will enjoy the familiar performance, and all levels of paddler can concentrate on pushing their limits and learning new moves without a worry.

LENGTH: 257CM | WIDTH: 65CM | VOLUME: 210L | WEIGHT: 17.1KG | PADDLER WEIGHT RANGE: 65 - 95KG | MAX. CAP.: 95KG | LEVEL: HIGH END | SIZES: S, M, L

[HTTP://WWW.PYRANHA.COM](http://www.pyranha.com)

MULLET - LIQUIDLOGIC

You asked for a fast river runner that could play the eddy lines and seams along the way. The Mullet is all business up front, with plenty of rocker, and volume in the bow to boof, ender, and surge up and over obstructions, which also means plenty of foot room for you big ole' boys. The low volume stern says ready to party. Squirt, splat, blast, and surf just about any feature as you slice your way down the river. Like its cousin, the Braap, the Mullet adopted its hull shape from modern slalom boat design. The kick rocker behind the seat lets the Mullet tilt back for quick pivots and snap carving turns into eddies. Whether you're learning the "oldskool" moves or you already know your way around an eddy line, this boat will become your go-to design.

LENGTH: 274 CM/9" | WIDTH: 67 CM/26.25" | COCKPIT LENGTH: 88 CM/34.5" | COCKPIT WIDTH: 53 CM/20.75" | VOLUME: 269 L/71 G WEIGHT: 20.4 K/45 LBS | PADDLER WEIGHT RANGE: 68-125 KG/150-275 LBS

[HTTP://WWW.LIQUIDLOGIC.COM](http://www.liquidlogic.com)

PARTY BRAAAP - LIQUIDLOGIC

The Braap has been a huge success. Paddlers love the speed, agility, and river running performance that the rocker profile and slalom hull design has exposed. The one thing that some paddlers have asked for in the Braap is a more playful stern that engages the water dynamically. Automatic for the People! We now have the PARTY BRAAAP. The Party Braap has the exact same hull and bow design as the Braap. The difference is that we sucked 2.5 gallons of volume out of the stern deck making it concave. That significant drop in volume makes the PB a stern squirting, wall splatting, surfing machine while still being a pinpoint accurate river runner. Now you have a choice: a more full volumed performance river runner in the Braap or a more playful river runner in the Party Braap!

LENGTH: 271.8 CM/8'11" | WIDTH: 62.2 CM/24.5" | COCKPIT LENGTH: 87.6 CM/34.5" | COCKPIT WIDTH: 53 CM/21" | VOLUME: 253.6 L/67 G | WEIGHT: 20 KG/44 LBS | PADDLER WEIGHT RANGE: 45-100 KG/100-220 LBS

[HTTP://WWW.LIQUIDLOGIC.COM](http://www.liquidlogic.com)

ANTIX - JACKSON KAYAK

Introducing Jackson Kayak's Antix! A new creeking/river running kayak that is fun, easy to paddle, runs the river like a dream, and allows for continual play all the way down! Taking your time running rivers has never been more fun as you take advantage of every river wave, hole, splat rock, eddy line, and pillow to your hearts content. The Antix turns quickly, squirts, spins, splats, and freewheels like a dream. The Antix is forgiving, helping you to cross comfort barriers and has you learning to do more each time you are on the water. The Antix's hull makes it an easy kayak to roll, though its forgiving lines help keep you upright as you reach the next level in your river running and play! Available in three sizes - small, medium and large.

SIZES: ANTIX S, M, L | LENGTH: 7'9" - 81" | WIDTH: 26.25" | VOLUME: 63.5 - 72.5 G | PADDLER WEIGHT RANGE: 80 - 250 LBS

[HTTP://WWW.JACKSONKAYAK.COM](http://www.jacksonkayak.com)

FUN - JACKSON KAYAK

The FUN was Jackson Kayak's first ever whitewater kayak! In 2015 we returned to the core of what made this kayak the best selling Jackson Kayak of all time: FUN! The hull design returns the paddler to the roots of what fun on whitewater is: river running, surfing, squirting, cartwheeling and more. The updated hull has forgiving parting lines, lots of legroom and a sleek style. The bow rocker keeps your bow on the surface, while the stern rocker is smooth and subtle for better tracking, surfing and maneuverability. A great transitional kayak for those wanting to spend more time playing than before, or those who want to learn to surf, the Fun is capable of easing beginners into freestyle and is a great skill-developing kayak for intermediates and experts. Available in three sizes, the 2 Fun, Fun, and 4 Fun.

SIZES: 2 FUN, FUN, 4 FUN | LENGTH: 6'7"-7'2" | WIDTH: 24.5-26.5" | VOLUME: 51-67 G | WEIGHT: 28-35 LBS | PADDLER WEIGHT RANGE: 110-230 LBS

[HTTP://WWW.JACKSONKAYAK.COM](http://www.jacksonkayak.com)

MAIN SQUEEZE - SOUL

Not everyone wants to be a world champion freestyle kayaker. For many, kayaking is simply about enjoying the river. Big volume rivers, or small rocky ones. Rivers with giant racing waves, or small pourover ledges. Jump in a hole, and it'll cartwheel and loop. Jump on a wave and it'll blunt and helix. Jump on a fun little class 3-4 creek and you're looking at every splat rock like you're going on a smear campaign! Stable and easy to paddle, it rolls like a charm, spins effortlessly, is comfortable and performing. It'll be your go-to boat - your Main Squeeze - that you take every time you go

LENGTH: 6'10"/208 CM | WIDTH: 25"/63.5 CM | VOLUME: 56 G/212 L | WEIGHT: 33 LBS /13 KG | PADDLER WEIGHT RANGE: 140-240 LBS/64 KG-108 KG | LEVEL: HIGH END

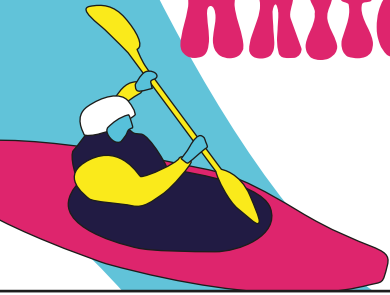

[HTTP://WWW.SOULWATERMAN.COM](http://www.soulwaterman.com)

Whitewater

BOATS FREESTYLE

REPRESENTING THE MOST ADVANCED DESIGNS FOR DOING TRICKS ON WAVES OR IN HOLES.

MOBIUS - WAVE SPORT

Our freestyle machine is short and fast with forgiving qualities that allow beginners to the sport to learn and progress quickly, while offering seasoned competitors an experience they too will appreciate. Between the rounded edges, the sculpted sidewalls, and the soft curvature of the bow, this predictable design makes loops, mcstays and phonix monkeys easy to initiate. It is extremely loose and fast on waves, featuring a continuous rocker profile and a stern release edge that allows quick acceleration down a wave. Features our WhiteOut outfitting - also available in a custom Carbon version.

LENGTH: 173 CM | WIDTH: 67 CM | VOLUME: 216 L | WEIGHT: 14.5 KG | PADDLER WEIGHT RANGE: 59-91 KG | LEVEL: PERFORMANCE | SIZES: MOBIUS 49, MOBIUS 57, MOBIUS 65, MOBIUS CARBON

[HTTP://WWW.WAVESPORT.COM](http://www.wavesport.com)

MOBIUS CARBON - WAVE SPORT

Whether you're kickflipping a mid-rapid wave or snapping a nasty airblunt, it's all about you. You and the water. The Mobius is designed to release your full potential. Find a river and claim your wave. Our most technically driven freestyle hull is now available with advanced composite performance. The Mobius Carbon was born from the Mobius 57 and is an infusion of Carbon and Aramid. The jaw dropping design shows off the carbon material over several panels across the kayakers deck and hull. Two further areas of custom colour panels then complete the striking look and offer the paddler a choice of personalisation from a colour palette of 30 options.

LENGTH: 178 CM | WIDTH: 69 CM | VOLUME: 222 L | WEIGHT: 9-11 KG | PADDLER WEIGHT RANGE: 59-91 KG | LEVEL: HIGH END

[HTTP://WWW.WAVESPORT.COM](http://www.wavesport.com)

JED M - PYRANHA

The Jed isn't like the others; it's longer than its competitors, allowing a more fluid distribution of volume and comparatively slicy ends for easier trick initiation. Extra length makes the Jed faster on a wave and smoother on end in a hole. A unique 'V-Chine' in the stern frees up the back end for spins and edge transitions while surfing and adds to the dynamic speed on a wave. Smooth transition of volume to the core of the boat produces incredible pop in a hole and smooth lines over all give an obscenely fast and aggressive ride on any wave.

LENGTH: 180 CM | WIDTH: 65 CM | VOLUME: 208 L | WEIGHT: 12 KG | PADDLER WEIGHT RANGE: 55 - 90 KG | MAX. CAP.: 90 KG | LEVEL: PERFORMANCE | SIZES: S, M, L

[HTTP://WWW.PYRANHA.COM](http://www.pyranha.com)

ROCKSTAR - JACKSON KAYAK

The new RockStar is narrower, faster, looser, easier to take off hull is the platform that everything is built on. Easy edge to edge transfers are reminiscent of the 2010 All-Star/ Super Star, combined with massive air capabilities and smooth, predictable surfing makes it a ridiculously fun boat to paddle. We took extra time in the development of this deck as well to make sure that we had a rock solid knee position, and increased performance for moves in holes and flatwater. The ends of this boat are slicey and easy to get under the water, making cartwheels, stalls, and linking moves together easier than ever before. Play boating in general will be a joy if you are just learning your first tricks, or you want to win the next World Championships, or just show off to friends.

LENGTH: 5'5-5'11 | WIDTH: 26-27" | VOLUME: 48-63 G | WEIGHT: 26-31.5 LBS | PADDLER WEIGHT RANGE: 110-260 LBS | SIZES AVAILABLE: ROCKSTAR XS, ROCKSTAR S, ROCKSTAR M, ROCKSTAR L

Whitewater

BOATS CROSSOVER

WITH PLENTY OF STORAGE AND EASY ACCESS TO GEAR, THESE BOATS ARE PERFECT FOR MULTI-DAYS ON ANYTHING FROM CRUISEY CLASS 1 TO MEDIUM WHITEWATER.

FUSION II LARGE - PYRANHA

Combine whitewater and touring to create bigger adventures. The market-leading crossover kayak has been updated for 2018; the combination of a moderate length waterline, balanced rocker profile, and retractable skeg mean you can be fast on the flat and manoeuvrable on the river. Features include: drain bung for easy emptying of the cockpit area - Improved paddle park for more secure storage when relaxing, fishing, or taking photos - Spacious hatch for overnight adventures - New action camera mount - Optional RAM Mount accessory rails - Optional bow pod hatch.

LENGTH: 312 CM | WIDTH: 69 CM | VOLUME: 366 G | WEIGHT: 23 KG | PADDLER WEIGHT RANGE: 80-130 KG | SIZES: S, M, L | LEVEL: PERFORMANCE

[HTTP://WWW.PYRANHA.COM](http://www.pyranha.com)

KATANA ACTION - DAGGER KAYAKS

Get all the excitement of whitewater with the freedom to paddle further. The Katana will take on rapids and glide through calm water, with plenty of room in the stern for gear and robust outfitting for everyday use.

SIZES: 9.7, 10.4 | LENGTH: 292 CM, 315 CM | WIDTH: 65 CM, 69 CM | VOLUME: 299 L, 393 L | PADDLER WEIGHT RANGE: 68-102 KG, 79-136 KG

[HTTP://WWW.DAGGER.COM](http://www.dagger.com)

TRAVERSE 9 - JACKSON KAYAK

To quote Tosh Arwood, head of NOC's instruction programs: "It's exciting to imagine a crossover that has the heritage of the Karma and Karma UL." The Traverse series may look more whitewater-oriented than the Rogues but still maintains stability and user friendliness for beginners. With a similar hull profile, look, parting lines, and rocker similar to the Karma, the Traverse is just stretched out a bit for a longer, more versatile boat. Feature rich! A day hatch with pod, possible short recessed YakAttack rail beside cockpit, etc, sets the Traverse apart from competition. Primarily targeted to the novice to intermediate paddler, the Traverse can double as a multi-day trip for advanced paddlers who want a shorter and more nimble boat. Replacing the soft hatch with the optional implosion-proof "Hard Hat" rear hatch-cover accessory makes the Traverse truly expedition-ready.

LENGTH: 9'8" | WIDTH: 25.5" | VOLUME: 86 G | WEIGHT: 48 LBS | PADDLER WEIGHT RANGE: 110-180 LBS | SIZES: TRAVERSE 9, TRAVERSE 10 | LEVEL: HIGH END

[HTTP://WWW.JACKSONKAYAK.COM](http://www.jacksonkayak.com)

TRAVERSE 10 - JACKSON KAYAK

The KARMA TRAVERSE mates a stretched, slightly wider version of the highly acclaimed Karma with unique features to make for one of the most versatile kayaks ever. While the Traverse will handle whitewater with ease, its longer waterline and retractable skeg make for less effort when knocking out miles of flatwater. Yakattack rails allow for attachment of all sorts of accessories. Full JK whitewater outfitting including the Unishock footrest system and an optional implosion-proof "Hard Hat" rear hatch cover make the Traverse truly expedition-ready. Two sizes, the 9 and 10, will fit paddlers of almost any size or ability. One boat for many waters and many uses...the Traverse.

LENGTH: 10'4" | WIDTH: 27" | VOLUME: 102 G | WEIGHT: 52 LBS | PADDLER WEIGHT RANGE: 165- 315 LBS | SIZES: TRAVERSE 9, TRAVERSE 10 | LEVEL: HIGH END

[HTTP://WWW.JACKSONKAYAK.COM](http://www.jacksonkayak.com)

KARMA RG - JACKSON KAYAK

"RG" - (Rock Garden, River Expedition): Based on the highly successful Karma UL, the Karma RG is a play boat for the ocean...and an expedition boat for extended whitewater and mixed water ventures. It's a blast for paddling in rock gardens, exploring sea caves, running pourovers and surfing ocean waves. Featuring the same hull as the Karma Unlimited, the RG is at home even on difficult whitewater. With its standard stern hatch/bulkhead and skeg, storing gear for extended river trips is a breeze. Full Jackson whitewater outfitting including the unique Unishock bulkhead footrest system comes standard, as does the most playful hull in the whitewater "longboat" category.

LENGTH: 11'10" | WIDTH: 25" | VOLUME: 94 G | WEIGHT: 56 LBS | PADDLER WEIGHT RANGE: 110-325 LBS

[HTTP://WWW.JACKSONKAYAK.COM](http://www.jacksonkayak.com)

REMIX XP 10 - LIQUIDLOGIC

It is often said that there is a gap in kayak design, that no 'one' kayak excels in whitewater yet carries speed across flat calm lakes and slow moving rivers- that is until now. The Remix XP was designed to bridge the gap between the two once and for all. The Remix XP is an extension of our popular river runner series and although its roots are firmly planted in whitewater the XP's extended waterline allows it to cruise the flats with ease. The XP has an integral skeg which when deployed offers superb tracking but with the skeg tucked away the XP offers the agility needed to excel on whitewater.

LENGTH: 312 CM/10'3" | WIDTH: 71 CM/28" | COCKPIT LENGTH: 97 CM/38" | COCKPIT WIDTH: 55 CM/21.5" | VOLUME: 397 L/105 G | WEIGHT: 22 KG/49 LBS | PADDLER WEIGHT RANGE: 82-136 KG/180-300 LBS

[HTTP://WWW.LIQUIDLOGIC.COM](http://www.liquidlogic.com)

ETHOS (BLACKOUT) - WAVESPORT

The ultimate crossover platform with more white water performance attributes than other designs in its category. The Ethos is fitted with our full whitewater foot brace system and has a whitewater focused rocker profile and progressive chines that bring outstanding speed and control. The hull is manoeuvrable in rapids, yet tracks well on flat water with the help of a drop down skeg system.

SIZES: ETHOS NINE, ETHOS TEN | LENGTH: 291 CM, 312 CM | WIDTH: 65 CM, 69 CM | VOLUME: 303 L, 379 L | WEIGHT: 22 KG/24 KG | PADDLER WEIGHT RANGE: 41-91 KG, 68-118 KG | LEVEL: PERFORMANCE

REBEL 11.3 DURATOUGH - SILVERBIRCH CANOES

The Rebel is a modern 11ft whitewater canoe, just as capable on big volume grade IV as it is on shallow braided streams and flats. The Rebel excels with a wide variety of loads - making it ideal for use on longer trips where you may not only have significant gear to take, but a continually lightening load as the trip goes on. The Rebel 11 'sits' naturally on the rail, and has massively boosted secondary stability making it an easy to paddle and confidence inspiring canoe. Made from Duratough Construction - a thickness optimised single-layer hull made of the toughest and most durable polymer we can find. It is maximised for impact resistance and stiffness and continually tested, both in the lab and by our brand ambassadors around the world.

LENGTH: 3480 MM/11'4" | WIDTH: 686 MM/27" | WEIGHT: DURATOUGH, ASH GUNWALES: 24.75 KG | PADDLER WEIGHT RANGE: 70-130 KG/154-268 LBS | LEVEL: HIGH END

[HTTP://WWW.SILVERBIRCH.COM](http://www.silverbirch.com)

COVERT 10.5 SOLO DURATOUGH - SILVERBIRCH CANOES

Possibly the biggest surprise in our range! The Covert 10.5 excels as a solo boat. Whether you need a little extra float, want to take additional gear with you for multi-day trips, or just want a more relaxed feel to your white-water canoeing - the 10.5 will deliver time and time again! Proven on a huge variety of water types around the world, the Covert 10.5 solo is fast becoming a firm favourite. Made from Duratough Construction - a thickness optimised single-layer hull made of the toughest and most durable polymer we can find. It is maximised for impact resistance and stiffness and continually tested, both in the lab and by our highly abusive brand ambassadors around the world.

LENGTH: 3200 MM/10'6" | WIDTH: 775 MM/30.5" | WEIGHT: DURATOUGH/ ASH GUNWALES: 26.75 KG | PADDLER WEIGHT RANGE: 90-210 KG/195-465 LBS | SIZES: COVERT 9.3, COVERT 10.5 SOLO, COVERT 10.5 TANDEM | LEVEL: HIGH END

[HTTP://WWW.SILVERBIRCH.COM](http://www.silverbirch.com)

COVERT 10.5 TANDEM DURATOUGH - SILVERBIRCH CANOES

Sometimes a boat's development exceeds your wildest expectations. This was the case with the Covert tandem! From its progressive rocker profile which makes it almost effortless to boof, to its flared sidewall profile which gives great secondary stability in the most turbulent of waters - the Covert 10.5 tandem just works! Designed with a footprint and volume suitable for two generously sized adults yet still manoeuvrable and nimble enough to make the tightest of eddies on the smallest of rivers. Made from Duratough Construction - a thickness optimised single-layer hull made of the toughest and most durable polymer we can find. It is maximised for impact resistance and stiffness and continually tested, both in the lab and by our highly abusive brand ambassadors around the world.

LENGTH: 3200 MM/10'6" | WIDTH: 775 MM/30.5" | WEIGHT: DURATOUGH/ ASH GUNWALES: 26.75 KG | PADDLER WEIGHT RANGE: 90-210 KG/195-465 LBS | SIZES: COVERT 9.3, COVERT 10.5 SOLO, COVERT 10.5 TANDEM | LEVEL: HIGH END

[HTTP://WWW.SILVERBIRCH.COM](http://www.silverbirch.com)

COVERT 9.3 - SILVERBIRCH CANOES

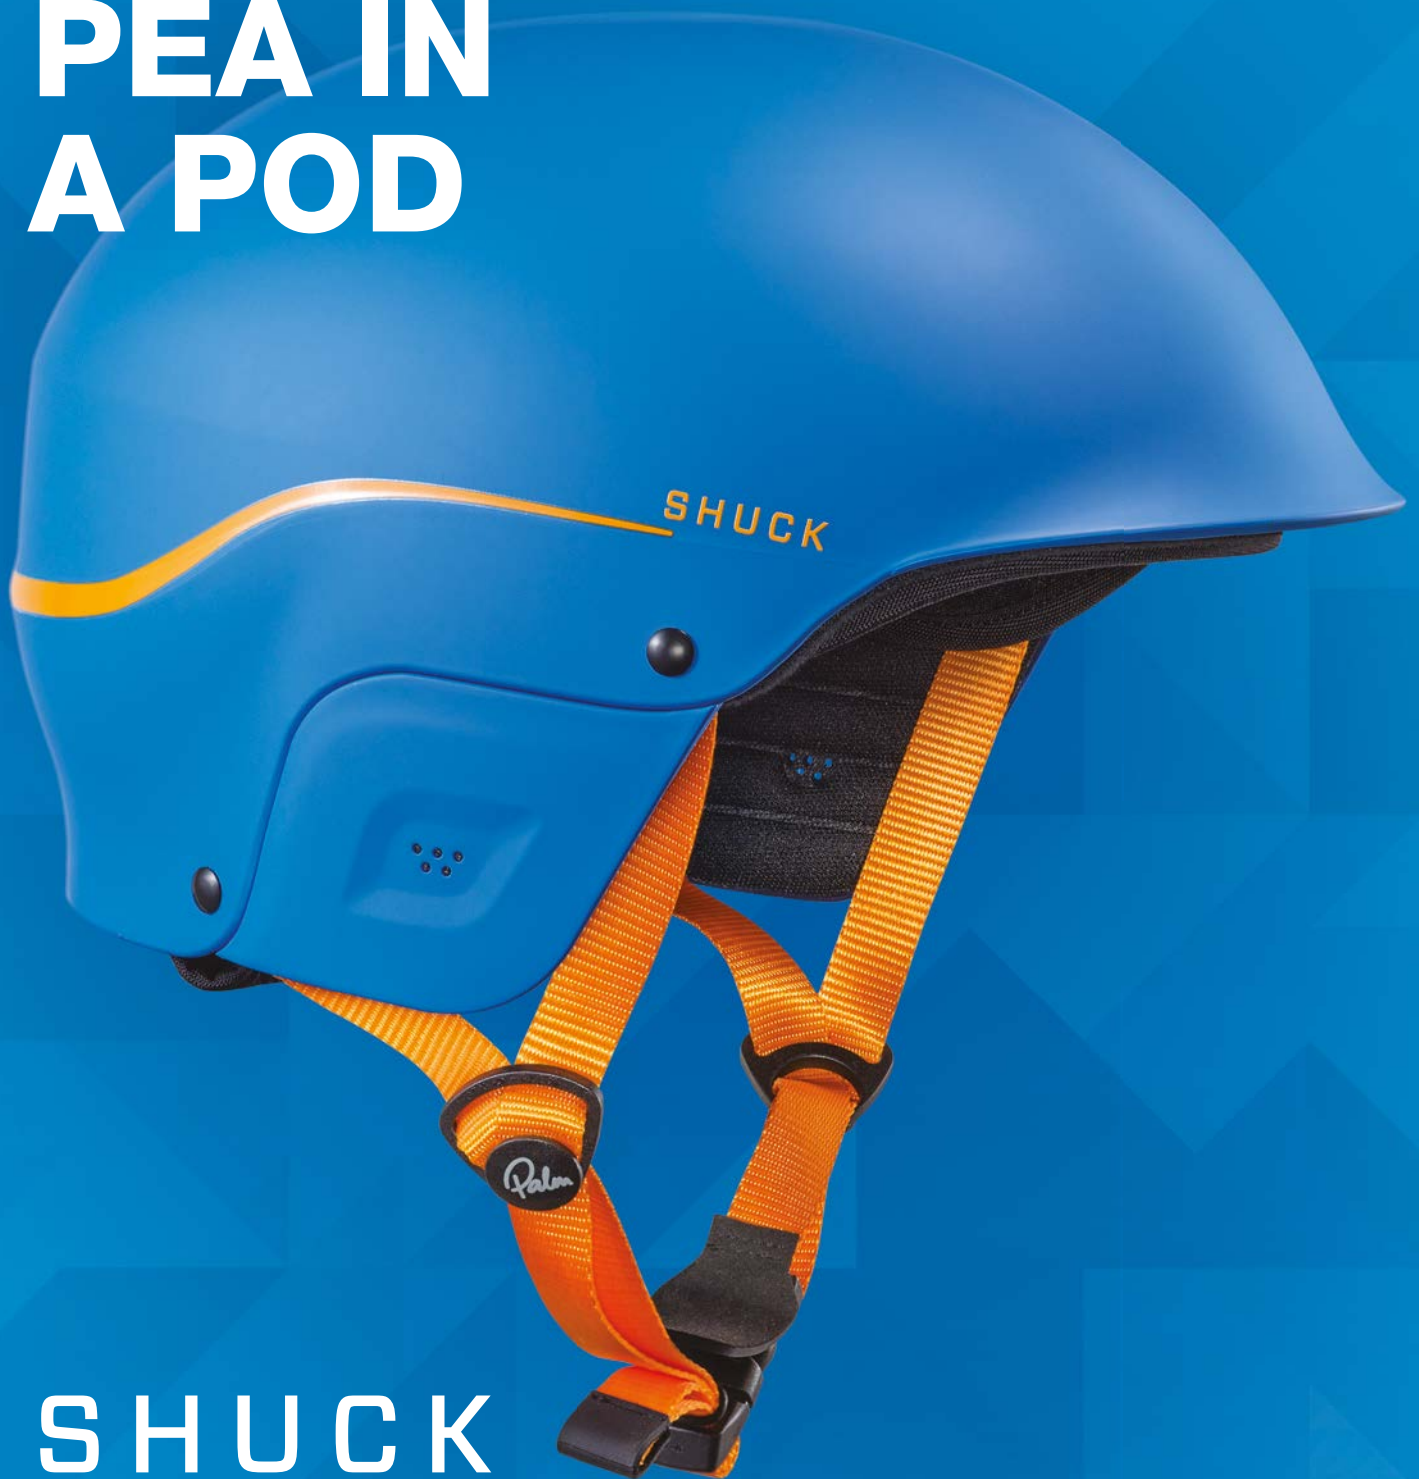

Nothing was off limits and nothing was pre-set - we simply sat down in our shaping bay with a blank piece of paper and one simple brief - create the fastest, most manoeuvrable, and most predictable Open Canoe possible. At the core of this philosophy is our stepped rocker profile. The step in the tail ensures a clean release of water from the stern, which not only reduces drag, but also helps to reduce the tendency for the tail to bog down on boily eddy lines. The sidewall profile of the boat is also continually curved to boost secondary stability and is carefully angled to keep the waterline width to a minimum. Available in both Duratough Construction and Duralite Construction.

LENGTH: 2820 MM/9'3" | WIDTH: 735 MM/29.25" | WEIGHT: DURALITE, ASH GUNWALES: 21.5 KG/47 LB | DURATOUGH/ ASH GUNWALES: 23.5 KG / 51.5 LB | PADDLER WEIGHT RANGE: 70-110 KG/154-240 LBS | SIZES: COVERT 9.3, COVERT 10.5 SOLO, COVERT 10.5 TANDEM | LEVEL: HIGH END

DYNAMIC DUO - JACKSON KAYAK

The Dynamic Duo turns kayaking into a team sport! Have you ever wanted to take a less experienced friend on the river with you? The Duo gives you the opportunity to share the fun and exhilaration of whitewater kayaking with friends and family members before they can roll or read water. The Duo is also great for two good boaters looking share a day making a run more exciting. Based off the Hero series but with 12 feet of stable hull and high sidewalls, staying right side up is a breeze! The Duo gives you a whole new perspective on kayaking and is equipped with our top of the line outfitting so you and your paddling partner can comfortably and safely have fun all day long.

LENGTH: 12' | WIDTH: 26.75" | VOLUME: 142 G | WEIGHT: 80 LBS | PADDLER WEIGHT RANGE: 180-420 LBS | MAX. CAP.: 420 LBS

[HTTP://WWW.JACKSONKAYAK.COM](http://www.jacksonkayak.com)

KARMA UNLIMITED - JACKSON KAYAK

The Karma Unlimited is our user-friendly Karma taken to new lengths. The Karma UL is not only a racing machine taking top Spots at the Green Race, but is also built for attainments, speed runs, overnights, and making the same old run new and exciting. The planing hull makes the bow easy to control while the rocker profile keeps you up out of the water and the boat moving. Standard features include the Uni-Shock bulkhead system and Sure-Lock Back Band for safety and comfort.

LENGTH: 11'10" | WIDTH: 25" | VOLUME: 94 G | WEIGHT: 56 LBS | PADDLER WEIGHT RANGE: 110-275 LBS | MAX. CAP.: 325 LBS

[HTTP://WWW.JACKSONKAYAK.COM](http://www.jacksonkayak.com)

TERRIBLE TWO - SOUL

A boat for parents who are eager to get their kids-even little guys- out on the water. A short, wide, high volume boat with the weight as centered as possible, but still has space for the parent to paddle and roll effectively. The area around the child is reduced in size, and the seat is raised to get them up to a height that is above the waves so it is comfortable for them to see and paddle. Hang-tight handles are there for them to hang onto if that's what they prefer.

LENGTH: 9'275 CM | WIDTH: 27" / 68.5 CM | VOLUME: 94 G / 354 L | LEVEL: HIGH END

POLO 2.90/SLALOM 3.50 K1-C1 - DRAGOROSI

The Polo 2.90 Slalom 3.50 K1-c1 is an ICF approved Polo kayak supplied with an adjustable pedal footrest, anatomic seat, back bulkhead, with integrated and interchangeable rubber bow and stern caps. It is ideal for slalom races and polo matches. Available in a 290 cm length for Polo version and a 350 cm length for K1-C1 Slalom version; it is easily transformable from Polo boat to K1-C1 Slalom boat in a matter of seconds by simply replacing the polo front and back caps with Slalom tip and tail. The K1 seat system can be easily transformed into a C1 seat system as well. This kayak has been created for instructors and coaches and it makes possible to easily provide multiple lessons in K1, C1 and Polo. The Polo 2.90 K1-C1 is the only instructional kayak created to teach and to entertain at the same time.

LENGTH: 290 CM (POLO), 350 CM (SLALOM) | WIDTH: 56 CM | COCKPIT: 75 X43 CM | WEIGHT: 14 KG | LEVEL: PERFORMANCE

[HTTP://WWW.DRAGOROSI.COM](http://www.dragorossi.com)

SL 3.50 - DRAGOROSI

The SL 3.5 Slalom boat meets the new rules regarding length and dimensions for races. It comes standard with a padded adjustable seat, padded back band, pedal footrest, front and rear frames, and carrying handles. Ideal for paddlers weighing up to 70 kg.

LENGTH: 351 CM | WIDTH: 60 CM | COCKPIT: 75 X43 CM | WEIGHT: 14 KG | LEVEL: PERFORMANCE

Whitewater

SIT ON TOP

CATALYST 88 - TOOTEGA KAYAKS

The Catalyst is all about having fun in whitewater. Style the river with minimum fuss! This sit on top design instantly removes the fuss traditionally associated with a whitewater kayak. At the heart of the Catalyst is a super stable hull, based on the Bazooka hull-form designed by white water designer extraordinaire Celliers Kruger, allowing those new to whitewater, or perhaps those who do not want to sit inside a kayak to get out there and enjoy the river environment experience with ease.

LENGTH: 289 CM/8'10" | WIDTH: 77 CM/30.5" | WEIGHT: 21 KG/46 LBS | PADDLER WEIGHT RANGE: 55-120 KG/120-265 LBS | LEVEL: HIGH END

[HTTP://WWW.TOOTEGA.COM](http://www.tootega.com)

SX 285 - DAG KAYAK

Learn how to paddle in flat and whitewater without feeling restricted in your kayak! Thanks to its numerous qualities, the SX 285 is frequently used by watersports centres. Have an exhilarating experience in complete safety.

LENGTH: 9'5/2.85 M | WIDTH: 27.9/71 CM | WEIGHT: 48 LBS/22 KG | MAX. CAP.: 220 LBS/100 KG | LEVEL: PERFORMANCE

[HTTP://WWW.DAG-KAYAK.COM](http://www.dag-kayak.com)

FUSION SOT DELUXE - PYRANHA

Whitewater has never been so accessible. Based on Pyranha's popular Fusion crossover kayak, the Fusion SOT has all the same performance characteristics including easy manoeuvrability, ample speed for cruising flat water sections and plenty of storage space for fishing, overnight trips or luxurious picnics. The Sit on Top format offers increased stability, the ability to jump back on after a capsize without the need for emptying, and easy entry/exit without the worry of a spraydeck; but unlike other Sit on Tops, it is capable of all the same basic manoeuvres as a standard whitewater kayak, so beginners can learn confidently!

LENGTH: 317 CM | WIDTH: 78 CM | VOLUME: 330 L | WEIGHT: 26 KG | PADDLER WEIGHT RANGE: 30 - 145 KG | MAX. CAP.: 145 KG | LEVEL: ENTRY LEVEL

[HTTP://WWW.PYRANHA.COM](http://www.pyranha.com)

DEUCE COUPE - LIQUIDLOGIC

The Deuce Coupe is the most versatile tandem sit-on-top ever produced and the only tandem sit-on-top kayak with a deployable skeg for tracking. With the skeg tucked away, the Deuce Coupe steers effortlessly from the stern and solo seating positions while paddling rivers and back bays; but, with the skeg in the down position, the Deuce Coupe tracks straight and true. This versatile sit-on-top is especially family friendly with three seats and plenty of space for additional gear. With the Deluxe Wedge stern seat the Wedge bow seat and the Tag Along Wheel now standard on every boat, the Deuce Coupe offers up unparalleled comfort and control in a beautiful, roll-away package.

LENGTH: 13' | WIDTH: 33" | WEIGHT: 78 LBS | MAX. CAP.: 500 LBS | LEVEL: ENTRY LEVEL

Live to play another day

sweetprotection.com

FUSE 35 - WAVE SPORT

What do you call it when you bring a river runner and freestyle boat together for one go-anywhere, do-anything boat? We called it the Fuse. The Fuse 35 is the kid's specific size in our four-boat range of River Play kayaks. The legendary hull design is loose and fast on waves with volume distribution that is not only comfy, but delivers crisp control whether you're throwing cartwheels or simply running your favourite stretch of river. Expect the forgiveness of a river runner and the high-performance loose hull of a freestyle boat. If you're a river runner who sprints to surf every wave and hole along the way, you've come to the right place.

LENGTH: 178 CM | WIDTH: 58 CM | VOLUME: 132 L | WEIGHT: 10.5 KG | PADDLER WEIGHT RANGE: 27-50 KG | LEVEL: PERFORMANCE | SIZES: FUSE 35, FUSE 48, FUSE 56
[HTTP://WWW.WAVESPORT.COM](http://www.wavesport.com)

FUN 1/1.5 - JACKSON KAYAK

The Fun 1 and 1.5 are the ultimate pool toys, but are fully ready to run the rapids and throw freestyle tricks too! Jackson Kayak's smallest boats, the Fun 1 and 1.5 are designed so the little boaters in your family can learn the ropes and start enjoying the sport you love too. Now every kid can have the advantage of starting early with equipment that fits their size! The size and weight of the kayak allows small kids to grip, paddle and maneuver the kayak properly and makes learning to roll so much easier. Once your kids are ready, this kayak is fully outfitted to take on river runs, surf, and start learning freestyle tricks.

SIZES: FUN 1, FUN 1.5 | LENGTH: 5'3, 5'9 | WIDTH: 20", 22" | WEIGHT: 20 LBS, 23 LBS | PADDLER WEIGHT RANGE: 30-80 LBS, 60-120 LBS | MAX. CAP.: 80 LBS, 120 LBS
[HTTP://WWW.JACKSONKAYAK.COM](http://www.jacksonkayak.com)

ROCKSTAR XS - JACKSON KAYAK

This is a kid's Rock Star! Sized 1/2 way in between a Shooting Star and Small Rock Star, it fills the gap that has been missing from the industry since the beginning of time. Kids growing through the range from the Fun 1 to the Shooting Star now have the right size boat to graduate after the Shooting Star. This is a 100% performance oriented boat based on the World Championships winning 2016 Rock Star. It is designed to allow kids to learn freestyle, and for those who are already on their way, to perfect it and really shine on their home wave, or in the next World Championships. Lightweight, durable, dry, and comfortable, this 2016 design will be around for many years.

LENGTH: 5'2 | WIDTH: 23.75" | WEIGHT: 23 LBS | PADDLER WEIGHT RANGE: 80 - 120 LBS | MAX. CAP.: 120 LBS
[HTTP://WWW.JACKSONKAYAK.COM](http://www.jacksonkayak.com)

SHOOTING STAR - JACKSON KAYAK

"Dynamite comes in small packages" This is true for the Shooting Star. Perfect for paddlers under 100 pounds, the Shooting Star allows smaller boaters to enjoy all the aspects of a full on play boat. With a stable hull its a great boat for learning in but will also allow you to push your freestyle skills to the max.

LENGTH: 5'2" | WIDTH: 19" | VOLUME: 31 G | WEIGHT: 19 LBS | PADDLER WEIGHT RANGE: 30 TO 100 LBS | MAX. CAP.: 110LBS | LEVEL: PERFORMANCE
[HTTP://WWW.JACKSONKAYAK.COM](http://www.jacksonkayak.com)

SIDEKICK - JACKSON KAYAK

Jackson Kayak's smallest "River Runner," the Sidekick is a 'micro' version of our '07 Hero Series - designed to be as stable and forgiving as possible. With low rocker it's fast to help keep up with the big boats on your river runs while the tall sidewalls help keep it upright. This high-volume little creeker is designed to help your little one enjoy the rivers and creeks that you love but sized for kids so that they can control - and carry - their own kayak. Whether just starting out in the sport or pushing beyond the limits of a Fun 1, the Sidekick is ready to take the smallest paddlers into rougher waters - comfortably.

LENGTH: 6'7" | WIDTH: 22.25" | WEIGHT: 27 LBS | PADDLER WEIGHT RANGE: 30-100 LBS | MAX. CAP.: 100 LBS

[HTTP://WWW.JACKSONKAYAK.COM](http://www.jacksonkayak.com)

AXIOM 6.9 - DAGGER KAYAKS

The Axiom 6.9 was designed to teach children how to kayak. Stability and simplicity were cornerstones of the design. We wanted a kayak that was fun and easy to paddle for young children that had yet to develop their full strength. So- we designed a kayak that is longer than other kid's models, but paddles better and straighter. No more cork-screwing down eddylines, just an awesome platform to start learning, because the future of our sport demands the best.

LENGTH: 6'9"/206 CM | WIDTH: 22.5"/57 CM | VOLUME: 39 G/148 L | WEIGHT: 24 LBS/11 KG | PADDLER WEIGHT RANGE: 65-120 LBS/29-54 KG

[HTTP://WWW.DAGGER.COM](http://www.dagger.com)

MINI ME - SOUL WATERMAN

We understand that most small children just want to have a positive paddling experience. They're not doing loops or anything fancy. This does not mean that they won't get there, or that the Mini Me won't be awesome when they do, but the focus is really on making learning to paddle easy. It runs through wave trains with ease, with enough length to make it longitudinally stable, and the drop down skeg helps those really young kids to keep it going straight. Once they get their roll down, and start surfing, it's a blast with a loose hull that'll catch waves, and spin on a dime. The end grab loops are made for an adult's hand, so you can transport, or grab the kayak easily on the water, for both convenience and safety.

LENGTH: 4'6"/138 CM | WIDTH: 18"/45.7 | WEIGHT: 16.5 LBS/7.5 KG | VOLUME: 20 G/74.7 L | PADDLER WEIGHT RANGE: 35-80 LBS/16-36 KG | LEVEL: HIGH END

PYTHON - PRIJON GMBH

The Python from Prijon is a unique laminated and pressed foam core design with never-seen-before-stiffness! This new and unique foam core – dividing itself into two bars – offers a maximum of stiffness and best possible power transmission. The big blade guarantees a lot of pressure, especially when using high angle technique. Feel the immediate pressure when plunging the paddle in the water, thanks to the ahead-mounted blade. The PYTHON reacts neutral and stably in the water due to the stabilizing bracket. It paddles completely jitter-free. The center of pressure sits a bit in front of the hand on the shaft, so that you "pull" the paddle and generate maximum propulsion.

LENGTH: 190, 195, 197.5, 200, 202.5 CM | **MATERIAL:** CARBON/GRP | **OPTIONS:** AVAILABLE IN FOUR DIFFERENT VERSIONS: CARBON-BLADE WITH STRAIGHT GLASS SHAFT, CARBON-BLADE WITH CARBON BENT SHAFT, GLASSFIBER-BLADE WITH STRAIGHT GLASS-SHAFT AND GLASSFIBER-BLADE WITH CARBON BENT SHAFT.

[HTTP://WWW.PRIJON.COM](http://www.prijon.com)

HIGH-END

SCORPION EFC GLASS SHAFT - KOBER

A new and improved version of our prize-winning high-end whitewater paddle with a foam core and hydrodynamic blade shape. Its exceptional characteristics include easy handling, high buoyancy and a blade design that allows for powerful and precise paddle strokes, which makes the Scorpion a favorite among top paddlers. The Scorpion also features Kober's super strong and robust Dynel® edge. Now also available with a flexible glass shaft.

WEIGHT: 940 G

HIGH-END

ROBSON POGO CARBON - TAHE OUTDOORS

The Pogo Carbon is fitted with versatile medium size blades. It adapts to playboating, creeking and big water expeditions and has optimized flex and strength.

LENGTH: 190-200 CM | **WEIGHT:** 1050 G | **BLADE SIZE:** 42 X 20.5 CM | **MATERIAL:** CARBON BLADES, CARBON SHAFT | **LEVEL:** HIGH END

[HTTP://WWW.TAHEOUTDOORS.COM](http://www.taheoutdoors.com)

HIGH-END

POWERHOUSE - WERNER

Werner river running paddles are trusted on the hardest runs in the world and by those firing up the hardest line on their local run. The Powerhouse and its smaller counterpart the Sherpa offer a custom shaped, low profile, reinforced spine allowing for enhanced blade maneuverability. Bomber reliability, tested and proven where it counts.

LENGTH: STRAIGHT 1 PIECE: 162 CM TO 230 CM IN 1 CM INCREMENTS, STRAIGHT 2 PIECE: 162CM TO 230 CM IN 1CM INCREMENTS, STRAIGHT 4 PIECE: 194, 197, 200, 203, 206, 209, BENT 1 PIECE: 188CM TO 203CM IN 1CM INCREMENTS **WEIGHT:** 999G (35.25OZ), 1169G (41.25OZ), 1070G (37.75OZ) | **BLADE SIZE:** 48CM X 20CM, 720 CM² | **FEATHER:** L OR R. 0 TO 90 IN 5 DEGREE INCREMENTS | **LEVEL:** HIGH END

[HTTP://WWW.WERNERPADDLES.COM](http://www.wernerpaddles.com)

HIGH-END

PROFILE - LETTMANN

If you just can't get comfortable with the advantages of an ergonomic shaft... we suggest trying the Profile! As you can guess by the name, the blade is strongly profiled - enabling enhanced propulsion and reducing fluttering. The foam core inside the blade makes it incredibly stiff and tough. Our light version -LCS 70 Light- is the preferred option for slalom competitors. For hobby whitewater kayakers we suggest the LCS 70 model. If you live for heavier or even extreme whitewater, the Profile LCS 70 Extreme is the one for you.

LENGTH: 470 CM | **WEIGHT:** 880 G | **BLADE SIZE:** 203 CM² | **FEATHER:** 0-90° | **MATERIAL:** CARBON | **LEVEL:** HIGH END

[HTTP://WWW.LETTMANN.DE](http://www.lettmann.de)

HIGH-END

SHOGUN - WERNER

The Sho-Gun uses our most advanced technology. This river running paddle is as powerful as its name suggests. The rivers where paddlers take the Sho-Gun often require some aggression to navigate each horizon line. The buoyant, full carbon blade gives confidence for rolling and bracing, especially in aerated rapids.

LENGTH: STRAIGHT 1 PIECE: 162 CM TO 230 CM IN 1CM INCREMENTS, STRAIGHT 2 PIECE: 162 CM TO 230 CM IN 1 CM INCREMENTS, BENT 1 PIECE: 188 CM TO 203 CM IN 1CM INCREMENTS **WEIGHT:** 1021G (36 OZ), 1091G (38.5 OZ), 1070G (37.75OZ) | **BLADE SIZE:** 48CM X 20CM, 711 CM² | **FEATHER:** L OR R. 0 TO 90 IN 5 DEGREE INCREMENTS | **LEVEL:** HIGH END

[HTTP://WWW.WERNERPADDLES.COM](http://www.wernerpaddles.com)

HIGH-END

ROBSON HAIDA - TAHE OUTDOORS

The Haida is for the whitewater paddler who demands the best. It has superior flex and impact resistance. An asymmetrical blade profile means the Haida will perform well for both freestyle and river-running.

LENGTH: 190-200 CM | WEIGHT: 1100 G | BLADE SIZE: 42 X 20 CM | MATERIAL: FLOWTECH BLADES, FIBERGLASS SHAFT | LEVEL: HIGH END

[HTTP://WWW.TAHEOUTDOORS.COM](http://www.taheoutdoors.com)

HIGH-END

PLAYER - WERNER

The Player, developed alongside its larger counterpart the Side Kick, was a major innovation for playboaters, setting the standard with downturned blades. This Werner design innovation gives immediate directional control in rudder and draw strokes for surfing or setting up today's most advanced tricks.

LENGTH: STRAIGHT 1 PIECE: 158 CM TO 230 CM IN 1 CM INCREMENTS, STRAIGHT 2 PIECE: 158 CM TO 230 CM IN 1 CM INCREMENTS, STRAIGHT 4 PIECE: 194, 197, 200, 203, 206, 209 ONLY, BENT 1 PIECE: 185CM TO 200 CM IN 1CM INCREMENTS WEIGHT: 978G (34.5 OZ), 1091 G (38.5 OZ), 1148G (40.5 OZ), 1049 G (37 OZ) | BLADE SIZE: 46 CM X 20.75 CM, 690 CM² | FEATHER: L OR R. 0 TO 90 IN 5 DEGREE INCREMENTS | LEVEL: HIGH END

MULTIWAVE LCS 100 - LETTMANN

In 2016 we completely renewed our Multi Wave paddle series to be lighter and stiffer. The wave structure was completely updated for more pressure and a more efficient stroke by creating a better hydrodynamic lift. The blades are designed for whitewater and freestyle but the Multi Wave technology is also available in a sea kayak and touring version. All our Multi Wave paddles are made in Germany from 100% Carbon Prepreg. Multi Wave paddles come with the option of straight or bent shaft.

LENGTH: 212-230 CM | WEIGHT: 900-950 G | BLADE SIZE: 460/200 CM² | FEATHER: 55° | LEVEL: HIGH END | MATERIAL: CARBON PREPREG LCS 100

[HTTP://WWW.LETTMANN.DE](http://www.lettmann.de)

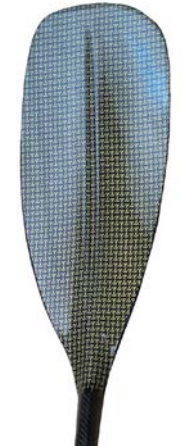

HIGH-END

ERGONOM PRO WW EXTREM LETTMANN

This multi-championship winning paddle is the weapon of choice for extreme kayakers worldwide. The paddle has only one joint that is at the centre of the shaft. The element from the shaft centre to the blade tip is made in one single piece in one mould. This allows the perfect ergonomic crank angles to be designed. The single piece is also extremely strong and durable. The 3D profile blade generates lift by pressure differentials just like an airplane wing. It is a super efficient, powerful and elegant instrument.

LENGTH: 195-206 CM | WEIGHT: 1090 G | BLADE SIZE: 470/203 (LARGE) | FEATHER: 55° | LEVEL: HIGH END | MATERIAL: CARBON ARAMID LCS 70 EXTREM

SPRAY DECKS

WHITewater - PEAK UK

Designed for the biggest water around and two-time winner of Sickline Joe Morley, the Whitewater Deck will not let you down. This deck has been down some of the toughest water on the planet, with some of the best boaters on the planet. 5mm tough faced neoprene and an 11m shockcord are backed up by silicone reinforcing on the top of the deck and latex on the underside. The drylip around the front and sides gives a superb seal whilst still being easy enough to fit. Bombproof!

BODY SIZES: S, M, L, XL | **DECKSIZES:** SMALL, KEYHOLE, BIGDECK | **COLOURS:** BLACK

[HTTP://WWW.PEAKUK.COM](http://www.peakuk.com)

PURE WHITE NATIONAL - PPHU KAP WORX

Tailor made white neoprene Kayak Polo Spraydeck printed with custom graphics. A popular choice for international slalom paddlers and polo players who want to represent their team and have confidence in their gear. Made from a flexible type of neoprene usually found in surfing and diving wetsuit, the Pure White National deck allows for greater range of motion and comfort to evolve your game. This skirt keeps water out without holding you back.

TUNNEL SIZE: 60-100 CM | **DECK SIZE:** POLO, SLALOM

[HTTP://WWW.STORMMRIDE.COM](http://www.stormmride.com)

ENDURO - PALM

Durable and reliable, the Enduro is our all-round whitewater deck, with a knee-off strap for an easy exit from your boat. The Supratex rim section resists wear, whilst the sticky Grippsil print underneath grips your cockpit for a dry seal. The seamless O-ring seal at the waist helps keep the deck in place with or without a twin seal jacket.

BODY SIZES: XS/S - XL/XXL | **DECKSIZES:** R4, R5

[HTTP://WWW.PALMEQUIPENTEUEP.COM](http://www.palmequipmenteurope.com)

AQUATHERM SPRAY DECK - REED CHILLCHEATER

Our Aquatherm Spray Deck with Adjustable waist is a lightweight revolutionary design. It is ideal for slalom, sea kayaking, polo, touring and recreational use. Features a draw cord waistband.

TUNNEL SIZES: ALL | **DECK SIZES:** ALL | **COLOURS:** BLACK

[HTTP://WWW.CHILLCHEATER.COM](http://www.chillcheater.com)

SCOTTY - °HF

The °hf Scotty is a kids neoprene spraydeck with an adjustable shock cord. The 6mm shock cord runs through a nylon fabric tunnel that is joined to the edge of the neoprene deck section. With this new system it is very easy to put the spraydeck on and take it off. Front loop and knee strap can be joined together to form a 3-point release strap. Fits current kids kayaks.

TUNNEL SIZES: 62, 70 | **DECK SIZES:** SMALL | **COLOURS:** BLACK

[HTTP://WWW.PADDLE-PEOPLE.COM](http://www.paddle-people.com)

ACE SPRAYSIRT - LEVEL SIX

The Ace Sprayskirt is our most technically sophisticated sprayskirt. Designed for the most advanced whitewater paddler dealing with the harshest conditions, if you're looking for a skirt for big water, advanced play or creeking, this is your best bet. The Ace is built to stand up to the elements on the water, boat over boat rescues, and just about whatever else you can throw at it.

TUNNEL SIZES: XS - XL | **DECK SIZES:** L, XL

[HTTP://WWW.LEVELSIX.COM](http://www.levelsix.com)

SHOCKER PRO RAND - SEALS

High performance 4mm neoprene. 3/8" stitched bungee attachment to rim. Top-edge wear guard with 22% Kevlar fibers. Rim grip/safety slip technology. Form fitting anatomical tunnel is 9" high. A low fit 6" tunnel is also available (custom). Glued, stitched and sealed seams. Grabloop includes integrated safety whistle

TUNNEL SIZES: XS - XXL | **DECK SIZES:** SEALS STOCK | **SIZES:** 1.2 THRU 2.2

Whitewater

PFD'S

OFFERING EXTRA FLOTATION AND OPTIONAL SAFETY GEAR FOR USE ON HIGH-LEVEL WHITewater.

NEW
2018

RIVER VEST - PEAK UK

The 2018 River Vest is the amalgamation of the previous River Vest and River Runner and combines the best features of those two PFDs to give a superb whitewater PFD at a fantastic price. The storage set up is the same as on the River Guide with a huge front main pocket, twin karabiner pockets and knife pocket – all featuring key clips and tough metal sliders. Figure hugging one-time adjust shoulder straps, integrated side straps and a twin clip waist strap give quick and effective adjustments for a perfect fit, whilst the bombproof 600D fabric and Gaia soft eco foam offer superb performance and durability.

SIZES: S/M, L/XL, XXL | **COLOURS:** ORANGE/BLUE, BLACK/LIME

[HTTP://WWW.PEAKUK.COM](http://www.peakuk.com)

NEW
2018

RIVER GUIDE - PEAK UK

The innovative and best selling River Guide has been updated for 2018 but still keeps the original storage features of a large front pocket (with phone, sling and camera compartments), twin karabiner pockets and a knife pocket. The unique integrated harness is now adjustable so you can create the perfect length for you with no cutting required. Integrated shoulder pads make boat carrying a much nicer prospect and the tough 600D polyester / nylon shell and Gaia eco friendly foam will not let you down. A must for serious whitewater nuts and coaches and guides everywhere.

SIZES: S/M, L/XL, XXL | **COLOURS:** RED/LIME, BLUE/LIME

[HTTP://WWW.PEAKUK.COM](http://www.peakuk.com)

NEW
2018

JACKPOT PFD - HIKO SPORT

The Jackpot PFD is designed for competitive racing in canoe slalom. Certified by ICF federation under the standard ISO 12402-5, the Jackpot is an evolutionary step in slalom racing. A portion of the buoyant volume of both front and back panels moves to external foam pillow which is inserted into a pocket in a Hiko spraydeck. The front panel is now extremely thin and of low profile, minimizing the space between the body of a kayaker and a gate during tight clearance of gates. The external pillow is shaped to fit the space between the knees of a kayaker. It is connected to the body of the vest through flexible neoprene belt. Use with Hiko Jackpot slalom topdecks and decks.

SIZES: XS, S/M, L/XL, XXL | **COLOURS:** BLACK

[HTTP://WWW.HIKOSPORT.COM](http://www.hikosport.com)

NEW
2018

ZEN - NRS

The NRS Zen PFD is a low-profile rescue jacket with all the features essential to assist guides and experienced paddlers in a swiftwater rescue situation. Side-entry design with floating front panel includes a clamshell front pocket with room for a small rescue kit. Two side pockets for additional storage. Durable 400-denier ripstop nylon with Cordura® reinforcements.

SIZES: XS, S/M, L/XL

[HTTP://WWW.NRS.COM](http://www.nrs.com)

ARTISTIC ORCO PRO - TAHE OUTDOORS

The Orco PRO is a clever and robust whitewater vest. Features include a carabiner park, two large, one key, and one inner pocket. The Orco Pro has a short length for optimal movement and easily adjustable waist and shoulder straps.

SIZES: XS/S, XL/2XL | **COLOURS:** RED, BLACK. | **CERTIFICATION:** EN ISO 12402-6

[HTTP://WWW.TAHEOUTDOORS.COM](http://www.taheoutdoors.com)

GUARDIAN PFD - HIKO SPORT

The Guardian is a fully equipped, high-end vest made for the most extreme conditions. It was developed in cooperation with the professional paddlers and rescuers for the perfect combination of maximum comfort and safety. It is very easy to take on and off and it does not restrain movement when paddling. At the same time the vest is equipped with all safety features required on this level. Sophisticated side telegraphic system enables a side entry without the use of a zipper. Low front panel and deep cut of the back panel allows wide range of motion. Thanks to triple adjustment on the sides and adjustable shoulders the vest does not slide anywhere and fits comfortably even when swimming or breaking through heavy waters.

SIZES: S/M, L/XL, XXL | **COLOURS:** BLACK, PROCESS BLUE, RED

[HTTP://WWW.HIKOSPORT.COM](http://www.hikosport.com)

MAXIMUS CENTURION - KOKATAT

The Maximus Centurion is a Type V Rescue PFD featuring Kokatat's Dynamic Suspension System (DSS). DSS features wide, contoured neoprene shoulder straps that allow unrestricted movement of the independently suspended front flotation panels to move in concert with the paddler. The uLa-comfortable side entry design has webbing adjustments in the front of the vest for easy fit adjustments. Two large integrated chest pockets and the detachable Belly Pocket allow you to carry all your gear, including pin kit, first aid kit, VHF radio, and snacks. Made with Gaia® PVC free foam, the Centurion also features a quick release chest harness and O-ring. Backed by Kokatat's limited lifetime product warranty. Certifications: ISO (European Union), US Coast Guard, Transport Canada.

SIZES: XS/S, M/L, XL/XXL | **COLORS:** ORANGE, YELLOW, COAL

[HTTP://WWW.KOKATAT.COM](http://www.kokatat.com)

FXR - PALM EQUIPMENT

Freestyle, rivers, or racing – do it all with one PFD. We've taken the comfort and simplicity of the FX freestyle PFD, fitted it out with a rescue harness and pumped up the floatation for the most versatile whitewater PFD ever.

SIZES: XS/S - XL/XXL

[HTTP://WWW.PALMEQUIPENTEUROPE.COM](http://www.palmequipmenteurope.com)

UPANO LIFE VEST - AQUADESIGN

The UPANO buoyancy aid is designed for guides and professional kayakers. It offers a set of great features, including a side opening, optimal buoyancy balance, complete adjustments, storage, and a pull-ball for quick release of the safety belt. The Upano life vest secures the wearer without impairing their movement. Features: four front pockets with zipper / Closure with YKK front zipper / Adjustable shoulder and side straps / Adjustable waist strap with quick release buckle / Reflective tape on shoulders.

SIZES: S, M/L, XL/XXL

[HTTP://WWW.AQUADESIGN.EU](http://www.aquadesign.eu)

TRISULI LIFE VEST - AQUADESIGN

The TRISULI life vest is designed especially for guides and experienced kayakers. Features: YKK® zipper in the front / 4 cm belt with quick re-lease buckle / 2 Tightening straps on the side and 2 on the shoulders / Reflective tapes on adjustable neoprene shoulders / 2 Front pockets with zip and back pocket for rescue rope / Leash with carabiner / knife carrier.

[HTTP://WWW.AQUADESIGN.EU](http://www.aquadesign.eu)

HALLERTAU 70N - YAK

The ultimate buoyancy aid for whitewater adventures. Innovative and primed for performance, we've developed the Hallertau to cater for your every need when out in the big stuff with features such as a quick access knife pocket and lanyard, dual zipped side pockets, and a quick release belt with cam buckle. Our revolutionary Axial Core technology provides complete freedom of movement, so you'll never feel resistance from your buoyancy aid as you paddle through the water. The lower adjustable buckle belt cinches to reduce jacket ride up and the shoulder straps move with you as you paddle, providing the most advanced solutions for freedom, comfort and control.

SIZES: S/M, M, XL

[HTTP://WWW.YAKADVENTUREEQUIPMENT.COM](http://www.yakadventureequipment.com)

EXTREM - PALM EQUIPMENT

For expedition kayakers, guides and coaches, the Extrem represents the latest stage in our project to develop the safest, most functional whitewater PFD ever. Available in men's and women's versions, it has a full range of whitewater safety features in one tidy package. Flex Fit wraps the foam around your torso for a secure fit providing buoyancy where you need it, when you need it.

SIZES: XS-XXL **COLOURS:** BLUE, RED (MENS), AQUA, SHERBERT (WOMEN'S)

Whitewater HELMETS

**NEW
2018**

SHUCK FULL CUT - PALM EQUIPMENT

Like a pea in a pod – wearing the Shuck helmet feels natural, fitted and secure. With a tough ABS shell and multi-impact EPP liner, the Shuck protects you from the kinds of hits kayaking, rafting and other watersports can serve up. Dial in your fit with the occipital stabiliser keeping the helmet secure and seated in place. The quick drying fabric liner cups your head, Polygiene treated to keep it fresh (it's washable too).

SIZES: S - L | COLORS: BLUE, BLACK, WHITE, RED

[HTTP://WWW.PALMEQUIPMENTEUROPE.COM](http://www.palmequipmenteurope.com)

**NEW
2018**

SHUCK HALF CUT - PALM EQUIPMENT

Like a pea in a pod – wearing the Shuck helmet feels natural, fitted and secure. With a tough ABS shell and multi-impact EPP liner, the Shuck protects you from the kinds of hits kayaking, rafting and other watersports can serve up. Dial in your fit with the occipital stabiliser keeping the helmet secure and seated in place. The quick drying fabric liner cups your head, Polygiene treated to keep it fresh (it's washable too).

SIZES: S - L | COLORS: BLUE, BLACK, WHITE, RED

[HTTP://WWW.PALMEQUIPMENTEUROPE.COM](http://www.palmequipmenteurope.com)

BUMPER S - SPREU BOOTE

Our Bumper S shell is constructed from high-density polyethylene with an adjustable plastic retention system that ensures a proper fit for small head sizes. The inside of the shell is completely padded with EVA closed cell foam which will protect against most high impact collisions. An adjustable side-release buckle guarantees a clean, secure fit. CE-approved. The plastic retention system is also available for replacement. Colours available: yellow, red and blue.

SIZES: NORMAL, SMALL | COLORS: YELLOW, RED, BLUE

[HTTP://WWW.SPREU-BOOTE.DE](http://www.spreu-boote.de)

ARTISTIC WATTS - TAHE OUTDOORS

The Watts is an extremely durable and robust whitewater kayaking and rafting helmet with high impact ABS molded outer shell and closed cell Brock foam. The Watts has removable ear caps in Neoprene and an easy adjustment system.

SIZES: S: 53,5 - 55,5 CM, M: 55,5 - 57 CM, L: 57 - 59 CM, XL: 59 - 60,5 CM, XXL: 60,5 - 62,5 CM | COLORS: CHILLI (RED), FIRE (ORANGE)

[HTTP://WWW.TAHEOUTDOORS.COM](http://www.taheoutdoors.com)

STRUTTER - SWEET PROTECTION

The Strutter helmet is a whitewater icon offering impressive low-volume protection for river running and playboating. Inspired by the original baseball cap, the computerized 3D shape provides great style and comfort - but more importantly, it has impressive protection performance for its volume and style. Feature highlights: Long Fiber Thermoplastic (LFT), Carbon fiber reinforced polymer, EVA shock absorbing liner, Occigrip, comfort pads.

SIZES: S/M, M/L, L/XL | WEIGHT: 400 G (M/L)

[HTTP://WWW.SWEETPROTECTION.COM](http://www.sweetprotection.com)

ROCKER - SWEET PROTECTION

The Rocker helmet is a high-performance helmet for the roughest conditions. This is a high-tech carbon fiber reinforced helmet and our clear team favorite. Feature highlights: Thermoplastic laminated carbon fiber, ABS thermoplastic shell, EPP shock absorbing liner, Occigrip, comfort pads, Coolmax liner, adjustable shatter-resistant visor.

SIZES: M/L, L/XL | WEIGHT: 550 G (M/L)

[HTTP://WWW.SWEETPROTECTION.COM](http://www.sweetprotection.com)

ROCKER FULL FACE - SWEET PROTECTION

The Rocker Fullface is a high-tech carbon fiber reinforced full-coverage helmet offering the most extensive protection available in any whitewater helmet. Feature highlights: Thermoplastic laminated carbon fiber, ABS thermoplastic shell, EPP shock absorbing liner, Occigrip, comfort pads, Coolmax liner, adjustable shatter resistant visor.

SIZES: M/L, L/XL | WEIGHT: 850 G (M/L)

[HTTP://WWW.SWEETPROTECTION.COM](http://www.sweetprotection.com)

WANDERER - SWEET PROTECTION

The Wanderer is a dependable and durable helmet with solid protection performance. Introduced in 2008, but updated several times, it's a great piece of protection equipment for all-round river use. Feature highlights: ABS Thermoplastic Shell, Carbo fiber reinforced polymer, EPP shock absorbing liner, Occigrip, Direct ventilation, Coolmax liner, Fitpads.

SIZES: S/M, M/L, L/XL | WEIGHT: 550 G (M/L)

[HTTP://WWW.SWEETPROTECTION.COM](http://www.sweetprotection.com)

WRSI CURRENT PRO - WRSI (NRS)

The WRSI Current Pro is based on the popular Current Helmet, with extra safety features. Removable ear pads and a stylish visor improve protection and comfort. A multi-impact shell combines with an EVA foam liner and a polyurethane sub-shell to effectively dissipate impacts.

SIZES: S/M, M/L, L/XL

[HTTP://WWW.NRS.COM](http://www.nrs.com)

WRSI TRIDENT - WRSI (NRS)

Score the best protection and style points too with the WRSI Trident Composite Helmet. With trusted technology and a sleek design, it's built to meet the needs and wants of the most demanding boaters. A rugged carbon-composite outer shell combines with an EVA foam liners and a polyurethane sub-shell to effectively dissipate impacts.

SIZES: S/M, M/L, L/XL

[HTTP://WWW.NRS.COM](http://www.nrs.com)

WRSI MOMENT - WRSI (NRS)

The WRSI Moment full-face kayaking helmet gives you the same quality and safety you expect from the leaders in water helmet technology along with the added face protection that serious paddlers need. A multi-impact shell combines with an EVA foam liner and a polyurethane sub-shell to effectively dissipate impacts.

SIZES: S/M, M/L, L/XL

[HTTP://WWW.NRS.COM](http://www.nrs.com)

The advertisement features a vertical layout. At the top, a kayaker in a blue kayak is shown in action on a river. Below this is the Dagger logo, a stylized white dagger shape on a red background. The word "Dagger" is written in a white, italicized font. Below the logo is a large, stylized white outline of a kayak helmet. Underneath the helmet outline, the word "PHANTOM" is written in a large, white, outlined font. At the bottom of the advertisement, two red kayaks are shown: one from a side profile and one from a top-down view. The text "PHANTOM 9.0 COMING SPRING 2018" is printed between the two kayaks. At the very bottom, the website "WWW.DAGGER.COM" and the text "AVAILABLE IN EUROPE FROM PALM EQUIPMENT" are displayed.

Kokatat

Kokatat® respects the place. With gear designed and built in Arcata, California, we can help you get there with confidence, keep you safe when you're there and get you home for the next place. Flowing rivers, surging swells, challenging expeditions or golden sunset lakes, you choose the place, we'll help stoke the adventure.

Into the water...

Apparel

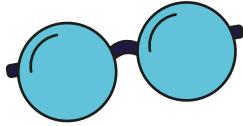

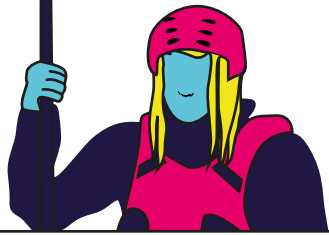

This section includes apparel designed to be worn both on and off the river. Insulative layers provide thermal protection to keep paddlers warm on the water and come in a variety of styles and fabrics. Neoprene, polypropylene, and wool have different advantages for diverse situations, but all share the ability to insulate against the cold even when wet. Paddling jackets and pants help guard against the elements, while dry tops, dry pants and dry suits offer the highest level of protection, keeping paddlers dry in even the harshest of conditions. Casual apparel keeps paddlers feeling comfortable and looking good at the take-out or at the bar after a sweet day on the water.

MERIDIAN DRY SUIT - KOKATAT

An update to Kokatat's popular Meridian Dry Suit makes what has become the definitive whitewater and sea kayaking dry suit even better. GORE-TEX® Pro fabrics throughout provide supreme durability and protection. The seat and knees are reinforced with 330 Cordura® GORE-TEX® Pro fabric, making a lighter weight suit that dries quicker, while providing additional ruggedness and protection to high-wear areas. The Kokatat® Meridian features flexible nylon waterproof zippers throughout, an adjustable overskirt, GORE-TEX® socks, relief zipper, zippered chest pocket, latex gaskets, and neoprene punch through over cuffs. New colors give the Meridian a fresh look for 2018. The Meridian comes with a limited lifetime warranty and Kokatat's custom sizing and option program ensures completely dry comfort for the life of the garment. Every suit is 100% fill tested and guaranteed to be dry.

COLORS: MEN: MANTIS, CHILI, OCEAN |
WOMEN: ICE, PURPLE

[HTTP://WWW.KOKATAT.COM](http://www.kokatat.com)

RADIUS DRY SUIT - KOKATAT

The Kokatat® Radius drysuit features SwitchZip technology that separates completely at the waist, giving sea kayakers and touring paddlers the versatility of a GORE-TEX® dry suit and dry top in one garment. The Radius top can be worn alone as a dry top and has a fully adjustable hood that can be removed or stowed in its fleece lined outer collar. Additionally, the top has easy to access, self-draining zippered pockets on each sleeve, reflective accents, and latex neck and wrist gaskets. The pants feature 330 Cordura® GORE-TEX® Pro Shell in the knees and seat for added durability, a pocket on the right thigh, and GORE-TEX® socks. The Radius is backed by Kokatat's limited lifetime warranty.

COLORS: MEN: MANTIS, TANGERINE |
WOMEN: PURPLE, TANGERINE

[HTTP://WWW.KOKATAT.COM](http://www.kokatat.com)

ATOM SUIT - PALM EQUIPMENT

The best of our team-proven Atom jacket made into a new, simpler, tougher, whitewater suit. The new cut reduces the number of seams, positioning them to minimise wear. A flexible Masterseal entry-zip, heavy-duty double taped socks, and UK made latex seals keep you dry. Also available in Women's specific cut and sizes.

SIZES: MEN: S, M, L, XL | WOMENS: S, M, L, XL

[HTTP://WWW.PALMEQUIPMENTEUROPE.COM](http://www.palmequipmenteurope.com)

WHITewater - PEAK UK

The award winning and ground breaking leg entry suit for the toughest whitewater conditions on the planet. The leg entry system offers unparalleled ease of entry and comfort in your kayak. The breathable and durable X4 nylon offers 20m waterproofing and features reinforcements in the shoulders, elbow, bum, knees and ankles. The double neck seal consists of a supereff neoprene outer cone with latex inner, whilst the wrists feature latex inner seals with the Aquaout Velcro / neoprene outers, all offering superb protection. The articulated cut and pre-bent elbows, bum and knees give unrestricted movement and maximum paddling comfort.

SIZES: S, M, L, XL, 10, 12, 14 | COLORS: RED / GREY

[HTTP://WWW.PEAKUK.COM](http://www.peakuk.com)

CASCADE - PALM EQUIPMENT

An excellent multipurpose drysuit with no skimping on features, diagonal TiZip front-entry allows easy closure, relief zipper, double taped socks and reinforced areas as standard, this suit will keep you comfortable and dry for all sorts of watersports activities.

SIZES: MEN: S, M, L, XL, XXL

[HTTP://WWW.PALMEQUIPMENTEUROPE.COM](http://www.palmequipmenteurope.com)

WOMEN'S PIVOT DRYSUIT - NRS SPORT

By placing the Pivot Drysuit's TIZIP® MasterSeal zipper on the back, we've eliminated pressure points on the front of the suit while improving flexibility and reducing stress on the zipper. The back zipper also makes it easier to don the suit, and can be opened and closed without assistance.

SIZES: XS, S, M, L, XL

[HTTP://WWW.NRS.COM](http://www.nrs.com)

BLAZE SUIT - NOOKIE

The Nookie Blaze Suit is a perfect balance of comfort, performance and dryness. Featuring an adjustable power-band glideskin neoprene neck, latex wrist dry seals and fabric dry socks. The 4ply waterproof and breathable fabric has been chosen for optimum flexibility and durability and coated with DWR (Durable Water Repellent) for extra waterproof performance. The asymmetric comfortable fabric socks (they fit your left or right foot), are made from 4ply 500D Nylon and have limited seams to make them last longer. Wear them with socks inside as a base layer and shoes over the top. The glideskin neck is smooth on your skin while the power-band allows you to adjust the tightness, giving you versatility between performance and comfort. The seamless under-arms and ergonomic cut of this suit is designed to offer the best freedom of movement while kayaking as well as a comfortable unrestricted seating position.

[HTTP://WWW.NOOKIE.CO.UK](http://www.nookie.co.uk)

ODIN WW DRYSUIT - HIKO SPORT

The Odin drysuit is designed for whitewater use and extreme conditions. It provides full body protection against cold water and weather during extensive exposure. The suit is equipped with a back entry dry zipper running across the back of your shoulders. The same zipper is used for a fly. The waist is adjustable using "DoublePull" system. Latex cuffs around the neck and wrists are protected by outside long neoprene cuffs. The suit is made out of 4-layer Airfour "material" that provides excellent insulation capabilities and breathability. Elbows/forearms, knees and the sitting area is reinforced with abrasion resistant Cordura. The suits is equipped with dry socks made of Cordura to keep feet warm and dry. There's also a Calypso-ladies version-with a massive zipper above bottom area and in ladies cut.

SIZES: S, M, L, XL, XXL | COLORS: PROCESS BLUE, RED

[HTTP://WWW.HIKOSPORT.COM](http://www.hikosport.com)

ARTISTIC NORTH CAPE DRYSUIT - TAHE OUTDOORS

The North Cape is a touring and expedition drysuit. It has a flexible and waterproof rear end entry zipper that can also be used as a relief zipper. The suit is extremely durable, with reinforcements in areas of high abrasion: knees, seat and elbows. It has a roll-in hood with face adjustment system; three Spray Protect Zipper pockets, a net pocket, and a big fleece tunnel pouch pocket.

SIZES: XS - 2XL | COLORS: FIRE (ORANGE)

STORM PANTS - PEAK UK

Peak's best selling dry trouser, now updated and improved for 2018. The Storm Pants have been hugely popular with whitewater, touring and sea kayakers for many years and are now available in men's and women's models. The men's features a double waist with adjustable shoulder straps whilst the women's have the same lightweight inner waist but feature a strapless Aquaout outer seal with Velcro / neoprene adjustments. The X3 nylon fabric offers 20m waterproofing whilst reinforced knees, ankles and bum give extra durability. Fully waterproof and breathable X4 socks ensure your bottom half stays nice and dry, whatever you are up to!

PRO BIB DRY TROUSERS DOUBLE WAIST - NOOKIE

A must-have piece of gear in your kit bag, these versatile British-made Nookie Pro Bib Dry Trousers or salopettes (Double Waist Edition) are made to be tough yet comfortable whatever you're doing: whitewater kayaking, sea kayaking, or if you are an outdoor instructor, no matter the weather. Pair the stylish trousers with a double seal jacket and you have a versatile, two-piece semi-dry suit. The unique chest-high DOUBLE waist offers exceptional versatility and comfort. The outer waist features neoprene stretch panels for insulation and a snug fit, combined with front chest and back panels of breathable EvoTX4 to offer comfort and wicking when working hard. The inner bib is fully waterproof, taped EvoTX4 fabric with neoprene stretch panels on either side to keep them in place. Includes a waterproof MasterSeal Ti Zip relief zip for comfort.

[HTTP://WWW.NOOKIE.CO.UK](http://www.nookie.co.uk)

NKE CENTRE SALOPETTES - NOOKIE

Durable, waterproof and breathable salopettes with adjustable braces. Great for outdoor activity providers, canoeing, kayaking, dinghy sailing and instructors. These trousers have been developed in partnership with outdoor activity instructors to make sure they fit your every need. These bib salopettes are extremely easy to put on over other layers and the cuffs will even stretch enough to get over wellie boots or neoprene booties. The colour-coded logos make it easy to select the right size and the elasticated adjustable braces make sure they fit each person well.

EXPLORER SALOPETTES - PEAK UK

Peak UK's top-end dry pant and a firm favourite amongst hardened explorers and hard working coaches and guides alike. Recently receiving a full makeover, these classic dry pants now feature a unique double ended and super flexible 5mm waterproof zip for easy pee / entry. The X4 nylon gives 20 m waterproofing and features reinforced bum, knees and ankles. The webbing waist belt and adjustable elastic shoulder straps allow the perfect fit, whilst the fully waterproof and breathable X4 socks give total security with maximum comfort and keep you dry all day long. The low bulk single waist makes the Explorer Salopettes especially perfect for sea kayakers and canoeists.

EXPERIENCE INSPIRED

When we built our first inflatable SUP in 2010, we did the obvious thing: tried it on the river. We got some funny looks from the steelhead fishermen and log truck drivers we passed—and we swam, a lot—but the experience inspired us. After years of revising and refining designs, we believe we've built the ultimate downriver board. The Quiver series combines stability with agility and rides over waves and eddy lines with confidence. Axis Technology™ adds stiffness without weight, double-layer rails shrug off rocks, and our new SUP Travel Pack makes storage and transport easy. When you ride a Quiver you'll style rapids that would eat up other boards and turn those skeptical stares into thumbs-ups and smiles.

AQUATHERM UNIVERSAL TULLIQ REED CHILLCHEATER

Based on the traditions of old Inuit garments, these modern Tulliqs keep the whole body and kayak dry with face, wrist and cockpit closure while offering maximum freedom of movement for Greenland style-kayaking and rolling. Available in Aquatherm or Aquatherm Fleece; Reed's lightweight, waterproof, stretchy and abrasion resistant fabric. Universal Tulliqs can fit both keyhole and ocean cockpits with 'deck-style' and 'tent-style' alternatives. Can be made-to-measure specific requirements in Reed's UK Factory.

[HTTP://WWW.CHILLCHEATER.COM](http://www.chillcheater.com)

OCEAN BOTHY - PEAK UK

Designed to be worn over paddling gear for the most extreme ocean conditions, the Ocean Bothy packs down small into its hood and will take up very little room in your boat, but can be quickly opened and thrown on over your existing kit when the weather turns nasty. There are two chest zips for easy access to your PFD and two huge front-side zip pockets with sewn drainage holes. The drawcord waist cinches down underneath your PFD and the articulated cut and Aquaout wrist seals ensure you can still paddle with maximum comfort and minimum restriction. A must for serious sea kayakers everywhere.

SIZES: : XS, S, M, L, XL, XXL | **COLORS:** ORANGE
[HTTP://WWW.PEAKUK.COM](http://www.peakuk.com)

CONQUEST - HIKO SPORT

A paddle cag made for extreme sea kayaking and touring. It is made of AirFour 4-layer material. The double neck collar features an outer high-cut collar and an inner neoprene collar. The hood is designed to fit comfortably around your face and is equipped with 3D adjustment system. The chin area of the hood is constructed from neoprene with vents. The zipper allows high closure all the way to your nose or unzipped allows ventilation during increased activity. The cuffs can be tightened using nylon overlapping cuff. Two more ventilation openings in the triceps area lead moisture away from the paddler's body. Double wrist cuffs - inner latex is protected with soft and flexible neoprene. Double waist maximizes water tightness of the cag. Large zipper pocket on the front panel.

SIZES: S - XXL | **COLORS:** RED
[HTTP://WWW.HIKOSPORT.COM](http://www.hikosport.com)

TOURLITE LONG PEAK UK

The ideal jacket for touring and fairer weather sea kayaking. The breathable, durable and lightweight X2.5 recycled polyester gives 10 m waterproofing and the articulated cut gives maximum comfort with minimum restriction. The Aquaout neck, wrist and waist seals offer quick, simple yet effective seals, and the easy access zip pocket gives handy storage. Also great for easy whitewater, canoeing and more.

FLOWER AIRPRENE BODY STANDOUT

The body is made from 1,5 mm airprene (perforated neoprene) that allows your skin to breath and prevents the feeling of overheating. Featuring a Hawaiian inspired flower design this feminine and yet sporty looking, this one piece is best to use for midseason paddling and cooler summers when you need to wear something more than a bikini. Made specifically for Stand Up Paddling, this piece has a stretchable lycra under the armpits and a net on the back where flexibility is needed most. The body is designed with a practical pocket on the back to put in any accessories you may need.

SIZES: XS, S, M, L, XL

TI VEST - NOOKIE

Stretchy 1.0mm Metalite Glideskin neoprene reflects warmth, creating the ultimate watersports insulated compression top. The Ti Vest features seamless paddle zones for a smooth feel that reflects warmth for insulation and comfort. The 0.5mm super-flex underarm panel allows unrestricted movement without chafing. The cuffs and waist are sealed with a durable glideskin, and the waist is adjustable with a shockcord bungee to reduce water ingress. The smooth-edged high-neck has a clean finish to reduce thickness and constriction on the neck whilst minimising flushing. The compression effect controls muscle vibration, reduces fatigue and helps prevent injury. Available in Short and Long Sleeve models. Use as a mid-layer, over a softcore thermal base, or solo. River and surf essential.

SIZES : S, M, L, XL, XXL

WALKING THIN MID - SEALSKINZ

This thin, waterproof and windproof sock is a real all-rounder. The inner lining of merino wool and the extremely soft polypropylene as an outer fabric make this sock a comfortable companion for all activities that require low insulation and high breathability.

SIZES: S, M, L, XL

[HTTP://WWW.SEALSKINZ.COM](http://www.sealskinz.com)

HIKING MID KNEE - SEALSKINZ

This waterproof and windproof, knee length sock is ideal for all activities that require some warmth, breathability and additional coverage. The thick inner lining of merino wool warms the foot, without sacrificing breathability - ideal when it is colder outside.

SIZES: S, M, L, XL

[HTTP://WWW.SEALSKINZ.COM](http://www.sealskinz.com)

ROAD THIN MID WITH HYDROSTOP - SEALSKINZ

Thin, completely waterproof and windproof Mid Length Sock with Hydrostop - a silicone-free tape at the cuff, which prevents the water from entering from above. With an inner lining of merino wool and stretch inserts on the instep, ankle and cuff, this sock adapts optimally to the foot shape and provides comfort.

SIZES: S, M, L, XL

[HTTP://WWW.SEALSKINZ.COM](http://www.sealskinz.com)

GOLEM - HIKO SPORT

Rugged neoprene booties suitable for water activities in challenging terrain. High cut with zipper opening. The thick anatomically shaped outsole and reinforcements on the heel and instep protect your foot against sharp objects in the water. The outsole is reinforced with a special stiffener for more comfort when walking in uneven terrain. 6mm neoprene makes this bootie extremely warm and soft. Suitable for canyoning, extreme rafting, kayaking and commercial use.

SIZES: 4 - 13

[HTTP://WWW.HIKOSPORT.COM](http://www.hikosport.com)

VIBE - NRS

The NRS Vibe might be the most comfortable paddling shoe ever made, and its laid-back style will make you want to wear it day after day, on and off the water. The Vibe combines maximum technical capability with casual comfort and style to take you from home to the river to the pub without ever having to change shoes. The interior has a smooth lining for barefoot comfort and a cushy EVA foam insole. Rugged, quick-drying Cordura combines with a quick-draining and highly breathable material in the toe for rugged performance that stays cool and dry. Specially formulated rubber makes the flexible sole super grippy for stand-up paddling, scouting and portaging.

SIZES: 8 - 13

MEN'S GUIDE PANTS - NRS

The NRS Guide Pant combines zip-off adaptability with paddling-specific comfort for ultimate utility on the water. Designed for river guides, fishermen and other boaters who routinely shred conventional clothing, these pants are built for long days on the water, not a walk in the park. 4-way-stretch Element™ material is comfortable in the boat, dries quickly and stands up to the rugged demands of life on the water. The Five-pocket design gives you plenty of places to stash your stuff. An adjustable 1" nylon webbing waist belt keeps them riding just right while the zippered fly with waist button offers ultimate convenience. Wide-opening ankle zips let you put on and remove the convertible legs over sandals or shoes in the boat or cinch the hem for walking through brush or mud.

BABY PFD - HIKO

A life jacket for kids. The foam is carefully distributed so that in case a child falls in water, the life jacket automatically rolls her/him chest up and the collar keeps the head afloat face up. Side straps in combination with a strap running in between legs ensure the life jacket stays on. The front consists of two parts that are connected with buckles; taking the life jacket on and off is therefore quick and easy. BABY features reflective elements as well as a whistle for safety purposes. New - each size is marked by different animal picture on the back panel.

SIZES: I, II, III | COLORS: REFLECTIVE ORANGE

[HTTP://WWW.HIKOSPORT.COM](http://www.hikosport.com)

PRO KIDZ - PEAK UK

Based on the adult's version (the Pro Long), the Pro Kidz is the perfect first paddling jacket. Fully waterproof, windproof and breathable, the lightweight ripstop nylon is tough, comfortable and will keep your little ones protected on the water. Aquaout wrists and neck give a great seal and the elasticated draw-cord hem allows a snug fit around the waist. The Pro Kidz comes in two bright colors and works perfectly with the Kidz Thermal Rashy and Kidz Long John!

SIZES: (YRS) 4, 6, 8, 10, 12 | COLORS: LIME, ORANGE

[HTTP://WWW.PEAKUK.COM](http://www.peakuk.com)

KIDZ LONGJOHN PEAK UK

Based on the adult's equivalent with no short cuts taken on materials, comfort or performance, the Kidz Long John is a superbly versatile piece of kit, essential for your young paddlers! The twin shoulder entry makes entry (and exit!) a piece of cake, and the flatlocked seams, mix of 3mm & 2.5mm neoprene and stretch bound edges will make sure they are comfortable and happy all day long. The blue and lime colour is bright and highly visible. Perfect for any water based activity!

SIZES: (YRS) 4, 6, 8, 10, 12 | COLORS: BLUE

[HTTP://WWW.PEAKUK.COM](http://www.peakuk.com)

BABY LIFEJACKET - X ELEMENTS CZECH, S.R.O

The life jacket for the smallest water tourists guarantees safety in every situation. This child's life jacket was developed specifically for non-swimmers, more padding at the front of the waistcoat ensures that the child's back is properly rotated; the collar ensures that the baby always remains above the water. The safety straps, including the strap between the legs, guarantee a perfect fit on the child body.

SIZES: S, M, L | COLORS: REFLECTIVE ORANGE, REFLECTIVE GREEN, REFLECTIVE YELLOW

Apparel - SLALOM

RACER ST - PEAK UK

The ground-breaking, game changing, three-in-one topdeck / PFD from Peak UK. The Racer ST was launched at the Rio 2016 Olympics and sped Joe Clarke down the course to K1 gold and Florence / Hounslow to C2 silver. Since then, many of the world's best athletes have chosen the Racer ST and it remains unparalleled in terms of performance and innovation in the industry. The foam section in the deck allows for just 20mm of foam in the body, giving a world class fit with incredible freedom of movement. Available in long and short sleeve versions.

SIZES: S, M, L, XL | **COLORS:** BLACK, BLUE, CUSTOM | **DECKSIZES:** K1, C1

[HTTP://WWW.PEAKUK.COM](http://www.peakuk.com)

SPEEDSKIN LONG / SHORT- PEAK UK

The ultimate competition topdeck. The Speedskin has been the choice of champion kayakers for years, from slalom to freestyle, WWR to polo. The highly breathable, highly waterproof spandex / polyester has a four way stretch which offer a super snug fit yet with incredible freedom of movement. All seams are flatlocked and the wicking backer allows the topdeck to be worn next to the skin for minimum restriction. The Speedskin comes attached to the classic Standard Deck which has protected many world class paddlers on their way to glory over the years!

SIZES: XS, S, M, L, XL | **COLORS:** BLACK, BLUE, CUSTOM | **DECKSIZES:** K1, C1, WR

[HTTP://WWW.PEAKUK.COM](http://www.peakuk.com)

Apparel - GLOVES

MITTS NYLON - STORMM RIDE

Nylon Mitts to fit over your paddle shaft and protect your fingers from cold wind or water. Light-weight and functional!

SIZES: UNIVERSAL

[HTTP://WWW.STORMMRIDE.COM](http://www.stormmride.com)

CURRENT MITT - PALM

Create a warm microclimate around your hands when paddling in wind and spray. The current mitts' fleece liner and windproof shell keep your hands warm, without compromising control of your paddle.

SIZES: S - XL

[HTTP://WWW.PALMEQUIPMENTEUROPE.COM](http://www.palmequipmenteurope.com)

GRAB - PALM

The extremely comfortable Grab gloves are constructed entirely from 2 mm super-stretch neoprene, and are designed to fit the natural shape of the hand. They are titanium coated for warmth with PU print for grip.

SIZES: XS - XL

[HTTP://WWW.PALMEQUIPMENTEUROPE.COM](http://www.palmequipmenteurope.com)

TALON - PALM

With its innovative open palm design and internal finger separation for increased control, the Talon mitten allows you to maintain paddle grip and still keep your hands warm.

DISCOVERY DRY DECK BAG SEALLINE

The feature-rich Discovery Deck dry bag delivers resolute waterproof protection. New PurgeAir™ waterproof valve helps the bag compress further once it's been sealed. Adjustable carry strap and multiple lash points make it easy to carry or anchor the bag. Made of rugged, flexible, and fully waterproof materials designed to withstand frequent and demanding use. Light-colored interior significantly eases identification of contents within. Stable oval bottomed shape won't easily roll around; it's also easy to store, stack, and pack. Fully welded seams result in stronger and more durably waterproof construction compared to sewn-and-taped seams. Updated DrySeal™ roll-top closure makes it easier and more intuitive to achieve an optimal seal. PVC-Free.

NEW
2018

BULKHEAD TAPERED DRYBAG SEALLINE

Designed to maximize use of kayak storage space, the shape of the waterproof Bulkhead Tapered dry bag allows it to optimally fit in kayak bow and stern hatches. Plus, the PurgeAir™ valve vents trapped air, better enabling the bag to fit into tight spots. New PurgeAir™-waterproof valve helps the bag compress further once it's been sealed. Nestles into a kayak's bow or stern hatch space, maximizing use of available space. Made of durable materials that help the bag slide smoothly in and out of hatches. Updated DrySeal™ roll-top closure makes it easier and more intuitive to achieve an optimal seal. Fully welded seams result in stronger and more durably waterproof construction compared to sewn-and-taped seams. PVC-Free.

[HTTP://WWW.SEALLINEGEAR.COM](http://www.seallinegear.com)

CREEKKOOLER™ - KANOOLER PRODUCTS

The CreekKooler™ is an innovative, patented, floating cooler. This one-of-a-kind floating cooler floats and tows easily behind kayak, canoe, raft, and SUP, providing easy access to beverages, food, gear or ice. The CreekKooler™ has dual-wall construction and industry-leading insulation that results in superior ice retention. With CreekKooler™ Kanooler Products is not just changing the name in coolers, we are changing the technology. With a kayak-like hull design, and a durable, premium-grade plastic shell, the CreekKooler navigates behind your watercraft with ease. Finally, a great cooler that is at home anywhere, especially in the water. Features include four foam-can cooler sized drink holders, dual-wall blow molded construction, 5 cm of insulation for 48 hours of ice retention, two comfortable grip handles, secure lid and a mini flag holder (flag not included).

SIZES: - 28L CAPACITY HOLDS (30) 355ML CANS AND 9KG OF ICE | DIMENSIONS: 100.3CM L X 53CM W X 29CM H

[HTTP://WWW.CREEKKOOLER.COM](http://www.creekkooler.com)

BULKHEAD COMPRESSION DRYBAG - SEALLINE

Offering a fast and easy way to maximize the use of limited space, the waterproof Bulkhead Compression drybag boasts an innovative compression system, a durably waterproof PurgeAir™ valve, and stow-friendly materials, resulting in a space-optimizing dry bag for use in boat hatches. Unlike conventional systems that pull against seams, our two-strap continuous strap system encircles the bag to minimize seam strain, maximizing durability for dependable protection. New PurgeAir™ waterproof valve helps the bag compress further once it's been sealed. Fully welded seams result in stronger and more durably waterproof construction compared to sewn-and-taped seams. Updated DrySeal™ roll-top closure makes it easier and more intuitive to achieve an optimal seal. Stable oval-bottomed shape won't easily roll around; it's also easy to store, stack, and pack. PVC-Free.

Accessories- PADDLING MACHINES

COMPACT KAYAK ERGOMETER - KAYAKPRO

The KayakPro SUP Ergometer is designed for high impact, high frequency and multi-user use by individuals in gyms, clubs and by professionals. It has a robust aluminum and steel frame construction and easy operating mechanisms, allowing intuitive use and easy adjustments. The KayakPro SUP Ergometer replicates SUP paddling precisely, making it perfect for training. The adjustable resistance and adjustable paddle shaft length allows you to train at your preferred resistance level, to best mimic your own board. The "feel-real" stand-on, moving tilting SUP platform provides the board motion that you would expect from a real SUP board, encouraging you to use the small stabilizing, and core muscles that also need to be trained in order to give you the full body work out that you would expect from on the water SUP paddling.

SIZE: 2.67 M X 0.59 M X 0.51 M

EQUIPMENT TO MAKE PADDLING AS SAFE AS POSSIBLE.

NEW
2018

KING PYTHON - WHETMAN EQUIPMENT

This is an evolution of the Python 5m that offers a heavier duty, more efficient device. Uses include a short throwline, a cow tail, an anchor, a flip line, a towline, haul line, Pig Rig. The sling is 5m of polyester 25mm webbing made and tested in the UK, with a bar tacked stitched loop at one end and an anodised aluminium ring bar tacked at the other end. The bar tacks use high-tensile nylon thread tested to have a MBS of 10kN. The 12mm thick ring is bigger, more tactile, and easier to handle, with a smooth anodised surface. It has an internal diameter of 45mm for a more efficient medium with less friction when used as a Pig Rig with a second King Python. The King Python is a very versatile sling and can often replace the need to use up karabiners.

LENGTH: 5M

NEW
2018

COMPACT TOW - WHETMAN EQUIPMENT

The Compact Towline is a neat small pack measuring 21cm by 10cm with a 40mm cam buckle belt. Pull the front tab to deploy the 14m/10m of 6mm floating line, which has a snag free stainless/anodised Argon karabiner. The line is connected to a 25mm ring linking it to a shock absorber webbing sleeve that is securely anchored to the bag using a D-ring, heavy duty webbing and high tensile bar tacks. The smart, concertina shape is designed to unwrap swiftly, and offers easy repacking. Once repacked, internal Velcro tabs locate and close the concertina for an easy, quick-wrap closure. Built to take abuse, the towline features high-tensile bar tacks positioned in stress areas, proper karabiners and a powerful anchor point connecting the line to the bag.

LENGTH: 10M - 15M

NEW
2018

KRAB STICK - WHETMAN EQUIPMENT

The Krab Stick features a totally unique design by Whetman Equipment. It is a very simple rescue tool that enables reach contact in difficult access situations. It is a small device that makes a big difference by saving time and reducing risk. The Krabstick converts a karabiner into a hook by wedging in the gate, making a trigger. On contact, the force applied triggers the Krab Stick, which releases, thus closing the gate and securing contact. Can be used as a simple Paddle Hook to extend reach using a paddle, or pole or tree branch, or as a longer reach by using two Python slings; very useful for longer reaches over water, even from opposite river banks.

SIZES: SMALL GREEN | LARGE ORANGE

PLAN SEA - °HF

The °hf Plan Sea is a compact towline for sea kayak and touring paddlers with lots of innovative details. The towline comes with 15m floating rope with shock absorber, high-end karabiner and karabiner flotation, waist belt with quick release buckle and a stainless steel D-ring. The unique feature of the Plan Sea is a little neoprene pouch on the waistbelt to store the karabiner. This pouch allows for super quick deployment and quicker rescues. The stainless steel D-ring fixed to the waist belt offers the experienced kayaker multiple towing options and rescue scenarios.

ONE SIZE

[HTTP://WWW.PADDLE-PEOPLE.COM](http://www.paddle-people.com)

THROWLINE - PEAK UK

The unique ring design throwline with full length webbing reinforcing, a favourite with coaches, guides and whitewater boaters. The marine grade stainless steel ring is easy to tie and clip into and provides a friction-free link between rope and karabiner. The tough 600d polyester rip-stop and nylon shell gives superb durability whilst the 9.5mm floating polypropylene rope is tested to EN1891 and has a breaking strain of >700kg (with fig. 8 knot), >1100kg with no knot. A stiffened wide opening allows for easy packing and the tidy cam buckle system makes getting into the bag as simple as possible.

SIZES: 15M, 20M, 25M | COLORS: BLUE / LIME

[HTTP://WWW.PEAKUK.COM](http://www.peakuk.com)

WEASEL - °HF

An amazingly versatile throwbag in an absolute minimum size. The °hf Weasel fits even in the smallest kayak or can be fixed and carried on a waist belt. The cone shaped bag with extra wide opening which was first invented by °hf allows for accurate throws and easy repacking. The Weasel is available in the classic safety colour combination of red-yellow or in high contrast black-yellow.

THULE PROBAR 394, 2-PACK THULE

Heavy-duty aluminum load bars with a unique tri-slot design for fitting of multiple accessories. The tri-slot design gives great flexibility and opens up the possibility of combining a range of different load accessories that can be used independently or together. In the top track, you can fit the Thule Load Stop, Thule Ladder Tilt, Thule Ladder Holder, etc. Mount each accessory in just a few seconds! Simply slide it in and lock in place. In the rear track you can very easily alter between the Thule Roller, Thule Foldable Load Stop and Thule Eye bolt, or mount them together and have the top of the Thule ProBar free for your load! Tested and approved to take a hefty 50 kg load on each bar, meaning up to a total of 200 kg with four bars mounted.

SIZES: 200 CM
[HTTP://WWW.THULE.COM](http://www.thule.com)

THULE LOCKABLE STRAP - THULE

The innovative lockable strap prevents theft of your kayak or other equipment strapped onto your roof rack. The strap contains a highly durable steel core wire, which protects against cutting. The lightweight aluminium strap buckle has a protective cover to avoid scratches and marks on your kayak. It's possible to tighten the strap both when open and locked.

SIZES: 2 X 400 CM
[HTTP://WWW.THULE.COM](http://www.thule.com)

THULE RAPID SYSTEM 775 - THULE

Universal raised railing foot that fits a broad range of railing dimensions. Despite its low and sleek profile this roof rack foot fits even the widest and most extreme railings. The rubber lining protects the surface of the railing from scratching. The footing is securely fixed through the rubber coated steel strap that wraps around the railing. Fits Thule WingBar, SlideBar, AeroBar, SquareBar and ProBar. City Crash approved for 100 kg according to ISO Norm. Lockable to car, locks are included. Maximum load: 100 kg. Be sure to check the maximum load capacity for your vehicle.

[HTTP://WWW.THULE.COM](http://www.thule.com)

COCKPIT DRAPE™ - SEALS SPRAYSKIRTS & ACCESSORIES

Seals introduced the Cockpit Drape™: a new solution for covering the kayak cockpit without the need for precise sizing to the rim. The drape is secured to the kayak via adjustable bungee cords crossing under the hull that maintains the fabric tension across the cockpit area, strong enough to withstand auto transport at highway speed. A perfect choice for kayaks with rims that are lacking enough lip to secure a traditional cockpit cover or for skin-on-frame, inflatable and home-built kayaks. Available in black and three sizes: Cockpit Drape™ (standard), Cockpit Drape™ X and Cockpit Drape™ Tandem.

SIZES: COCKPIT DRAPE™(STANDARD) | COCKPIT DRAPE™ X | COCKPIT DRAPE™ TANDEM |
COLOR: BLACK | **HEIGHT:** 10 CM

ECKLA CANYON COLORED 79939 - ECKLA GMBH

The ECKLA canyon is an easy way to transport your canoe or kayak. This simple to use kayak cart has a non-rusting lightweight aluminum frame and puncture proof tires for anywhere you need to go. When folded, it stores easily in a small space.

LENGTH: 68 CM | **WIDTH:** 38 CM | **HEIGHT:** 36 CM
[HTTP://WWW.ECKLA.DE](http://www.eckla.de)

TURTLE BACK - °HF

The °hf Turtle Back is the lightest kayak carrying system available. It's quick and easy to set up and allows you to carry a kayak comfortably like a big rucksack. The °hf Turtle Back fits every modern kayak with a central pillar and rescue bars/handles behind the cockpit. Patented Design.

SIZES: ONE SIZE
[HTTP://WWW.PADDLE-PEOPLE.COM](http://www.paddle-people.com)

THULE KAYAK SUPPORT - THULE

The Thule Kayak Support is a basic, space-saving rack for transport of all types of kayaks. Vertical carrying kayak stackers can be folded flat when not in use. Sturdy straps keep the kayak firmly secured. Load capacity: 2 kayaks.

SIZES: 45.6 X 18.9 X 6.6 CM
[HTTP://WWW.THULE.COM](http://www.thule.com)

THULE HULLAVATOR PRO - THULE

Load and unload your kayak on your own, thanks to the Hullavator Pro's gas-assist struts that lift and lower up to 18 kg of the kayak's weight. Load/unload and strap your kayak at waist height, with the help of double extending arms that lower the kayak by up to one meter. The Hullavator Pro offers maximum protection for your kayak, thanks to eight touch points of padded support. Corrosion-resistant kayak cradles expand to fit wide kayaks and aluminum, double-coated steel construction offers corrosion resistance and delivers a longer product life. Includes Thule QuickDraw bow and stern tie-downs for transporting one kayak. Maximum load: 35 kg.

SIZES: 89.7 X 15.2 X 42.3 CM
[HTTP://WWW.THULE.COM](http://www.thule.com)

THULE HULL-A-PORT-PRO - THULE

A stable and space-saving kayak rack with J-style cradle that folds down when not in use. The Hull-A-Port Pro folds down to the level of the roof rack when not in use for improved aerodynamics. The wide mouth J-profile offers easier loading and unloading. Steel construction means maximum carrying strength and thick, all-weather pads provide maximum kayak protection. Powerful straps keep the kayak firmly secured while the Thule Buckle Bumper buckle protects the kayak and car from scratches during loading and transport. Lockable with Thule Cable Lock. Load capacity: 1 kayak -Maximum load: 45 kg.

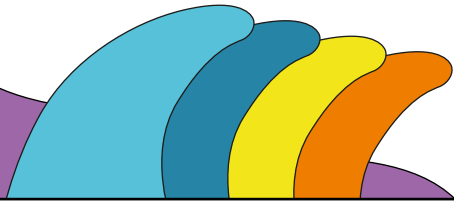

SIZES: 47.6 X 25.2 X 11.2 CM
[HTTP://WWW.THULE.COM](http://www.thule.com)

SLÄGGÖ FLEX RING - SI TECH AB

Flexible Modular Quick Change Solution for wrist seals. The design provides superb comfort and is adaptable to a vast range of garments. Can be used with both silicone and latex wrist seals. With the Quick Change Solution, you can change a broken seal on site in a couple of minutes – without tools or glue. No more risk of losing play time due to broken seal! It is also possible to change size and style of wrist seals to adapt the suit to different persons or activities. Will be available in three sizes.

SIZES: S, M, L

[HTTP://WWW.YATEFOAM.CZ](http://www.yatefoam.cz)

KAYAK WALL SUPPORT SOFT XL ECKLA GMBH

ECKLA is known for products that make storing and transporting your canoe or kayak easier. The new Kayak Wall Support Soft XL is no different. With its big, soft adjustable straps, storing your kayak to free up space in your home or garage has never been easier. Mount the pair on your wall and simply place your boat inside the cradle. The new XL even holds creekboats without worry.

LENGTH: 43CM | WIDTH: 58 CM | HEIGHT: 4 CM

[HTTP://WWW.ECKLA.DE](http://www.eckla.de)

ECKLA BOARDSEAT ECKLA GMBH

The ECKLA Board seat is a revolutionary tool to turn your SUP and Surfboard into a seated paddle craft. Made of lightweight aluminum construction for SUP and Surfboards, the soft seat can be attached easily to each board by using straps. It is quickly adjustable to body size, and has a footrest for transmitting power of the paddle movement perfectly. Easy to use, this is an ideal add-on to maximize your paddling fun any day!

LENGTH: 120C M | WIDTH: 35 CM | HEIGHT: 15 CM | LEVEL: ENTRY LEVEL- ADVANCED

[HTTP://WWW.ECKLA.DE](http://www.eckla.de)

SHAFT FERRULE KAJAK SPORT COMPONENTS

This is a universal ferrule unit to make good quality split paddle with free feather and length adjustment. Works instantly both right and left handed. Simple and smooth construction for very easy and reliable operation, the Kajak Sport Shaft ferrule is corrosion free and friendly to all types of water. Together with the detailed design and hightech plastic we have succeeded in making a strong and tireless ferrule unit which will be a trouble-free and long lasting solution for your paddle.

LENGTH: 55 MM | WEIGHT: 31 G

[HTTP://WWW.KAJAKSPORT.FI](http://www.kajakSPORT.FI)

QUICK NECK - SI TECH AB

The Quick Neck system is revolutionary in simplicity, comfort and function. It is the most effective solution in the market when it comes to sealing the neck area of drysuits. It is developed to provide optimized operational value for the end-user. It ables the user to change a torn or broken seal within minutes by the use of one single tool. The Quick Neck system will save frustration, time and money! It will keep your drysuit operational at all times! No more costly or time-consuming repairs! Quick Neck can be factory fitted or installed the next time your neck seal needs replacement.

SIZES: ONE SIZE

[HTTP://WWW.SITECH.SE](http://www.sitech.se)

KEELEASY PROTECTIVE KEEL STRIP - REED CHILLCHEATER

Self-adhesive keel strips to protect vulnerable areas of boats, kayaks, jet skis, dinghies, etc. Can be applied to any composite or thermo-formed surface by simple peel and stick installation. Heat gun recommended for easy installation or removal. Lightweight and extremely abrasion resistant, available in seven colours, in either 50mm or 100mm width, in 6m kits, strips by the meter or 30m roll.

SIZES: 50 MM OR 100 MM WIDTH | STRIPS SOLD BY METRE OR 30M ROLLS

[HTTP://WWW.CHILLCHEATER.COM](http://www.chillcheater.com)

SILICONE SEALS - SI TECH AB

Silicone seals are constructed from hypoallergenic silicone that have 40% better stretch and offer enhanced comfort compared to latex seals. The seals are durable and resistant to degradation by UV light, ozone or chemicals. The elasticity makes donning the suit much easier and it seals with your skin more effectively. Note that Silicone seals cannot be glued to the suit and must be installed with a Modular Quick Change Solution.

SIZES: SMALL AND STANDARD | COLORS: BLACK, CYAN BLUE

[HTTP://WWW.SITECH.SE](http://www.sitech.se)

MATTE BOTTLE DEWERSTONE

Free the planet from plastic. Our stainless steel bottles are extremely hardwearing with a very long lifespan. They are BPA free, giving you a safer drinks bottle. Keeps hot drinks hot for 12 hours and cold drinks cold for 24 hours. A nice slim fit makes them easy to store in bags, packs and pockets. No sharp edges to get caught and tear fabric. Tried, tested and approved by chief mountain spring water drinker and kayaker Bren Orton.

COLORS: WHITE OR MATTE BLACK | SIZES: 500 ML

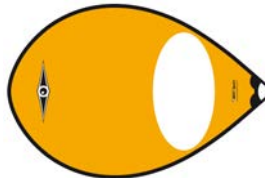

[HTTP://WWW.DEWERSTONE.COM](http://www.dewerstone.com)

BIC KAYAK MULTI-SPORT LEASH BIC KAYAK

The new BIC Kayaks Multi-Leash means that paddlers can now attach themselves and their paddle to the boat. This is a major item for your safety especially when you are kayaking on the ocean. The length of the leash can be adjusted to your size. Features heavy duty Velcro attachments for safety.

[HTTP://WWW.BICSPORTKAYAK.COM](http://www.bicsportkayak.com)

BIC KAYAK SAIL KIT BIC KAYAK

A battened sail to help push you along in a lighing wind. Used simply for fun or for longer distance adventure kayaking, rapid mounting and dismantling like a pop-up tent. Suitable for all Sit-in and Sit-on-top kayaks, automatic power limiter derived from its flexible structure. Simple, efficient and a very affordable price. Features: Ripstop nylon sail, fiberglass battens, comes with carry bag, control lines and handles. Sail area: 1.2 m² - Wind range: 3 - 18 knots - Used for downwind only to a maximum of 45° variance to either side.

SIZE: 1.2 M² | WINDRANGE: 3 - 18 KNOTS

[HTTP://WWW.BICSPORTKAYAK.COM](http://www.bicsportkayak.com)
